CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, AUGUST 18, 1934. NO. 33

BOSTON CITIZENS NOW RECREATION-MINDED AS RESULT OF EFFORTS OF MAYOR MANSFIELD AND PARK DEPARTMENT — MAYOR MANSFIELD GUIDED EFFORTS TO PROVIDE ORGANIZED PLAY ON ALL OF CITY'S PLAYGROUNDS WITH RESULT THAT MORE THAN 100,000 MEN, WOMEN AND CHILDREN HAVE SHARED AND BENEFITED AS WELL AS BEING ENTERTAINED — COMMISSIONER LONG, OF THE PARK DEPARTMENT, GENERAL SUPERVISOR OF WORK.

As result of the interest Mayor Mansfield has taken in the welfare of the citizens of Boston, and his efforts to provide them with healthful recreation, Boston's playgrounds and play spots have been used this summer by more individuals, young and old, than ever before in the history of the city.

Following out the desires and instructions of the Mayor, Park Commissioner William P. Long and his associates have provided every sort of recreation that the varied citizenry have indicated they desired. That such success has attained to the efforts of the Mayor and Park Department officials is due to the fact that a system of planned play has been provided, thus furnishing enticing and attractive entertainment of more than 100,000 persons, from small children to those having passed far along the road of maturity.

From twenty-five Boston Park Department playgrounds, thousands of older girls and young women have learned the joy of planned play for the first time in their lives.

Out in the Brighton-Allston district, during the early evening, there has been community choral singing at different civic centers. On Boston Common a forty-piece orchestra has played.

The program of planned play, instructive recreation and free music and drama for all has grown through funds from the State E. R. A. organization, which supplemented the work of the Park Department under the direction of the Mayor.

The Boston E. R. A. project was initiated by the Mayor, City Administrator Roswell G. Hall and Park Commissioner William P. Long, the City-Wide Emergency Committee on Health and Recreation, and Community Service, a social welfare organization.

The civic program is under the supervision of Park Commissioner Long, assisted by W. Duncan Russell, secretary of the City-Wide Emergency Committee and general director of Community Service.

Glimpses of the program may be seen in almost any section of the city.

The playground activity being conducted for men and boys, supervised by William M. Mullen, on fifty playgrounds throughout the city is attracting more than 86,000 men and boys each week. Baseball is the most popular sport, with 20,000 taking part in games each week.

Special courses are also being conducted in harmonica playing, tennis, baseball pitching, running, roller skating, horseshoe pitching and playground ball. Championship tournaments are being staged in each event.

The musical projects are very extensive and their organization is complicated.

So far nearly 100,000 persons have obtained enjoyment from active participation in the program, while several hundred professional unemployed musicians and actors who remember better times have been given an opportunity to receive salaries.

It is a combined relief and recreation program, with the emphasis on recreation, and as an experiment is more than started on its way to success. Besides the 100,000 taking active part one can only guess at how many thousands more have been entertained. The programs will continue to the end of the summer.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKELL DOLE.

POLICE DEPARTMENT ORDERS.

General Order No. 534.

The practice of having traffic officers who are assigned to relieving and fixed posts pulling in "on duty" calls will be discontinued.

Traffic officers assigned to fixed posts shall telephone their respective stations upon leaving and returning to their posts for the morning and afternoon relieving periods, also upon leaving and returning thereto during the noon lunch period.

Officers assigned to relieving posts shall telephone to their respective stations immediately before and after officers on fixed posts are relieved, also immediately before and after returning to their relieving posts during the noon lunch period.

When officers on relieving or fixed posts are confronted with an emergency that necessitates leaving their posts uncovered they shall, as soon as practicable, telephone to their commanding officers the cause and length of absence.

All officers on fixed and relieving posts shall respond to blinker lights.

Commanding officers desiring to contact an officer on fixed and relieving posts shall notify the dispatcher in the Bureau of Operations who shall relay the message to the radio patrol car covering the sector of the particular officer on post.

All rules and regulations and orders inconsistent herewith are repealed.

This order becomes effective at 7.45 o'clock a. m., Wednesday, August 15, 1934.

The Superintendent of Police will promulgate this order.

Eugene C. Hultman.
Commissioner.

General Order No. 535.

As defined by the Census Bureau, the urban population is, in general, that residing in cities and other incorporated places having 2,500 inhabitants or more, the remainder being classified as rural.

The total urban population of the United States is 68,954,823 (34,154,760 males and 34,800,063 females), of whom 62,836,605 (31,162,570 males and 31,674,035 females) are white; of these whites 52,109,746 (25,520,483 males and 26,589,263 females) are native; 33,497,232 (16,515,816 males and 16,981,416 females) of these latter are of native parentage and 18,612,514 (9,004,667 males and 9,607,847 females) are of foreign or mixed parentage; there are 10,726,859 (5,642,087 males and 5,084,772 females) foreign-born white; there are 5,193,913 (2,479,158 males and 2,714,755 females) Negroes; other races, 924,305 (513,032 males and 411,273 females).

The urban population is 56.2 per cent of the total population of the country; native white, 54.6 per cent and foreign-born white, 80.3 per cent; Negroes, 43.7 per cent.

The total urban population of New England is 6,311,976 or 77.3 per cent of the total population of New England. Of the 4,660,339 native white, 2,089,031 are of native parentage and 2,571,308 are of foreign or mixed parentage; foreign-born whites number 1,564,769; Negro, 81,443; other races, 5,425.

A SQUARE DEAL IN ASSESSMENTS FOR TAXATION.

Many cities are finding it greatly to their advantage to have their tax valuations periodically overhauled. The first criterion of any assessment is equity. For every citizen who wants through "pull" or however else to get off easy, there are twenty, nay a hundred, who want a fair and square deal for all.

The appraisal of city real estate is a highly technical affair.

Few things are more important than the equalization of assessments. Particularly in cities that are cramped by an inflexible debt or tax limit, an honest, full value assessment may be a great boon. Without the slightest raise in the tax rate a substantially greater tax yield may be had.

PUBLIC WORKS DEPARTMENT.

NATIONAL INDUSTRIAL RECOVERY PROJECT, P. W. A., DOCKET NO. 4205.

PROPOSALS FOR GRANITE BLOCK AND SHEET ASPHALT PAVEMENTS IN SOUTHAMPTON STREET, WARDS 7 AND 8, FROM ANDREW SQUARE TO MASSACHUSETTS AVENUE.

The Commissioner of Public Works of the City of Boston hereinafter designated as Commissioner, Room 508, fifth floor, City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one-half thereof is owned by a citizen or citizens of the United States, for granite block and sheet asphalt pavements in Southampton street, Wards 7 and 8, from Andrew square to Massachusetts avenue. Each proposal should be inclosed in an envelope, sealed, marked "Proposals for Granite Block and Sheet Asphalt Pavements in Southampton Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m., daylight saving time, on Tuesday, September 4, 1934, accompanied by a properly certified check on, or a certificate of deposit issued by, a responsible bank or trust company in the sum of three thousand dollars ($3,000), payable to the City of Boston. Checks will be returned after execution of the contract on demand. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. Bids must be made upon the prescribed proposal form. Special attention of the bidders is called to all provisions of the Federal Emergency Administration of Public Works which form a part of the contract, including the prescribed minimum rate of $1.20 per hour for skilled labor, and $0.50 per hour for unskilled labor and to the special provision as to semi-skilled labor. Pursuant to Executive Order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate (worded in accordance with P. W. A. 61, revised March 19, 1934) duly executed by the bidder. Plans, specifications and contract forms may be obtained at Room 508, City Hall Annex, upon the deposit of the sum of five dollars ($5). A surety bond by an approved surety company will be required from the successful bidder in an amount not less than the full amount of the contract. The right is reserved to reject any and all proposals, or to accept any proposal deemed best for the interest of the City of Boston, and no award can be made without the approval of the State Engineer, P. W. A. The name and address of the local registration office of the National Re-employment Service, from which employee lists for this contract shall be obtained, is as follows: State Public Employment Office (Everett L. Hanna, Manager), 100 Nashua Street, Boston.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING RANGE OIL.

The Supply Department of the City of Boston invites proposals for furnishing range oil to the Overseers of the Public Welfare from November 1, 1934, to April 30, 1935, inclusive. Specifications may be obtained at the office of the Superintendent of Supplies, Room 801, City Hall Annex. *There will be a charge of twenty cents ($0.20) a set for each set of proposal taken out.* The bidder must leave his proposal, with a certified check for $200, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The bids will be publicly opened and read at 12 m., at Room 801, City Hall Annex, on Wednesday, August 29, 1934. The successful bidder must furnish a bond for one quarter the total estimated amount of the bid with a surety company authorized to do business in Massachusetts, as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

WARREN W. LOOMIS,
(Aug. 18.) *Superintendent of Supplies.*

CITY OF BOSTON.

POLICE DEPARTMENT.

P. W. A. DOCKET NO. 8200.

Sealed proposals will be received at the office of the Police Commissioner of the City of Boston until twelve o'clock noon, daylight saving time, August 28, 1934, for installation of approximately 500,000 feet of signal cable and miscellaneous work incidental thereto for the Police Department of the City of Boston, at which time and place they will be publicly opened and read.

Specifications and form of proposal will be available to prospective bidders at the office of Jackson & Moreland, engineers, upon the deposit of twenty-five dollars ($25), which deposit will be returned upon surrender of the documents to Jackson & Moreland within one week after the day upon which bids are received.

Proposals must be accompanied by a certified check payable to Eugene C. Hultman, Police Commissioner, in the sum of three thousand dollars ($3,000), which certified check, or the amount thereof, will be returned to the successful bidder upon execution and delivery of the Agreement and Bond and to each unsuccessful bidder within twenty-one calendar days from the day upon which the proposals are received, in each case upon application to the Property Clerk at Police Headquarters.

The project is to be financed and constructed under the terms of the National Industrial Recovery Act and chapter 366, Massachusetts Acts of 1933, and attention is called to the Construction Regulations prescribed by P. W. A. The minimum wage rates for the project are $1.20 per hour for skilled labor and $0.50 per hour for unskilled labor. The employment agency designated by the Government for this project is Massachusetts State Employment Service, 100 Nashua Street, Boston, Mass.

Pursuant to Executive Order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate worded in accordance with P. W. A. 61 (revised March, 1934) duly executed by the bidder. No award can be made without the approval of the State Engineer, P. W. A.

The right is reserved to reject any or all bids.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, AUGUST 25, 1934. NO. 34

BOSTON'S CITY EMPLOYEES, AS WELL AS CITIZENS IN GENERAL, ARE RALLYING TO THE CALL OF MAYOR MANSFIELD FOR SUCCESS AT ANNUAL WELFARE AID BASEBALL GAME BETWEEN RED SOX AND BRAVES — CONTEST TO DECIDE CITY CHAMPIONSHIP, BILLED FOR FRIDAY, AUGUST 31, HAS MANY OTHER FEATURES TO OFFER FOR ENTERTAINMENT — FRED HOEY, RADIO ANNOUNCER, TO BE COMMISSIONED A COLONEL BY KENTUCKY — ALSO VAUDEVILLE ACTS AND GIRL ATHLETES TO BE PRESENTED.

Boston's city employees almost to a man have rallied to the aid of Mayor Mansfield and his committee who have charge of the charity ball game between the Boston Red Sox and the Braves, which, in addition to being played to decide the city championship for the season of 1934, is being staged, on August 31, for the purpose of raising funds to aid the city in meeting the expenditures by the Welfare Department for the aid of those out of employment and who have families to support. Plans were completed and tickets distributed for sale at a committee meeting in the Council Chamber on Wednesday.

The drain on the city for welfare purposes for this year has been but slightly under the demands of last year and, coming in the year when the depression had gone to its lowest level, has made the burden which the citizens of Boston have been bearing doubly hard. In sharing this burden the city employees have borne a very heavy share, and yet the need is so urgent and the demand for aid so insistent that when Mayor Mansfield issued the call, and began to plan for the ball game, he met with a cheeringly whole-hearted response.

Contrary to the usage in other years there will be but two prices for tickets this year, $1 for general admission and $1.50 for reserved seats. This means that box seats as well as the regular reserved sections will be priced at $1.50 each.

Not only have the city employees joined whole-heartedly in the determination to make the game as successful from a financial standpoint and in point of attendance as have been the other games, but also the entire city is joining in the effort. Judge Emil Fuchs and his staff at Braves Field have made extensive plans for the day, as have also Messrs. Yawkey and Collins of the Red Sox. So far as the baseball game is concerned, it is assured that there will be no greater attraction in Boston at any time during the remainder of the season.

In addition to the ball game, however, all the entertainment and amusement executives in the city have pledged their aid to Mayor Mansfield and his committee. The result of all this is that from noontime on, on Friday, August 31, those who attend the game will be entertained as royally and as variedly as could be possible during a whole week of ordinary amusement attendance.

One of the special features of the day will be the commissioning of Fred Hoey, the baseball announcer, in whom Boston takes vast pride, as a colonel by the Governor of Kentucky. All the lovers of baseball and friends of the famous announcer will be on hand to see the ceremony and to applaud the honor.

James J. McGuinness of the Allied Theatres of Massachusetts has provided the best feature acts that are being presented in this locality; there will be band concerts by E. R. A. bands, and during the interval from 12 o'clock to 3 p. m., when the game starts, New England's foremost girl athletes, under the direction of Messrs. Ben Levias and Ralph Colson, will appear and perform in their specialties. Among those who are cooperating, from the E. R. A. are Joseph P. Carney, administrator; Hon. William J. Day, local administrator; Henry Woelber, local supervisor; J. W. LeMonde, librarian, and Miss Frances J. Killilea, executive secretary of local musical projects.

(Continued on page 923.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKELL DOLE.

HOUSING CORPORATION HAS $123,670,500 AVAILABLE.

Transfer to the Public Works Emergency Housing Corporation of $23,670,500 previously allotted to seven low-cost housing and slum clearance projects was announced by Public Works Administrator Harold L. Ickes. The housing corporation now has $123,670,500 available for housing and slum clearance projects.

MOTOR VEHICLE ACCIDENTS IN 1933.

It is estimated that in 1933 there were 30,500 motor vehicle deaths—1,000 more than in 1932; this remaining otherwise, however, the lowest number since 1928, when 27,996 deaths occurred. These figures are given by the National Safety Council, Inc., in "Public Safety" for February.

FIRE DEPARTMENT ORDERS.

General Order No. 57.

I. James McCarthy.

It is with deep regret that the Fire Commissioner announces the death of James McCarthy, engineer in the High Pressure Service, on Sunday, August 12, 1934. Engineer McCarthy was appointed to this department on November 24, 1922.

The funeral was held from his late residence, 59 Pontiac street, Thursday, August 16, 1934, at 8 a. m., followed by services at the Mission Church. This department was represented by a detail from the High Pressure Service under command of Supervisor Winfred C. Bailey.

II. Reinstatement.

The following reinstatement, which took effect at 8 a. m., Friday, August 3, 1934, is hereby announced for the information of the department:

John E. Rigney, to Engine Company 49.

III. Resignation.

The resignation of Ladderman Daniel J. Sullivan of Ladder Company 20 was accepted by the Fire Commissioner to take effect on August 8, 1934.

IV. Sale of Gasolene and Fuel Oil in Boston Harbor.

Recently the Fire Commissioner requested an opinion from the Corporation Counsel on the following questions:

1. Whether or not the Fire Commissioner has any supervision over vessels or barges anchored in Boston Harbor for the sale of gasolene and fuel oil, or over vessels which transport gasolene and fuel oil in Boston Harbor or in any part of the waters around Boston, with respect to licenses for the keeping, sale or transportation of gasolene or fuel oil.

2. Whether or not renewals of such licenses issued by the Street Commissioners for the keeping, manufacture, storage or sale of gasolene or fuel oil should be made by the Fire Commissioner.

3. Whether or not if application for such a license should be made to the Board of Street Commissioners, the Fire Commissioner or the Harbor Master of the city should approve or disapprove the location.

4. Whether or not the Fire Commissioner should continue to renew such licenses at present locations.

5. Whether or not an applicant for a permit to keep, store, sell or transport fuel oil in Boston Harbor or any of the waters around Boston should apply for such a license to the Board of Street Commissioners or to the Harbor Master of the city.

The Corporation Counsel has given a ruling in answer to the foregoing questions as follows:

Questions 1, 2, 4 and 5 are answered in the negative.

In reply to the third question the Corporation Counsel states that in his opinion the Board of Street Commissioners has no authority to grant permits, nor has the Fire Commissioner authority to approve or disapprove locations. In his opinion the Corporation Counsel stated that the Fire Marshal has authority to make regulations governing the storage and sale of gasolene and fuel oil in Boston Harbor and he also has the authority to delegate to some official the right to issue permits. He states further, in his opinion, that the Harbor Master and Assistant Harbor Master have the right to assign the locations of vessels and barges keeping for sale, handling or transporting gasolene or fuel oil in Boston Harbor or the waters around Boston, which authority is given him in sections 21 and 24 of chapter 102 of the General Laws (Ter. Ed.).

The Corporation Counsel also states that at the present time there is no delegation of authority to issue permits for the storage of gasolene and oil in Boston Harbor, so that this authority now rests solely with the State Fire Marshal.

The foregoing is published for the information of the department.

V. Boston Automatic Assignment.

The following addition will be made to the assignment cards of the Boston Automatic Fire Alarm Company:

Signal 242, building at 43 and 45 West street. Apparatus to respond, Engine 35, Ladder 17, and District 5. Nearest city box is 1461.

VI. Commendations.

In a recent General Order the Fire Commissioner announced that he had received a letter from Mr. B. B. Nichols, 27 Dell avenue, Hyde Park, commending the Fire Department for services rendered at a fire in his home on June 25, 1934. Since then Mr. Nichols has sent to the commissioner a check for $25 as a contribution to the Boston Firemen's Relief Fund in further appreciation of the services rendered by the Boston Fire Department.

Hoseman Thomas J. Driscoll of Engine Company 16 is hereby commended for volunteering and donating blood in transfusion to a patient in the Massachusetts General Hospital on June 20, 1934.

Ladderman John P. Driscoll of Ladder Company 10 is hereby commended for volunteering and donating blood in transfusion to Alfred V. Hayhurst, late member of Engine Company 1, at the Boston City Hospital on July 5, 1934.

Ladderman Carl A. V. Anderson of Ladder Company 8 is hereby commended for responding to and working at a fire at 73 Fletcher street, August 6, 1934, while off duty.

The Fire Commissioner is in receipt of a letter from the Revere Sugar Refinery, concerning a fire in one of the warehouses of that company on Saturday, July 28, 1934. The letter is published below for the information of the department:

Boston, August 2, 1934.

Hon. Edward F. McLaughlin,
Fire Commissioner.

Dear Sir,—Last Saturday morning a fire broke out in our raw sugar warehouse, which, but for the prompt response and efficient work of your department, would have been very serious. We are carrying a large stock at this time, and it was very fortunate that the fire was confined to the section in which it was discovered. If it had been allowed to spread, beside the increased property loss, it would have meant loss of work to our employees.

I congratulate your department on the efficient manner in which it handled a difficult situation.

Yours very truly,
E. H. Newhall,
Superintendent.

The commissioner is also in receipt of a letter from Mr. Jerome A. Lally, 73 Fletcher street, Roslindale, in which he praises the members of this department very highly for the character and conscientious service rendered by them at a fire in his home on Monday, August 6, 1934. Mr. Lally emphasized the fact that his mother, who is in very poor health, was asleep on the second floor and that the men performed their duties in such an efficient and capable manner that she was not awakened and did not know anything about the fire until the apparatus was leaving.

By order of Fire Commissioner Edward F. McLaughlin.

Henry A. Fox,
Chief of Department.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Department for permission to raze the following structures as fire menaces or nuisances:

The building at 21 Norwich street and 16 Meander street, Ward 8.

The building at 14 Meander street, Ward 8.

The building at 113 West Fifth street, Ward 6.

The building at 99 Ruggles street, Ward 9.

The building at 10 Dunham street, Ward 7.

The building at 83 Burrell street, Ward 8.

The building at 230 West Third street and 353 E street, Ward 6.

The building at 38 Rochester street, Ward 3. The party wall at basement, between 38 and 40, is settled and bulged; unsafe and dangerous. The owners Julius Hyman and Jacob Hyman of 46 Evelyn street, Dorchester, have been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 21 Rochester street, Ward 3. The legs of party wall in basement, between 21 and 23, are out of plumb, bulged and loose; bulge in rear wall at second story level; unsafe and dangerous. The owners, Guiseppe D'Agostino and Maria D'Agostino, who resided on the premises, have been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 5 Winthrop place, Ward 9. The windows and entrance doors are broken through the building; general dilapidated condition and a menace; unsafe and dangerous. The department has been unable to locate the owner of record, Paige Holder, but a notice of the unsafe condition has been posted on the external wall of the building, but nothing has been done to remove the cause of complaint.

The building at 195 Silver street, Ward 6, is in an unsafe and dangerous condition, dilapidated and a fire hazard. The department has been unable to locate the owner of record, John F. Mulligan, but a notice of the unsafe condition has been posted on the external wall of the building. Nothing has been done to remove the cause of complaint.

The building at 40 Rochester street, Ward 3. The basement leg of party wall, between 40 and 42, at alley is bulged; chimney top over this party wall is bulged; rear wall needs repair; unsafe and dangerous. The owners, Julius Hyman and Jacob Hyman of 46 Evelyn street, Dorchester, have been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

SAND, CINDERS AND SALT IN DULUTH.

About 385 miles of sidewalk are sanded every year and about 250 miles of streets are snow-plowed and sanded. Ordinarily, flat grades are not sanded, this work being confined to steep grades where dangerous ice conditions exist. During the past season the maintenance department used about 500 cubic yards of cinders, 500 cubic yards of sand, and 5 tons of calcium chloride on the streets.

The use of salt, or sodium chloride, has been discontinued entirely, because of its injurious effect on concrete walks and pavements. The action of salt is not clearly understood, but it is much more active during cold weather than in summer, and is apparently due to the formation of crystals after penetrating the surface, the force of which disintegrates the concrete. Calcium chloride does not seem to be entirely free from this difficulty, but is much less active than sodium chloride.

POLICE DEPARTMENT ORDERS.

General Order No. 536.

The report entitled "Return A, Monthly Return of Offenses Known to the Police," for the month of July, has been forwarded to Mr. J. E. Hoover, Director, Division of Investigation, Department of Justice, Washington, D. C.

This monthly return is composed of the following offenses:

1. Criminal Homicide.
   a. Murder and non-negligent manslaughter.
   b. Manslaughter by negligence.
2. Rape. (Abuse of female child.) (Rape, assault to.)
3. Robery (assault to, robbery armed and unarmed).
4. Aggravated assault (assault and battery with dangerous weapon, mahem). (Assault with intent to murder.)
5. Burglary—breaking and entering.
6. Larceny—theft (except auto theft):
   a. $50 and over in value.
   b. Under $50 in value.
7. Auto theft (larceny of automobile and attempted larceny of automobile).

Divisions of this department reported on the above-mentioned offenses collectively for the month of July as follows:

Division.	Number of Offenses Reported.	Unfounded.	Actual.	Cleared.	Per Cent Cleared.
7	15	4	11	12	100.00
15	22	10	12	18	100.00
13	23	7	16	14	87.50
10	54	7	47	41	87.23
9	191	98	93	80	86.02
1	63	37	26	22	84.61
14	35	13	22	18	81.81
11	33	15	18	14	77.77
6	84	43	41	30	73.17
4	156	78	78	57	73.07
2	106	41	65	47	72.30
16	93	62	31	22	70.96
19	31	15	16	10	62.50
18	5	1	4	2	50.00
17	17	1	16	6	37.50

It will be noted upon examination of the percentage of cases cleared that Divisions 7 and 15 have obtained a mark of 100 per cent, and that Divisions 1, 4, 10, 11, 16 and 19 have shown an improvement in the percentage of cases cleared for this month over the month of June.

The total percentage of cleared cases by all the divisions was 80.41 and the combined averages of divisions by districts were as follows:

	Per Cent Cleared.
District B: (Divisions 1, 2, 7, 15 and 16)	85.57
District C: (Divisions 4, 6, 9, 10 and 11)	79.45
District A: (Divisions 13, 14, 17, 18 and 19)	63.86

The commissioner is pleased to note the continual improvement shown by divisions in the percentage of cases cleared for the month of July.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 537.

A trial board consisting of Captains Campbell, McGrath and Kavanagh having heard by reference a complaint made by James R. Claflin, captain, Division 4, against Francis H. Zeigler, patrolman, Division 4, for alleged violation of Rules 36 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge 1: Alleged violation of law.

Specification: In that on the first day of June, 1934, the said Patrolman Francis H. Zeigler, while not on duty, is alleged to have been involved in an automobile accident, and the said Patrolman Francis H. Zeigler is alleged to have left the scene of the said accident, without making known his identity, after having caused property damage.

Charge 2: Neglect of duty.

Specification: In that the said Patrolman Francis H. Zeigler did fail to report to his commanding officer that he (the said Patrolman Francis H. Zeigler) was involved in an automobile accident, wherein it is alleged that the said Patrolman Francis H. Zeigler did leave the scene of said accident without making known his identity, after having caused property damage, all tending to bring into disrepute and criticism his associates in the Police Department, and the Police Department as a whole,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented, finds the said Patrolman Francis H. Zeigler not guilty of Charge 1 and the specification thereunder, and guilty of Charge 2 and specification thereunder. In view of the fact that Patrolman Francis H. Zeigler has been a member of the Police Department for a period of five years and has never been before a trial board for violation of the rules on a previous occasion, and his commanding officer says that he (Zeigler) is an average officer, interested in his work and truthful, and recommends that he be restored to duty, the Board respectfully recommends that the said Patrolman Francis H. Zeigler be suspended from duty for a period of seventy days as of June 8, 1934,"

The commissioner accepts the finding and recommendation of the Trial Board and hereby orders that the said Patrolman Francis H. Zeigler be suspended from duty for a period of seventy days, effective as of June 8, 1934, at 7.45 o'clock a. m.

Civil Service Rule 23, Section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

Section 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

LAND-TAKING IN SOUTH BOSTON.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land and buildings at 201–205 Dorchester street, South Boston district, supposed to belong to Florence E. Creed, and vacant land on West Seventh street, South Boston district, supposed to belong to Annie L. Rodd, for school purposes.

IN BOARD OF STREET COMMISSIONERS OF THE CITY OF BOSTON, August 21, 1934.

Whereas, The Board of Street Commissioners has passed the aforesaid order of notice and has caused a copy of said order to be published July 28, August 4, 1934, in the *City Record*, and has given the public hearing, notice of which was given in said order; and

Whereas, The Department of School Buildings of the City of Boston, with the approval of the Mayor, has selected, designated and requested the Board of Street Commissioners of said city to take for said city for school purposes the land hereinafter described, in that part of Boston known as South Boston; it is

Voted, That the Board of Street Commissioners of said City of Boston, acting under the provisions of chapter 486 of the Acts of the Legislature of 1909 and chapter 79 of the General Laws and all other authority thereto enabling, hereby takes in fee for said city, for school purposes the following described parcel of land, including the trees, building and other structures standing upon or affixed thereto:

A parcel of land, supposed to belong to James F. Mulcahy and Mary F. Mulcahy, bounded:

Southeasterly by Dorchester street, thirty-five and 39–100 feet; southwesterly by land supposed to belong to the City of Boston, seventy-one and 6–100 feet; northwesterly by land hereinafter described as taken from Stapleton *et al.*, twenty-one and 61–100 feet, and northeasterly by West Seventh street, eighty feet, containing twenty-one hundred and fourteen square feet, more or less.

A parcel of land, supposed to belong to Eugene Stapleton and Bridget T. Stapleton, bounded:

Southeasterly by land hereinbefore described as taken from Mulcahy *et al.*, twenty-one and 61–100 feet; southwesterly by land supposed to belong to the City of Boston, one hundred twenty-four and 58–100 feet, and northeasterly by West Seventh street, one hundred twenty-two and 69–100 feet, containing thirteen hundred and twenty-six square feet, more or less.

Said parcels are shown on a plan marked "City of Boston, Dorchester Street, West Seventh Street, South Boston, August 9, 1934, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

WITHDRAWAL AND APPOINTMENTS OF CONSTABLES.

The following was received:

City of Boston,
Office of the Mayor, August 13, 1934.

To the City Council.

Gentlemen,—The following names are withdrawn from the list of Constables submitted by me to your honorable body on April 16, 1934:

Harry Reinherz, David A. Donahue, Nathan Farber,

Subject to confirmation by your honorable body, I hereby appoint the following-named persons Constables in the City of Boston authorized to serve Civil Process upon filing bonds:

Harry Meltzer, Charles Horowitz, John F. Welch, Benjamin Jacobson, John Milgroom.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Severally laid over one week under the law.

DRINKING FOUNTAIN IN BUCKLEY PLAYGROUND.

The following was received:

City of Boston,
Office of the Mayor, August 6, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Boston Park Department, relative to your order of July 23, 1934, concerning the installation of a drinking fountain in the Reverend Thomas W. Buckley Playground, South Boston, to be paid for out of E. R. A. funds; also to install settees therein.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Park Department, August 3, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I am in receipt of an order from the City Council that the Park Commission be requested to install a drinking fountain in the Reverend Thomas W. Buckley Playground, South Boston, to be paid for out of E. R. A. funds; also to install settees in same.

Investigation shows that a drinking fountain is needed very badly in this area, but it cannot be paid for out of E. R. A. funds. The Park Department employees will install a drinking fountain, connect same up with the sewer, and if funds will allow, construct settees.

Very respectfully yours,
WILLIAM P. LONG, Chairman.

Placed on file.

REPORT ON LICENSES AND PERMITS.

The following was received:

City of Boston,
Office of the Mayor, August 11, 1934.

To the City Council.

Gentlemen,—The information requested in the order adopted by your honorable body on July 2, relative to the kinds of licenses and permits now being issued by the various city departments, has already been furnished by the department heads in response to Circular Letter No. 7 from the office of the Mayor, dated March 23, 1934.

I am transmitting herewith a copy of the circular together with copies of replies from all city departments containing the information desired.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

(Appended were the communications referred to.)

Ordered printed as a city document and placed on file.

ANONYMOUS COMPLAINTS AGAINST WELFARE RECIPIENTS.

The following was received:

City of Boston,
Office of the Mayor, August 6, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Overseers of the Public Welfare, relative to your order of July 30, 1934, concerning action on anonymous complaints against aid recipients.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Overseers of Public Welfare,
August 3, 1934.

Mr. John F. Gilmore, Jr.,
Secretary, Mayor's Office.

Dear Sir,—This is to acknowledge receipt of your communication of August 1, 1934, inclosing the following order from the City Council:

"That his Honor the Mayor instruct the Overseers of the Public Welfare that the status of welfare recipients shall not be affected by the receipt of any anonymous letters informing the Welfare Department of financial resources of such recipient. That the Welfare Department act on such cases only when the facts contained in such anonymous letters have been proved to be true."

I beg to say that this department does not act on complaints until all the facts in the case have been definitely checked. Then, and only then, is the recipient dropped from the rolls.

If Councilor Goldman has any cases in mind where action has been taken contrary to the above rule, we shall be glad to receive the names and addresses in such cases and report promptly.

Yours truly,
JOHN C. L. DOWLING,
Executive Director.

CONSTRUCTION OF SEWER IN PHILLIPS PLACE.

The following was received:

City of Boston,
Office of the Mayor, August 1, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Commissioner of Public Works relative to your order of April 30, 1934, concerning the construction of a sewer in Phillips place, Ward 7.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Public Works Department,
July 30, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I beg leave to acknowledge City Council order dated April 30, 1934, reading:

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to construct a sewer in Phillips place, Ward 7."

This office has a petition dated January 17, 1934, requesting that a new sewer be built by the city to replace an old private sewer in Phillips place, said Phillips place being a private way. The private sewer has given considerable trouble in years gone by and is now giving trouble. Said private sewer is shallow, too small in diameter and is not satisfactory for the purpose for which it was constructed.

The estimated cost to build the new proposed sewer is $1,600; said cost calling for the installation of 160 linear feet of 10-inch pipe sewer.

The taking for sewerage purposes has already been made.

Respectfully,
C. J. CARVEN,
Commissioner of Public Works.

WATER SUPPLY IN BAY VIEW SECTION.

The following was received:

City of Boston,
Office of the Mayor, August 9, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Commissioner of Public Works, relative to your order of July 23, 1934, concerning condition of the water supply for the use of residents in the Bay View section of South Boston.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Public Works Department,
August 7, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I beg leave to acknowledge receipt of an order of the City Council dated July 23, 1934, and reading:

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to take such immediate steps as may be necessary to furnish clean and safe water for the use of residents in the Bay View section of South Boston, and to inform the City Council as to what action he proposes to take in the matter,"—

and to state that the water pipes in the Bay View section of South Boston are in good condition, giving an ample supply of water and after the complaints were received of dirty water, etc., a bacteriological examination of the water was made by the Board of Health and the examination showed the water to be excellent and of the same quality as other water now being delivered to the other sections of the city.

Occasionally, due to the heavy draft of water and the probable reversal of the flow of water, pipe repairs of one kind or another, the little sediment which accumulates on the inner perimeter of the pipe, becomes dislodged and causes a discoloration in the water which is absolutely harmless and after a day or two disappears.

Respectfully,
C. J. CARVEN,
Commissioner of Public Works.

VETO—CAR STOP IN BOYLSTON STREET SUBWAY.

The following was received:

City of Boston,
Office of the Mayor, August 2, 1934.

To the City Council.

Gentlemen,—I return herewith, without my signature and with my disapproval, the order passed on July 23, 1934, whereby your honorable body accepted chapter 268 of the Acts of 1934, providing for the construction of a car stop in the extension of the Boylston Street Subway under Beacon street.

It is estimated that the cost of building this station would be at least $300,000—a substantial sum for the city to pay for any purpose in its present financial condition. Undoubtedly the proponents of this measure, whom I heard at great length, would obtain better Elevated service if a car stop were to be built as provided in this act, and the residents of a section of the city would undoubtedly be benefited to some degree. This being admitted, the point to be decided is whether the city as a whole should assume this additional burden when the benefits to be derived would be limited to a very small portion of the community and no appreciable benefit would be derived by the community as a whole.

I am not convinced, as was so forcibly argued at the hearing before me, that the vacancies in apartment houses and the alleged depreciation in real estate values in this particular district have been caused by failure to provide a car stop at or near the place indicated in this bill; nor am I convinced that the establishment of such a stop would fill the vacant apartments and restore real estate values. Neither am I affected by the gloomy vaticinations of the dire ruin of that section of the city if the station is not built. Whether or not the establishment of such a station would have the effect claimed for it by the ardent proponents of this measure is wholly problematical.

On the other hand, when the subway was extended under Governor square the necessity, advisability and relative advantages of car stops at various places were discussed and a proposal to provide for a car stop such as is contemplated by this act was considered and rejected at that time. It must be obvious that a mutiplicity of car stops in a rapid transit subway defeats the very purpose of such subways.

In this particular case the farthest point from a station is about 1,600 feet and only persons living in the vicinity of this farthest point are very greatly affected by the distance between car stops, and these persons are not wholly without Elevated service between stations because a bus service has been installed by the Boston Elevated Railway Company.

It was forcibly urged upon me that the expense involved would be slight and would not add very much to the tax burden. But that is not a sound argument. It would not take many such projects to amount to a great deal in the tax rate and the plight in which the city finds itself at the present moment is largely due to an accumulation of apparently small amounts added to the tax burden at different times. Furthermore, it was assumed by those speaking for the measure at the hearing before me that the station would not pay for itself and over 80 per cent of the cost of maintaining it would fall ultimately on the tax payers of the city. Yesterday at twelve o'clock, three hours before the hearing on this matter, the Metropolitan Transit Council met in my office to consider whether or not fares should be raised by the Boston Elevated Railway Company in order to meet a deficit for the year ending June 30, 1934, of $1,551,631.97. The Council decided that the fares should not be raised which means that the deficit must be paid for out of taxes. A proposal to add another substantial sum to be the deficit already existing ought not to be seriously entertained. With a probable tax rate for 1934 of about $37.50 and for 1935 of over $40 it is perfectly plain to me that this additional burden ought not to be loaded upon the already groaning taxpayer.

This measure may well be deferred for consideration at some future time. The city cannot afford it now.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

RESCISSION OF BALANCES OF LOANS.

The following was received:

City of Boston,
Office of the Mayor, August 13, 1934.

To the City Council.

Gentlemen,—At the suggestion of the City Auditor I submit herewith four orders limiting the right to borrow money for four specific projects, granted in previous years by the City Council, to the actual amount borrowed to date under each project. The passage of these orders will result in the rescinding of that portion of each of the original loans which has never been issued and will permit the auditor to close out on the books of his office four inactive loan accounts. The projects covered by these orders are as follows:

1. Fire Station, Brighton.
2. Automatic Traffic Signal System on Commonwealth Avenue, from Arlington Street to Governor Square.
3. Courthouse, Brighton.
4. New Charities Administration Building.

The loans covering these projects were authorized by the City Council between 1928 and 1931, and the work originally contemplated in each has long since been completed. The unissued balances of the original loans are therefore no longer required and should be cancelled or rescinded. In order to accomplish this result I recommend adoption of the accompanying orders.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

Ordered, That the right to borrow money for Fire Station, Brighton, under loan order passed November 13, 1928, and approved by the Mayor on November 14, 1928, be limited to $66,000, and that the authorization to borrow in excess of said amount, for said purpose, be, and the same hereby is, rescinded.

—

Ordered, That the right to borrow money for Automatic Traffic Signal System on Commonwealth Avenue, from Arlington street to Governor Square, under loan order passed December 16, 1929, and approved by the Mayor on December 18, 1929, be limited to $40,000, and that the authorization to borrow in excess of said amount, for said purpose, be, and the same hereby is, rescinded.

—

Ordered, That the right to borrow money for Courthouse, Brighton, under loan order passed March 3, 1930, and approved by the Mayor on March 4, 1930, be limited to $120,000, and that the authorization to borrow in excess of said amount, for said purpose, be, and the same hereby is, rescinded.

—

Ordered, That the right to borrow money for New Charities Administration Building, under loan order passed March 2, 1931, and approved by the Mayor on March 3, 1931, be limited to $275,000, and that the authorization to borrow in excess of said amount, for said purpose, be, and the same hereby is, rescinded.

LOAN FOR WELFARE EXPENDITURE.

The following was received:

City of Boston,
Office of the Mayor, August 13, 1934.

To the City Council.

Gentlemen,—Under the provisions of chapter 49 of the Acts of 1933 municipalities are authorized, with the approval of the State Emergency Finance Board, to borrow from the Commonwealth for ordinary maintenance expenses, said borrowing not to exceed the total amount of tax titles held by the municipalities. In the preparation of this year's budget plans were made to take advantage of this authorization and appropriations provided in the budget for relief disbursements by the Public Welfare Department were purposely kept below the amounts which it was estimated would be required on a full year basis.

In accordance with my recommendations your honorable body has appropriated up to date $8,600,000 for relief payments by the Public Welfare Department. In the opinion of the Executive Director of this department the grand total of relief expenditures during the year 1934 will be $12,400,000, an amount $3,800,000 in excess of appropriations already provided in the budget. Actual expenditures for relief in 1933 totaled $13,618,223.54.

According to the records of the office of the City Collector the city now holds tax titles to the amount of $4,049,240.21. These holdings are more than sufficient to cover the additional amount required to balance estimated relief expenditures in the Public Welfare Department. In view of this fact I propose to secure the additional amount required by negotiating a loan from the Commonwealth in the amount of $3,800,000 and pledging against this loan the tax titles now held by the city.

Under the provisions of chapter 49 of the Acts of 1933 it is necessary for the City Treasurer to petition the State Emergency Finance Board for authority to make a loan of this character. I submit herewith an order authorizing the City Treasurer to proceed in the manner required and respectfully recommend its adoption by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

Ordered, That under the provisions of section 2, chapter 49, of the Acts of 1933, the City Treasurer be authorized to secure the approval of the Emergency Finance Board to an issuance of $3,800,000 in bonds or certificates of indebtedness of the city, said bonds or certificates to be sold at their face value to the Commonwealth and the proceeds to be used for relief disbursements by the Public Welfare Department, as set forth in the following table:

Public Welfare Department.

F. Special Items.....$3,800,000

9. Care of Dependents, $3,000,000
10. Mothers' Aid..... 400,000
14. Old Age Assistance.. 400,000

TRAFFIC LIGHTS AT DAY AND HEATH STREETS.

The following was received:

City of Boston,
Office of the Mayor, August 9, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Boston Traffic Commission, relative to your order of July 23, 1934, concerning the installation of an automatic traffic signal at the intersection of Day and Heath streets, Ward 10.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Traffic Commission, August 8, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have the honor to acknowledge receipt of a communication from your office dated August 1, 1934, ordering submission of a report as to the necessity and cost of installing an automatic traffic signal at the intersection of Day and Heath streets, as requested in Council order dated July 23, 1934, which reads as follows:

"Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to install an automatic traffic signal at the intersection of Day and Heath streets, Ward 10."

The records of this office show that four motor vehicle accidents involving personal injuries have occurred at this intersection from January 1, 1929, to date. These were divided by years as follows:

1929, 0; 1930, 0; 1931, 2; 1932, 0; 1933, 1; 1934, 1.

One of the above listed accidents, which occurred on June 20, 1934, resulted in a fatality. This unfortunate accident was caused by a boy riding a bicycle into the rear of an automobile. The bicyclist was the victim. It is our opinion that no form of traffic control can prevent accidents of this type.

This intersection is one of a type which is described as a T intersection, that is, there are no serious cross movements of vehicles. Furthermore the two corners are cut back on such large radii that excellent vision is afforded to motorists using the intersection in any direction.

It is the opinion of our engineers that the layout of this intersection and the accident records do not justify the installation of a signal. The approximate cost of such installation would be $1,900.

Very truly yours,
OWEN A. GALLAGHER,
Acting Commissioner.

City of Boston,
Public Works Department, July 30, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I beg leave to acknowledge an order of the City Council, dated April 2, 1934, and reading:

"Ordered, That the Department of Public Works arrange for the installation of a catch-basin on the lower end of the alleyway which is a continuation of Bay street connecting through to Circuit street in order to prevent water from flowing into and flooding private property bordering the said alleyway"—

and to state that the city does not usually provide for the drainage in private land in which this basin has been ordered built, but in this particular location a sewer easement is in progress in which the Maywood brook surface drain is to be constructed under a P. W. A. program, and a catch-basin can be and will be included in the contract when the Maywood brook construction is undertaken.

City of Boston,
Public Works Department,
August 10, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I beg leave to acknowledge receipt of an order from the City Council, dated July 30, reading:

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement Cumston street and Cumston place, Ward 9."

Cumston street, from Rutland street to West Concord street, has a length of 190 linear feet; has, at present, a macadam roadway, block stone gutters, granite edgestone and brick sidewalk. The present road surface is in fair condition. An asphalt pavement on a 6-inch concrete base will cost approximately $900.

Cumston place, from Cumston street to Shawmut avenue, a length of 110 linear feet, has a macadam roadway, block stone gutters, granite edgestone and brick sidewalk and is in fair condition. An asphalt pavement on a 6-inch concrete base will cost approximately $600.

There is no money available for construction of either Cumston street or Cumston place this year.

City of Boston,
Police Department, August 6, 1934.

Mr. John F. Gilmore, Jr.,
Secretary, Mayor's Office.

Dear Sir,—In reference to your memorandum dated July 12, 1934, with which you forwarded to this office an order of the City Council directing that his Honor the Mayor request the Police Commissioner to place traffic officers on duty at the junction of Allen street and Charles street and at the junction of Leverett and Charles streets, at the circle, observation has been made by the supervising officers in charge of traffic in this department and I am sending you herewith copies of their reports. You will note that arrangements have been made to have these points covered by traffic officers as much as possible in order to provide greater safety for pedestrians using these crossings.

I am returning the order of the City Council, copy of which has been kept for the files of this office.

Very truly yours,
E. C. HULTMAN,
Police Commissioner.

—

City of Boston,
Police Department, August 1, 1934.

To the Superintendent.

Sir,—With reference to the attached communication from John F. Gilmore, Jr., assistant secretary, office of his Honor the Mayor, in relation to request of the City Council to place traffic officers on duty at the junction of Allen and Charles streets, and at the circle, at the junction of Leverett

and Charles streets, I respectfully report that I directed Lieut. Thomas F. Harvey, of this Bureau, to make an inspection and study of the traffic condiions at the junction of Allen and Charles streets, and also at the circle, at the junction of Leverett and Charles streets, for the purpose of learning at what time during the day and evening traffic was at its peak, and that after learning as to these conditions that Lieutenant Harvey take up with Captain Mullen of Division 1, in whose territory both of these points are located, any deficiency in traffic conditions that require correction, with particular attention to the placing of traffic officers at these two points during the busy hours of the day.

You will please note in the second paragraph of Lieutenant Harvey's attached report to me that he conferred with Mr. O'Connor, of the Boston Traffic Commission, relative to traffic conditions at these interesections, as mentioned in the attached communication from the Mayor's office, and that Mr. O'Connor assured the lieutenant he would have white lines, designating a pedestrian lane, painted across Charles street, from the corner of Allen street to the reservation in the center of Charles street, and from the reservation across to the Charlesbank Park; also that he took up with Mr. O'Connor the matter of installing traffic lights at this location, Charles and Allen streets, and Mr. O'Connor informed Lieutenant Harvey that the Traffic Commission was unable to install lights at this time but that Traffic Commissioner Hickey had had a talk with his Honor the Mayor of Boston during the last few days, and that the Traffic Commissioner had assured the Mayor that when money was available a traffic signal light would be installed at this intersection.

You will further note in the third paragraph of Lieutenant Harvey's attached report that he observed from 7.45 to 9.15 a. m. and again in the afternoon, from 4 to 6 p. m., traffic was very heavy at the corner of Leverett and Charles streets, and required the services of one officer to keep traffic moving freely; further on in the fourth paragraph you will please note that Lieutenant Harvey conferred with Captain Mullen relative to placing an officer at this intersection from 8 to 9.15 a. m. and from 4 to 6 p. m., and Captain Mullen assured the lieutenant that he would do everything possible to keep this crossing covered at the hours mentioned above and also during evenings when persons were going to and coming from the Esplanade to attend the concerts, and with this assurance carried on, in the opinion of Lieutenant Harvey, this will take care of traffic conditions at that point very nicely.

I therefore respectfully recommend that these reports containing the action taken by the Police Department in the matter of the order of the City Council, under date of July 2, 1934, be forwarded to John F. Gilmore, Jr., assistant secretary to his Honor the Mayor of Boston, to be referred to the City Council as an answer to their order passed July 2, 1934.

Respectfully submitted,
JOHN T. O'DEA,
Lieutenant, Commanding Bureau of Traffic.

—

City of Boston,
Police Department, July 31, 1934.

Lieut. John T. O'Dea,
Commanding Bureau of Traffic.

Sir,—With reference to the attached order, passed by the City Council July 2, 1934, to the effect that the Mayor request the Police Commissioner to place traffic officers on duty at the junction of Allen and Charles streets, and at the circle, at the junction of Leverett and Charles streets, from 8 a. m. to 11 p. m., I respectfully report that I took this matter up with Captain Mullen, of Division 1, who stated to me that he had an officer assigned to traffic duty at the intersection of Charles and Allen streets, but that, at the present time, this officer was absent on account of sickness but that he expected he would return to duty within a short time when he would replace him on this traffic post.

I also conferred with Mr. O'Connor, of the Boston Traffic Commission, relative to traffic conditions at the intersection named above and he has assured me that within a few days he will have white traffic lines, designating a pedestrian lane, painted across Charles street, from the northerly corner of Allen street to the reservation, and from the reservation across to Charlesbank Park. During our conference I took up with Mr. O'Connor the matter of installing a traffic light at this location and he stated to me that owing to a shortage of funds, at this time, the Traffic Commission was unable to comply with this request, and that Traffic Commissioner Hickey, during a talk that he had with the Mayor of Boston within the last few days, had assured the Mayor that when the money was available a traffic signal light would be installed at this intersection.

Relative to placing an officer in the traffic circle at the corner of Leverett and Charles streets, I respectfully report that after observing conditions at this location, I find that in the morning, from 7.45 to 9.15 a. m., and again in the afternoon, from 4 to 6 p. m., vehicular traffic is very heavy and requires the services of one officer to keep it flowing smoothly. During the other periods of the day traffic is not extremely heavy and the circle, being so large, it is well able to take care of all traffic which passes through without any congestion. Pedestrian travel, at this point, is very light, with the exception of evenings when large numbers of persons come from the West End and North End and cross at this point to attend the concerts on the Esplanade.

I conferred with Captain Mullen relative to placing an officer at this intersection from 8 a. m. to 9.15 a. m. and from 4 to 6 p. m. and he assured me that he would do everything possible to keep this crossing covered at the hours mentioned above, which, in my opinion, will be all that is necessary. Captain Mullen further stated that during evenings when concerts are held on the Esplanade he will have the route officer take care of this crossing, while persons are going to and coming from these concerts, in order that they may cross the street in safety and without undue hindrance.

In view of the action taken by the Police Department to safeguard the intersections enumerated above, I would respectfully recommend that this matter be placed on file for future reference.

Respectfully submitted,
THOMAS F. HARVEY,
Lieutenant, Bureau of Traffic.

City of Boston,
Park Department, August 3, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I am in receipt of an order from the City Council that the Park Department allow baseball team known as Boston Agawam A. A. to use the baseball diamond on Boston Common one evening a week.

In order for this baseball team to use Boston Common it will be necessary for them to join the Park Department Baseball League. We have 14,000 in our league at the present time and our diamonds are used to the fullest extent. Our schedules are prepared and it would disorganize our league to allow a permit of this kind.

CUTTING AID OF WELFARE RECIPIENTS.

Coun. DOHERTY offered the following:

Ordered, That the Overseers of the Public Welfare, through his honor the Mayor, be instructed to discontinue the practice of cutting the aid of recipients when a member of the family is in the hospital.

Coun. DOHERTY—If one of the recipients of aid in a family is injured by an automobile and confined to the hospital for a couple of weeks, for those two weeks aid is stopped. I feel that is the time it should be continued and I would like to have that order passed under suspension of the rule.

Passed under suspension of the rule.

NOTICE OF APPLICATIONS FOR GASOLENE PERMITS.

Coun. DONOVAN offered the following:

Ordered, That the Street Commissioner, through his Honor the Mayor, be requested to notify the councilor representing any district wherein application is made for the storage and sale of gasolene and oils, by registered mail as soon as possible after said application is made.

Coun. DONOVAN—On many occasions we find application is made for the storage of gasolene and fuel oils in our district. Only last week an application was made in my district and I knew nothing about it. The hearing was called for today and it didn't give me time enough to call various people who might be interested in an appeal before the Board to stop the issuance of the permit. I find it to be about the same in every district, so I am asking his Honor the Mayor to instruct the Street Commissioners to inform every councilor by registered mail when there is a subject of this matter before the Board of Street Commissioners.

Coun. SELVITELLA—I happened by chance to learn last week there was a petition for 120,000 gallons of gasolene to be stored in my district and the hearing came up this morning and if it had not been for a chance remark I heard on the street I would not have been present at the hearing this morning. I think every councilor here ought to be protected. When a petition for the storage of petroleum products is made, courtesy ought to dictate that the councilor from that district be notified.

Passed under suspension of the rule.

ANDREW J. GLEASON CIRCLE.

Coun. DONOVAN offered the following:

Ordered, That the Traffic Commissioner, through his Honor the Mayor, be instructed to name the circle at Castle Island in memory of the late Andrew J. Gleason.

The order was passed under a suspension of the rule.

Coun. GLEASON—Mr. President——

President DOWD—For what purpose does the councilor rise?

Coun. GLEASON—I ask unanimous consent to make a statement.

President DOWD—Councilor Gleason asks unanimous consent to make a statement. Is there any objection? All right, Councilor Gleason.

Coun. GLEASON—There will not be any vote against this Gleason. I want to say nothing whatsoever about the Richard Gleason, the councilor. I am proud to hear that the Gleasons are getting ahead in Boston and it is a pleasure to hear that great name of Gleason mentioned in the Council.

REINSTATEMENT OF DAVID I. BARRY.

Coun. DONOVAN offered the following:

Ordered, That the Public Works Commissioner, through his Honor the Mayor, be instructed to reinstate David Barry as an employee of the Public Works Department.

TRAFFIC SIGNALS AT HOMESTEAD AND HAROLD STREETS.

Coun. BRACKMAN offered the following:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to install automatic traffic signals at the junction of Homestead and Harold streets.

Passed under suspension of the rule.

INVESTIGATION OF TELEPHONE, ELECTRIC AND GAS RATES.

Coun. BRACKMAN offered the following:

Ordered, That his Honor the Mayor be requested to intercede with the proper E. R. A. officials for sufficient funds to investigate and prepare the people's case on telephone, gas and electric rates in the City of Boston.

Coun. BRACKMAN—I think by this time it must be obvious that the public utilities in this state are mulcting the public when it comes to telephone, gas and electric rates. I think many are in accord on this proposition, but the main difficulty seems to be that the case against the utilities is difficult to prepare. We realize that a great deal of bookkeeping and special accounting must be done in order to check up the business affairs of so large an institution as these public utilities are. The city has never been able to bear the expense of making a complete check-up and a careful study of matters like depreciation and obsolescence where these utilities are able to cover up a great deal of the money they received, and so I am asking the Mayor to attempt to secure funds from the United States Government, and they have been investigating some work along this line, of investigating utilities throughout the country, and I believe that the officials in charge of the disbursement of this fund would be eager and anxious to help out a city like Boston in trying to put their finger on these utilities who have been dragging these large sums of money out of the public and I am asking the Mayor to apply for this fund so the Corporation Counsel's office can make a complete check-up and study with experts and accountants and prepare a case to go before the Commission and lay the cities' case before them properly.

Coun. WILSON—I see no objection to that order as to its wording and agree with much that the councilor from Roxbury has said, except from past experience it would appear that a reduction in the telephone rates, even properly handled, would mean the reduction of wages for every employee of the American Telephone Company and the saving, if any, effected for the public,—a few cents or dollars in each case, that the corporation, the public utility following their usual procedure will be again recovered by reducing the wages of their employees, and so I would prefer such an order, if there were no objection, bearing an amendment, something to the effect that all due protection be given to the employees of the Telephone Company and that there be no reduction of wages incident to any such investigation.

Coun. BRACKMAN—I have no objection to that amendment, but I think that a careful check-up of the books of the company made by experts, they would find it would not be necessary to reduce anybody's salary and yet cut the rates because of the tremendous profits these utilities are making.

Coun. GLEASON—I believe when any concern gets bigger than the City of Boston the government should step in and protect the people of this city, like the electric company, gas company, or any other company that the City of Boston isn't able to buy out. I believe that the government should come in here and protect us people and I believe Councilor Brackman's order is perfectly O. K. When any concern is bigger than the City of Boston, then the government should step in here and protect us people.

Passed under suspension of the rule.

RELEASING LAND AT CORNER OF EAST BROADWAY AND N STREET FROM RESTRICTIONS.

Coun. DONOVAN offered the following:

Whereas, The City of Boston by deed dated November 30, 1877, and recorded with Suffolk Deeds, Book 1401, page 164, conveyed a certain parcel of land situate on the northerly side of East Broadway, making the northerly corner of said East Broadway and the easterly side of N street, in that part of Boston called South Boston, and conveyed the said land subject to certain condition and restrictions, two of said restrictions being numbered 3 and 4 and in the following words, namely:

"3. The building which may be erected on said lot shall be of width of at least twenty-two feet."

"4. No dwelling house or other building except the necessary out building shall be erected or placed on the rear of said lot unless it be a stable for private use."

Whereas, A portion of said parcel of land above described was conveyed to Catherine F. Santry by deed dated November 14, 1921, and recorded with Suffolk Deeds, Book 4328, page 298, subject to the same restrictions or conditions in so far as the same are now in force and applicable; and

Whereas, The owners of said last mentioned premises desire to have the said premises released from the said conditions and restrictions; now, therefore, it is hereby

Ordered, That his Honor the Mayor be, and he hereby is, authorized, in the name and behalf of the City of Boston, by a written instrument, in form satisfactory to the Law Department of the City of Boston, to release the said land from the said restrictions in so far as the City of Boston legally can without interfering with the legal or equitable rights of others.

Referred to committee on public lands.

IMPROVEMENTS, BOYD STREET, WARD 15.

Coun. TOBIN offered the following:

Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to resurface and repair the street and sidewalk of Boyd street, Ward 15.

Passed under suspension of the rule.

DISCONTINUANCE OF ELEVATED BUSES ON BRENT STREET.

Coun. WILSON offered the following:

Ordered, That the Trustees of the Boston Elevated Railway be, and they hereby are, requested to discontinue operation of buses through Brent street, Dorchester.

Passed under suspension of the rule.

REPAVING NORTH AND CHARDON STREETS.

Coun. FITZGERALD offered the following:

Ordered, That the Commissioner of Public Works, through his Honor the Mayor, be instructed to repave with smooth paving

North street, Ward 3, and Chardon street, Ward 3.

Passed under suspension of the rule.

INVESTIGATION OF FORECLOSED AND REMORTGAGING OF PROPERTY.

Coun. GREEN offered the following:

Ordered, That the Bank Commissioner, through his Honor the Mayor, be instructed to investigate foreclosures of property and the remortgaging of the same property.

Passed under suspension of the rule.

CLAIMS REPORT.

Coun. BRACKMAN, for the Committee on Claims, submitted a report on the petition of Patrick H. McLaughlin (referred July 2) to be reimbursed for execution issued against him on account of his acts as a policeman—recommending the passage of the following:

Ordered, That the sum of $42.80 be allowed and paid to Patrick H. McLaughlin in reimbursement for amount of judgment issued against him on account of his acts as a police officer of the City of Boston, October 8, 1933.

Report accepted; order passed.

REDIVISION OF WARDS.

Coun. DONOVAN offered the following:

Ordered, That the Council committee on redistricting the wards of Boston be increased to nine members.

Passed under suspension of the rule, and the President appointed Coun. Englert and Donovan as additional members of the committee.

Coun. GLEASON—Mr. President, I would like to have you name the nine members.

President DOWD—The clerk will read the nine members appointed by the Chair.

The clerk read the names of the members as follows:

Coun. Gallagher, Murray, McGrath, Roberts, Green, Fitzgerald, Wilson, Englert, Donovan.

Coun. SELVITELLA—I ask unanimous consent to make a statement.

President DOWD—Is there any objection to Councilor Selvitella making a statement? All right, Councilor Selvitella.

Coun. SELVITELLA—There occurred an item in one of the East Boston papers attempting to put me on the spot on the question of redistricting the wards and it appeared I was ducking the committee or that I ran out on the committee to avoid any part in the committee's work in redistricting the line; so in order that it may go into the record I want to make a statement now that I was never asked to be on the committee so that the editor of this newspaper will take notice of it.

Coun. GLEASON—I ask unanimous consent to make a statement. Only a week ago, Mr. President, you told me that if you named two men, that I would be one of them and I am going to make an order to ask you to name the whole City Council to represent every district. We all want to be protected the same as you want to be protected. Let us protect ourselves and if you want to be fair and square you will name the whole Council here and I am asking you to do it, and I am asking you now—didn't you tell me you would appoint me on that committee,—yes or no? Mr. President, I am asking you to name the whole City Council to represent every ward and be fair with us all.

President DOWD—The Chair will state the councilor can introduce any order he desires naming the entire City Council and if it passes the body, the Chair will recognize it.

Coun. GLEASON—Then I will do it before the meeting is over.

RECESS.

The Council voted at 3 p. m., on motion of Coun. WILSON, to take a recess subject to call of the Chair. The members reassembled in the Council Chamber and were called to order by President DOWD at 3.55 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. WILSON, for the Executive Committee, submitted the following:

1. Report on message and order (referred today) for loan of $3,800,000 for Public Welfare Department—recommending order ought to pass.

Report accepted; said order given its first reading; yeas 17, nays—Coun. Shattuck, Wilson—2.

2. Report on message and orders (referred today) for the rescission of balances of various loans, that same ought to pass.

Report accepted; said orders passed, yeas 19, nays 0.

3. Report on the message and orders (referred July 2) for transfers to the Hospital Department, Kitchen Building and Laundry Building, Furnishing and Equipping—recommending orders ought to pass.

Coun. GLEASON—I have suffered in that hospital for two years and I found that Doctor Dowling and Mr. Smith, who runs the kitchen, are perfect gentlemen. Whatever stories get into the paper saying there is some rotten deal or other, I do not believe either gentleman knows anything about it, and whether you do or not, I don't know, but both Doctor Dowling and Mr. Smith, when I was up there sick and suffering, were perfect gentlemen and I am asking the Council today to be fair with them, and if there is anything rotten about this deal or crooked, then I don't know about it and I am asking the Council to pass the order.

Report accepted; orders passed, yeas 19, nays 0.

LOAN FOR CHELSEA BRIDGE.

President DOWD called up No. 3 on the calendar, as follows:

3. Ordered, That under the provisions of chapter 342 of the Acts of 1934 the sum of $84,000 be, and hereby is, appropriated, to be expended by the Commissioner of Public Works, for Chelsea North Bridge, Repair and Strengthening, and that the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the City of Boston to said amount, the same to be issued outside the statutory limit of indebtedness.

On July 30, 1934, the foregoing order was read once and passed, yeas 18, nays 0.

The order was read a second time and again passed, yeas 19, nays 0.

REDIVISION OF WARDS.

Coun. GLEASON, KERRIGAN, FINLAY, GOLDMAN and DOHERTY offered the following:

Ordered, That the special committee on redistricting the wards of Boston be increased from nine members to twenty-two members, so that the committee will consist of the entire membership of the Boston City Council, thereby giving each councilor full representation at special committee hearings.

Passed under suspension of the rule.

President DOWD—The Chair will appoint without reservation the entire twenty-two members of the Council. The Chair will state in connection with that order that he appoints the chairman of the original seven, Councilor Gallagher, to be chairman of the committee.

TRANSFER FOR SEWER EQUIPMENT.

Coun. TOBIN moved to take No. 4 on the calendar from the table, viz.:

4. Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to make the following transfer in the appropriation for Public Works Department, Sewer Division:

From the appropriation for B, Service Other than Personal, $25,000, to the appropriation for C, Equipment, $25,000.

The motion of Coun. Tobin to take No. 4 from the table was declared lost.

Coun. TOBIN—I would like to ask unanimous consent to make a statement.

President DOWD—Councilor Tobin asks unanimous consent to make a statement. Is there any objection? The Chair hears none.

Coun. TOBIN—Mr. President, I am anxious to have this matter taken from the table because I believe that we should not adjourn today without taking some action on this matter one way or the other. If this idea is not satisfactory then the order should be rejected. If, however, the Council feels that the order is satisfactory, then we should accept it and pass it today. This order calls for the transfer of $25,000 in the Public Works Department, in the Sewer Division, for transfer from the Item B to Item C equipment. The purpose of this order is to purchase four machines so that the city employees can clear and clean the catch-basins of our city. We have at the present time in the City of Boston 15,000 catch-basins. We have in the Sewer Division five districts covering this work. Since last year in each division there have not been more than one hundred basins cleaned by the men in that department. For many years the city has been in the habit of allowing this matter of cleaning the catch-basins to be let to contractors. Last year the item was $40,000 for contract cost to the City of Boston. Every official that I have ever heard speak, with reference to the matter of contract labor and city labor, has always advocated instead of contract labor the matter of day labor and work for city employees. We have, if this order is adopted, men in the City of Boston paid by the city to do this work. It will give us the opportunity to use more men in these departments. In the Gibson street district, covering the Dorchester area, at one time they employed four hundred men in the Sewer Division for this type of work. At the present time there is a mere handful. With this equipment the city men can take care of the sewers and it may also result in the reinstatement of several street inspectors who were dismissed, to take care of this work. I think there is considerable merit to the passage of this order with reference on the one issue alone of giving work to the city employees. There is also considerable merit to the passage of this order with reference to any losses that might come upon the City of Boston. If the catch-basins are not cleaned, many of these basins are in front of stores and property that can be damaged, and our Committee on claims will have to pay out thousands of claims to the abutting owners for destruction of property. It seems whatever action the Council wishes to take, they should take definite action one way or the other. Either the order should be rejected and let the work go to the contractors, or the order should be adopted, buy the equipment through the Supply Department after advertising by the city, so this work can be done. I think we ought to take action. The main issue is that the work should be done. This work is one of the governmental functions of our city affecting the property and health and cleanliness of our city and the streets and its people and for that reason I ask once again that this order be taken from the table.

President DOWD—The Chair will rule that motion to take from the table for the second time without further business intervening is out of order.

Coun. TOBIN—I ask for a roll call on my original motion to take from the table.

Coun. GLEASON—I ask unanimous consent to make a statement.

Coun. TOBIN—I have no objections to his making a statement, if I do not lose any rights on my motion of asking for a roll call.

Coun. GLEASON—Mr. President, this order is O. K. I am not talking about the veterans because I happen to belong to the same post with you, 44 of Roxbury. Of course, I am not recognized as you were at one time, but I happen to be a veteran. I think also the other people of Boston want to work also and the only way they can get work is through a contractor. I do not believe the Mayor of Boston has put this order in here. I think we should consider the men with five or six children as well as a veteran, and I am talking as a veteran, and I believe the Council today will reject the order, and I believe the Mayor of Boston never sent the order up here, and I am asking the Council to defeat this order today, as a veteran, to give someone else a chance to work also who has five or six poor children starving. Give them a break, and if I am wrong, I can be defeated. I am asking you to vote against this order to give other men a chance to go to work. The veteran has first position up in civil service and I myself, as a veteran, think when a man has five or six children he should be given some work also. That is my opinion and if you want to defeat the order, go ahead.

President DOWD—Councilor Tobin doubts the vote and asks for a roll call.

Coun. GREEN—So that we can vote intelligently on this order, Mr. President, I would like to know just who is representing the Mayor on the floor of the Council. One member will say he doesn't want it and another will say he does want it and I would like to have somebody stand up and be counted as representing the Mayor to find out whether the Mayor does or doesn't want it. Before we vote on it I would like to find that out.

Coun. GOLDMAN—I ask unanimous consent to make a statement. I should like to know who sent that order up.

President DOWD—The Chair will state the Mayor of Boston sent the order up.

Coun. GOLDMAN—I trust that will answer my colleague's queries.

President DOWD—The clerk will call the roll.

The motion to take from the table was lost. Yeas—Coun. Brackman, Shattuck, Tobin, Wilson—4; nays—15.

COUNTY APPROPRIATIONS.

Coun. WILSON—Mr. President, while gathering ourselves together, might I ask with reference to assignment No. 5 on the calendar, that we pass B, Service Other than Personal, $900, in the Superior Court, Civil Session, and under the Superior Court, Criminal Session, D, Supplies, $6,500, and under Probate Court, B, Service Other than Personal, $8,250, and under Registry of Deeds, B, Service Other than Personal, $600. Even though some members of the Council are in favor of tying up Suffolk County so far as printing and stationery is concerned, at least we can furnish the courts with sufficient money to pay their telephone bill, stenographic service, typewriter repairs and food for jurors; and having that in mind I make that motion concerning those items and those amounts under 5 on the calendar.

Coun. GOLDMAN—I should like to amend that and have all the items appearing in No. 5 voted on together and I so move.

No. 5 on the calendar was as follows:

5. Ordered, That to meet the current expenses payable during the financial year beginning with the first day of January, 1934, for performing the duties and exercising the powers devolved by statute or ordinance, or by vote of the City Council during the year, upon the County of Suffolk or the departments or officers thereof, the respective sums of money specified in the tables and schedules hereinafter set out be, and the same are, hereby appropriated for the several departments and for the objects and purposes hereinafter stated, that said sums be raised by taxation upon the polls and estates taxable in the City of Boston, and that all orders heretofore passed by the City Council relating to appropriations and taxes and the interest thereon apply to the taxes herein provided for.

Superior Court, Civil Session, Clerk's Office.

B.	Service Other than Personal.....	$9,900 00
D.	Supplies.....	13,000 00

Superior Court, Criminal Session.

D.	Supplies.....	$14,500 00

Probate Court.

B.	Service Other than Personal.....	$9,650 00
D.	Supplies.....	8,000 00

Registry of Deeds.

B.	Service Other than Personal.....	$1,600 00
D.	Supplies.....	4,000 00

President DOWD—The greater sum comes first and the question is on Councilor Goldman's motion and the passage of the order, No. 5 on the calendar. The question comes on the passage of the entire order and the clerk will call the roll.

Order passed. Yeas—Coun. Agnew, Brackman, Doherty, Dowd, Englert, Fitzgerald, Gallagher, Gleason, Goldman, Green, Kerrigan, McGrath, Roberts, Selvitella—14. Nays—Coun. Donovan, Finley, Shattuck, Tobin, Wilson—5.

CLERKS' SALARY AT BOSTON CITY HOSPITAL.

Coun. DOHERTY offered the following:

Ordered, That the Trustees of the City Hospital be requested, through his Honor the Mayor, to increase the maximum of clerks' salary from fifteen hundred to sixteen hundred dollars per year.

Passed under suspension of the rule.

REPAVING EAST SIXTH STREET.

Coun. KERRIGAN offered the following:

Ordered, That the Street Commission, through his Honor the Mayor, be instructed to repave with smooth paving, East Sixth street, South Boston.

Passed under suspension of the rule.

THE NEXT MEETING.

Coun. BRACKMAN moved that when the Council adjourn it be to meet two weeks from today.

The motion was adopted and the Council voted, at 4.15 p. m., to adjourn, to meet on Monday, August 27, 1934, at 2 p. m.

PROPOSALS FOR GROCERIES (CANNED GOODS).

The Supply Department of the City of Boston invites proposals for furnishing groceries (canned goods), as required, to the various city departments. The bidder must use the form of proposal to be obtained at the office of the Superintendent of Supplies, Room 801, City Hall Annex, and the successful bidder must furnish a bond for one quarter the total amount of the bid with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract, in case the amount of the contract awarded aggregates $2,000 or more. *There will be a charge of forty-five cents ($0.45) for each set of blank proposals taken out.* The bid, with a certified check for $200, payable to and to become the property of the City of Boston if the proposal is not carried out, must be left at the office of the Superintendent of Supplies, before 12 m., Friday, September 7, 1934, at which time and place they will be publicly opened and read. A duplicate bid, without check, must be left at the office of the City Auditor, prior to the time named for opening bids. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

WARREN W. LOOMIS,
(Aug. 25.) *Superintendent of Supplies.*

POLICE DEPARTMENT.

P. W. A. DOCKET No. 8200.

Sealed proposals will be received at the office of the Police Commissioner of the City of Boston until twelve o'clock noon, daylight saving time, August 28, 1934, for installation of approximately 500,000 feet of signal cable and miscellaneous work incidental thereto for the Police Department of the City of Boston, at which time and place they will be publicly opened and read.

Specifications and form of proposal will be available to prospective bidders at the office of Jackson & Moreland, engineers, upon the deposit of twenty-five dollars ($25), which deposit will be returned upon surrender of the documents to Jackson & Moreland within one week after the day upon which bids are received.

Proposals must be accompanied by a certified check payable to Eugene C. Hultman, Police Commissioner, in the sum of three thousand dollars ($3,000), which certified check, or the amount thereof, will be returned to the successful bidder upon execution and delivery of the Agreement and Bond and to each unsuccessful bidder within twenty-one calendar days from the day upon which the proposals are received, in each case upon application to the Property Clerk at Police Headquarters.

The project is to be financed and constructed under the terms of the National Industrial Recovery Act and chapter 366, Massachusetts Acts of 1933, and attention is called to the Construction Regulations prescribed by P. W. A. The minimum wage rates for the project are $1.20 per hour for skilled labor and $0.50 per hour for unskilled labor. The employment agency designated by the Government for this project is Massachusetts State Employment Service, 100 Nashua Street, Boston, Mass.

Pursuant to Executive Order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate worded in accordance with P. W. A. 61 (revised March, 1934) duly executed by the bidder. No award can be made without the approval of the State Engineer, P. W. A.

The right is reserved to reject any or all bids.

By order of the Police Commissioner of Boston.

EUGENE C. HULTMAN,
Police Commissioner.

PROPOSALS FOR SHEET ASPHALT OR BITULITHIC PAVEMENT IN ADAMS STREET, WARDS 16 AND 17, FROM GALLIVAN BOULEVARD TO PIERCE SQUARE.

The Commissioner of Public Works of the City of Boston, hereinafter designated as Commissioner, Room 508, fifth floor, City Hall Annex, invites proposals from citizens of the United States and corporations or other lgeal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt or bitulithic pavement in Adams street, Wards 16 and 17, from Gallivan Boulevard to Pierce square. Each proposal should be inclosed in an envelope, sealed, marked "Proposals for Sheet Asphalt or Bitulithic Pavement in Adams Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m., daylight saving time, on Thursday, September 6, 1934, accompanied by a properly certified check on, or a certificate of deposit issued by, a responsible bank or trust company in the sum of three thousand dollars ($3,000), payable to the City of Boston. Checks will be returned after execution of the contract on demand. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. Bids must be made upon the prescribed proposal form. Special attention of the bidders is called to all provisions of the Federal Emergency Administration of Public Works, which form a part of the contract, including the prescribed minimum rate of $1.20 per hour for skilled labor and $0.50 per hour for unskilled labor, and to the special provision as to semi-skilled labor. Pursuant to Executive Order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate (worded in accordance with P. W. A. 61, revised March 19, 1934) duly executed by the bidder. Plans, specifications and contract forms may be obtained at Room 508, City Hall Annex, upon the deposit of the sum of five dollars ($5). A surety bond by an approved surety company will be required from the successful bidder in an amount not less than the full amount of the contract. The right is reserved to reject any and all proposals, or to accept any proposal deemed best for the interest of the City of Boston, and no award can be made without the approval of the State Engineer, P. W. A. The name and address of the local registration office of the National Re-employment Service, from which employee lists for this contract shall be obtained, is as follows: State Public Employment Office (Everett L. Hanna, Manager), 100 Nashua Street, Boston.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, SEPTEMBER 1, 1934. No. 35

BOSTON'S TAX RATE TO BE $37.10 — MAYOR MANSFIELD MAKES ANNOUNCEMENT OF RESULTS OF EFFORTS TO LIGHTEN BURDEN OF TAXPAYERS AND YET MEET MUNICIPAL NEEDS — HAS USED EVERY MEANS POSSIBLE AT HAND TO EFFECT REDUCTION — PROMISES REORGANIZATIONS THAT WILL EFFECT SAVING AND LOWER RATES FOR FUTURE.

In announcing the tax rate for 1934 as $37.10 per $1,000 of valuations, Mayor Mansfield today issued the following statement:

Despite every effort to cut down the cost of municipal government, and despite a reduction in the operating expenses of the city of over $1,000,000 this year, it has been necessary to increase the tax rate $4.30. Of this increase, $2 results from a decrease in valuations of $96,500,000. This reduction has been proportional in all parts of the city, and has been made necessary in residential districts by the neglect in the past to make proper reductions for the home owners. In down-town districts the reductions have in large part been occasioned by the decisions of the Board of Tax Appeals. Approximately $1 of the increased tax rate is due to increased debt requirements of the city this year. These requirements have arisen because of the borrowings of $7,600,000 last year for which the present administration is not responsible. While the effect of these borrowings was to secure a reduction in the tax rate of 1933, these borrowings have added to the burdens of the city and must be made by the taxpayer this year and in the next four years. The remaining balance of the increase in this year's rate is due to many factors not under the control of the Mayor, such as increased requirements of the schools, increased state tax due to legislative expenditures which have been vigorously opposed by me, and a falling off of approximately $1,000,000 in the amount of money received from the Federal government in the form of welfare relief grants. While the tax rate for this year is high, there is every indication that the tax rate for 1935 will be higher unless the Legislature gives wholehearted support to my recommendations for legislation for the benefit of Boston, supplies additional sources of revenue, and aids me in reducing expenses.

A thorough study is now being made under my direction of the possibility of reorganizing city departments with a view to eliminating unnecessary duplication and expense inevitably resulting from the complicated setup of the present city government, and I plan to present to the City Council as soon as this study is completed a thorough going and practical plan of reorganization. Considerable time and attention is also being given to the securing of other sources of revenue which will relieve the burden on real estate and meet the necessities of municipal government. I propose to present to the Legislature the results of this study and to make recommendation for legislation which will furnish Boston with additional sources of revenue.

BOSTON'S ANNUAL CHARITY BASEBALL GAME BETWEEN RED SOX AND BRAVES, SPONSORED BY MAYOR MANSFIELD, TO AID PUBLIC WELFARE RELIEF A HUGE SUCCESS — CITIZENS AND CITY EMPLOYEES RALLY TO AID FOLLOWING APPEALS BY MAYOR AND WILLIAM G. O'HARE, PENAL INSTITUTIONS COMMISSIONER, WHO IS CHAIRMAN OF THE COMMITTEE IN CHARGE.

Boston's charity baseball game between the Red Sox and the Braves at Braves Field on Friday afternoon was not only the gala event the committee, under the very active chairmanship of Penal Institutions Commissioner William G. O'Hare promised that it would be, but, both in attendance and amount of money returned to the city for the Welfare Department, it fully measured up to the records of this event in other years.

Following the appeal of Commissioner O'Hare over the radio, in substitution for Mayor Mansfield, earlier in the week, the appeals that Mayor Mansfield made through the newspapers, the loyal support given the event by all sport-loving and charitably-inclined citizens was remarkable, and Braves Field has entertained but few larger and more enthusiastic crowds during any of the recent years of baseball history in Boston.

It is estimated that more than 20,000 persons attended the game or purchased tickets in order to help the city with its burden of relief. The event was interesting in more senses than ever before, first because the rivalry between the two Boston teams was never keener, or closer, the special features were never more attractive or more successfully carried out, and few games were ever more bitterly contested for.

In broadcasting his appeal for support on Tuesday afternoon from City Hall Station of WNAC, chairman of the committee in charge of the game, Penal Institutions Commissioner William G. O'Hare, who substituted for and was presented by Mayor Mansfield, spoke in part as follows:

Thank you, Mr. Mayor.

Will Rogers has well said that America today is divided into two classes, "Them as has and them as hasn't." He further states that "them that has" must help "them that hasn't." That is true democracy. Through the splendid cooperation of the owners and players of the Boston National Baseball Team and the Boston American Baseball Team, a game will be played at Braves Field on Friday of this week, August 31, 1934, for such Welfare work as Mayor Mansfield may designate. Both teams, as is well known, are in the first division of their respective leagues and show much improvement over teams of the last few years. A natural rivalry exists, so that the game itself will be well worth the one dollar which is to be paid for admission. In addition to that, through the splendid work of the theaters of Boston and the Federal Emergency Relief Administration, an entertainment program will start at 12 noon, preceding the game. May I mention just a few of the entertainment features that will be offered.

A great band under the direction of Alfonso D'Avino will open promptly at noon and will be accompanied during that musical hour by the E. R. A. chorus of one hundred voices under the direction of Frederick Lamb. Then all the theaters which have vaudeville acts in Boston during the week will build in their contribution to the program. Loew's Orpheum, Bowdoin Square, Metropolitan, Gayety and RKO Vaudeville Exchange will all contribute their share towards this splendid day. A demonstration will be given by the American Legion Drum and Bugle Corps of the Old Dorchester Post No. 65, American Legion. They are the champions of the state. Then there will be fun for the youngsters. Bill Blomberg's dog and pony show will give its splendid exhibition through the courtesy of the manager of Norumbega Park and the RKO Vaudeville Exchange.

Some of the foremost girl athletes of New England will show how well they can meet athletic demands by competing in their various running events. And then too our own beloved Fred Hoey will receive his commission as a colonel on the staff of Governor Ruby Laffoon of Kentucky from his Honor, and then the game.

Messrs. Yawkey and Collins of the Red Sox, Judge Fuchs and Ed Cunningham of the Braves, James J. McGuinness of the Allied Theaters of Massachusetts, with the cooperation of men like Vic Morris, Al Somerby, M. J. Mullin, C. S. Breed and E. M. Loew, Mr. J. P. Carney, E. R. A. administrator, and Miss Frances Killalea of the F. E. R. A., and countless others are contributing their efforts to help out. All we need now are patrons for that game. Can't you, won't you, buy at least one one dollar ticket, or if you would prefer a reserved seat you may have that by paying one dollar and fifty cents.

The City of Boston and the County of Suffolk employees are doing their full share.

It is not often that Boston has an opportunity such as this where people may have a whole afternoon of pleasure at a low cost and still feel that they are doing something real in the way of helping out other folks not so well off. If every seat in Braves Field is taken and the old familiar sign is put out, "Standing Room Only," then I shall be deeply pleased and his Honor the Mayor will be very gratified to know that Boston, yes, New England, responds when people can give services voluntarily and without pay in order that funds may be received for a worthy cause.

One of the great factors necessary to defeat depression is a little more unselfishness on the part of all of us. If you can buy a ticket, if you can buy two, if you can buy ten tickets, then please do so and you will be repaid by the greatest Gala Day ever held under municipal auspices.

Come young, come old.

Thank you and good day.

FIRE DEPARTMENT ORDERS.

General Order No. 59.

I. CHARITY BASEBALL GAME.

The Fire Department, like all other city departments, has been requested to join with his Honor the Mayor, Frederick W. Mansfield, in supporting the voluntary offering of Judge Fuchs, Tom Yawkey and Eddie Collins of a joint game between the Braves and the Red Sox on August 31, 1934.

At a meeting at the Mayor's office Judge Fuchs demonstrated his interest in this arrangement and Mr. Philip Troy assured his Honor of the cooperation of the Red Sox, and the committee promises a wonderful program.

Deputy Chief Samuel J. Pope has been designated to take charge of Fire Department arrangements and to dispose of the assignment of tickets to members of the Fire Department and their friends. Members of the Fire Prevention Division will call in every house in the department and returns must be received at Headquarters on or before Wednesday, August 29. The commanding officer of each house will forward a report to Headquarters on Form 5 stating the number of tickets purchased by the men under his command.

It should not be forgotten that his Honor Mayor Mansfield has endeavored to help those who are underpaid and borne in mind that Judge Fuchs, Tom Yawkey and Eddie Collins desire to do something for the City of Boston. They have provided the players, the park and the entertainment. The day set is August 31, 1934. The tickets are priced reasonably and every cent collected for this event will be devoted to the Welfare Department of the City of Boston. I know that the Boston Fire Department will not fail in their duty in this emergency, and I am confident that the men will rise to this occasion and sell the number of tickets allotted to them.

By order of Fire Commissioner EDWARD F. MCLAUGHLIN.

HENRY A. FOX,
Chief of Department.

POLICE DEPARTMENT ORDERS.

General Order No. 538.

A trial board consisting of Captains Campbell, McGrath and Casey, having heard by reference a complaint made by Harry N. Dickinson, captain, Division 11, against Royal L. Atwood, patrolman, Division 11, for alleged violation of the Rules and Regulations of the Police Department, to wit:

Charge 1: Neglect of duty.

Specification: In that on the first day of August, 1934, the said Patrolman Royal L. Atwood, while in uniform and on duty, assigned to a radio patrol car, investigated a case of an automobile parked in the nighttime on a vacant field off Gallivan Boulevard, which contained a man named Leo Cavanaugh and an unknown woman, and failed to make any report to the officer in charge of his station of such investigation made by him.

Charge 2: Conduct unbecoming an officer.

Specification: In that on the third day of August, 1934, the said Patrolman Royal L. Atwood, while off duty and not in uniform, went to a store at 43 Pond street, Natick, Mass., of which the said Leo Cavanaugh is the manager, and by coercion secured from the said Leo Cavanaugh a quantity of merchandise without making a fair and just payment for the said merchandise, thus tending to bring into disrepute and criticism his associates on the force and the department as a whole,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented, finds the said Patrolman Royal L. Atwood guilty of Charge 1 and specification thereunder, and not guilty of Charge 2 and specification thereunder. In view of the fact that Patrolman Atwood has been in the Police Department for eight years, during which time he was always attached to Division 11, serving under three different captains; and his present captain testified that he is a sober and truthful officer and that he never received any complaints of a similar nature about him; also he was before a trial board in 1927 for neglect of duty and performed one hundred and five hours' punishment duty, the Board respectfully recommends that the said Patrolman Royal L. Atwood be suspended from duty effective as of August 13, 1934, at 5.45 o'clock p. m., for a period of fifteen (15) days, and at the expiration of said suspension he shall be ordered to perform one hundred and five (105) hours' punishment duty."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Royal L. Atwood be suspended from duty for a period of fifteen days, effective as of August 13, 1934, at 5.45 o'clock p. m., and that at the expiration of the said period of suspension the said Patrolman Royal L. Atwood perform 105 hours of punishment duty.

Civil Service Rule 23, Section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

"Section 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause."

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

SAND, CINDERS AND SALT IN DULUTH.

About 385 miles of sidewalk are sanded every year and about 250 miles of streets are snow-plowed and sanded. Ordinarily, flat grades are not sanded, this work being confined to steep grades where dangerous ice conditions exist. During the past season the maintenance department used about 500 cubic yards of cinders, 500 cubic yards of sand, and 5 tons of calcium chloride on the streets.

The use of salt, or sodium chloride, has been discontinued entirely, because of its injurious effect on concrete walks and pavements. The action of salt is not clearly understood, but it is much more active during cold weather than in summer, and is apparently due to the formation of crystals after penetrating the surface, the force of which disintegrates the concrete. Calcium chloride does not seem to be entirely free from this difficulty, but is much less active than sodium chloride.

All persons desiring to be examined, either for a Master or Journeyman Certificate, shall have application on file at least ten days previous to the date of such examination.

Applicants for examination will be required to obtain at least 70 per cent in order to obtain a certificate.

Applicants who fail to obtain the required 70 per cent will not be entitled to re-examination until a period of three months has elapsed, and those who receive less than 50 per cent, or who fail on the practical demonstration, will not be re-examined for a period of six months.

Any person found referring to notes or books, or misbehaving during an examination, will be debarred from that examination.

Notice will be sent to applicants for certificates when and where examination will be held, and only those so notified will be examined on that day.

NEWTON REDUCES WATER RATES.

The city of Newton reduced its water rates 10 per cent in 1932, from 25 to 22.5 cents per 100 cubic feet, and for 1934 has reduced them 11.5 per cent, to a flat price of 20 cents per 100 cubic feet. This reduction was made possible by savings effected by reorganizing the administration and maintenance methods and equipment of the department before and since the beginning of the city's "four-year plan" of water development in 1931.

SALARY SCHEDULE FOR TEACHERS, MEMBERS OF THE SUPERVISING STAFF AND OTHERS, YEAR ENDING AUG. 31, 1935.

The following thirteen orders establishing a salary schedule for teachers, members of the supervising staff and others, for the year ending Aug. 31, 1935, were offered:

1. ORDERED, That the salaries of teachers, members of the supervising staff and others, are hereby established for the school year September 1, 1934, to August 31, 1935, inclusive, in accordance with the following schedule and subject to the following adjustments or limitations:

2. ORDERED, That during the year beginning September 1, 1934, and ending August 31, 1935, teachers, members of the supervising staff and others, who on August 31, 1934, shall not have reached the maximum of their salary schedules shall be advanced on their respective anniversaries by the amount of the annual increment provided for in the following schedules.

3. ORDERED, That under the provisions of chapter one hundred and twenty-one of the acts of nineteen hundred and thirty-three, the salaries of teachers, members of the supervising staff and others, both permanent and temporary, for day and evening service, provided for under this schedule, are hereby reduced on the following basis, during the period which begins with September 1, 1934, and which ends with December 31, 1934.

a. For every office and position the salary of which on an annual basis is less than $1000, a reduction of 5 per cent shall be made.

b. For every office and position the salary of which on an annual basis falls within the range of $1000 to $1600, both inclusive, a reduction of 10 per cent shall be made, but no salary in this group shall be reduced below $950.

c. For every office and position the salary of which on an annual basis is in excess of $1,600, a reduction of 15 per cent shall be made, but no salary in this group shall be reduced below $1440.

4. ORDERED, That in the event that the General Court grants only a part of the additional appropriating power requested by the School Committee for the purpose of restoring salaries to the level existing before the action of the Committee on May 1, 1933, under the provisions of Chapter 121 of the Acts of 1933, then the restoration as of January 1, 1935, provided for in this Salary Schedule shall be effective only to the extent of and in proportion to the amount which in the judgment of the School Committee the financial situation of the City of Boston warrants; and in no event shall any action of the School Committee reduce the salary schedule below the amounts fixed in the salary schedule effective on September 1, 1934.

5. ORDERED, That all rules and regulations inconsistent herewith are hereby suspended.

ADDITIONAL APPROPRIATION, ALTERATION AND REPAIR OF SCHOOL BUILDINGS

The following communication was presented:

City of Boston — Department of School Buildings

July 30, 1934

School Committee of the City of Boston,
15 Beacon Street,
Boston, Mass.

Gentlemen:

Under date of July 30, 1934, the School Committee forwarded to the Board of Commissioners of School Buildings the following proposed order:

ORDERED, That in addition to the amounts appropriated on April 16, May 24 and 28, and June 25, 1934, for "alteration and repair of school buildings and for furniture, fixtures and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards," during the financial year January 1 to December 31, 1934, and for administration expenses in connection therewith, the additional sum of $60,000.00 is hereby appropriated to provide for the cost of tools, materials and trucking in connection with the E. R. A. M. program; said sum to be expended under the direction of the Superintendent of Construction, Department of School Buildings, in connection with the extended project for the repair of school buildings.

If the E. R. A. M. program continues beyond the time proposed in earlier estimates it will be necessary to have additional sums of money in order to provide for tools, materials and trucking in connection with the E. R. A. M. program.

Inasmuch as the time for the School Committee making appropriations for school purposes is near termination it is thought proper to have this order passed at this time.

The Board of Commissioners of School Buildings therefore report to the School Committee that it has voted to approve the said proposed appropriation order.

Board of Commissioners of School Buildings,
By Richard J. Lane,
Chairman.

The following communication was presented:

City of Boston—Department of School Buildings

July 30, 1934.

The Boston School Committee,
15 Beacon Street,
Boston, Mass.

Gentlemen:

Because of the failure of the Legislature to take favorable action on the bill introduced to authorize part of the land in West Roxbury, known as Fallon Field, to be used for the location of the new proposed high school for West Roxbury, a change in plans for school accommodations in West Roxbury was proposed by the School Committee.

Under this plan the present Washington Irving Intermediate School in West Roxbury, which some years ago was built as a high school for this district but has never been used as such, is now to be used for the high school and a new intermediate school is to be built in this district; and an addition is to be built to the present Robert Gould Shaw School in West Roxbury for an enlarged intermediate school.

The foregoing changes necessitated an amendment to the original project with the United States Government (Public Works Administration Docket 4217). The Mayor and City Council of our city, as well as the School Committee and the Board of Commissioners of School Buildings, have all approved this change.

The following order was passed by the City Council and approved by the Mayor on July 24, 1934, namely:

ORDERED; That under the provisions of Chapter 366 of the Acts of 1933, and acts in amendment thereof and in addition thereto, the sum of $1,200,000 be, and hereby is, appropriated to be expended under the direction of the School Committee for the construction of one intermediate school in the West Roxbury District and an addition to the Robert Gould Shaw School in the West Roxbury District, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the City to said amount.

Following the passage of said order under date of July 26, 1934, the School Committee of the City of Boston forwarded to the Board of Commissioners of School Build-

ings of the City of Boston the following proposed order:

ORDERED, That under the order passed by the City Council July 23, 1934, and approved by the Mayor July 24, 1934, appropriating the sum of $1,200,000 to be expended under the direction of the School Committee for the construction of one intermediate school in the West Roxbury District and an addition to the Robert Gould Shaw School in the West Roxbury District, the following sums are hereby appropriated as indicated:

Washington Irving Intermediate District, Roslindale: One new intermediate school	$ 800,000.00
Robert Gould Shaw District, West Roxbury: An addition to the Robert Gould Shaw School	400,000.00
Total	$1,200,000.00

The entire matter of providing high school accommodations and intermediate school accommodations for this district have been so often discussed that there is little that can be added to the situation by any comments of the Board of Commissioners of School Buildings. It is desirable to have this project now proceed as rapidly as possible.

In accordance with the provisions of Chapter 351 of the Acts of 1929 the Board of Commissioners of School Buildings therefore notify you that they have voted to approve the foregoing proposed order.

Respectfully yours,
Board of Commissioners of School Buildings,
By Richard J. Lane,
Chairman.

Gentlemen:

Under date of July 27, 1934, the School Committee of the City of Boston forwarded to the Board of Commissioners of School Buildings of the City of Boston the following proposed order:

ORDERED, That of the amount appropriated by the School Committee April 2, 1928 (see p. 66) for a site for an intermediate or high school in the Washington Irving Intermediate District, Roslindale, (Item 24, 1928) the following sum is hereby transferred as indicated:

FROM

Item 24, 1928—Washington Irving Intermediate District, Roslindale: Site for intermediate or high school $10,000.00

TO

Item 14, 1934—Robert Gould Shaw District, West Roxbury: Additional land for addition to Robert Gould Shaw School $10,000.00

This money is necessary in order to acquire additional land for the proposed addition to the Robert Gould Shaw School in West Roxbury connected with the enlargement of that school for intermediate school purposes. The enlargement of the Robert Gould Shaw School is part of the project for which the City Council have appropriated money to be raised by bond issues and in which the United States Government is interested, as part of the Public Works Administration Program, but the cost of necessary additional land is not included in the money to be obtained from said bonds or from the United States Government.

In accordance with the provisions of Chapter 351 of the Acts of 1929, you are hereby notified that the Board of Commissioners of School Buildings have voted to approve said proposed order.

COMMENT ON REPORT OF SUPERINTENDENT OF CONSTRUCTION

Dr. Lyons: The members of the Committee have recently received and read I am sure with great interest, the report of the Superintendent of Construction, Department of School Buildings, Mr. William W. Drummey, dealing with his trip through many of the large cities of the country where he made a study of school-house construction. It seems to me that this is a very valuable document and I feel that it will be very helpful to the School Committee. It is of too exhaustive a nature to incorporate in the records of the School Committee but I think a vote of thanks should be extended to the Superintendent of Construction for the assistance he has thus rendered this department and I so move.

Dr. Mackey: Second the motion.

Chairman: It has been moved and seconded that we extend a vote of thanks to the Superintendent of Construction, Department of School Buildings, for the very complete report that he has presented to the Committee as a result of his extended trip through the various large cities of the country.

Passed by unanimous vote.

Secretary.

Aug. 2 1934.

A special meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 2:15 o'clock p. m., the chairman presiding.

Present: Messrs. Hurley, Mackey, Sullivan, and Tobin.

—

Chairman This meeting was called by the Secretary on request of the Chairman and Mr. Hurley for the purpose of amending the salary schedule orders for the year 1934-35, as passed at the meeting of July 30, 1934. A doubt existed as to the legality of a portion of the original orders. The orders passed today in every respect carry out the intent and purpose of the original salary schedule orders as passed at the previous meeting. Certain changes in the wording have been made to clarify the original orders.

The meeting was called on short notice and for that reason Dr. Lyons, who is out of the city, was unable to attend. He, however, signified his approval by telephone.

AMENDMENTS TO SALARY SCHEDULE.

The following orders were offered:

ORDERED, That order No. 4, as contained in the Salary Schedule for Teachers, Members of the Su-

pervising Staff and Others for the year ending Aug. 31, 1935, as passed at the meeting of July 30, 1934, is hereby amended by striking out said order and inserting in place thereof the following:

4. ORDERED, That this salary schedule shall be effective as of and from January 1, 1935, to and including August 31, 1935, only to the extent of the appropriating power of the School Committee and to the extent of and in proportion to the amount which in the judgment of the School Committee the financial situation of the City of Boston warrants; provided, that in no event shall any action of the School Committee reduce the salary schedule below the amounts fixed in the salary schedule effective for the period from September 1, 1934, to and including December 31, 1934, as provided in the preceding order.

ORDERED, That Order No. 11, as contained in the Salary Schedule for Teachers, Members of the Supervising Staff and Others for the year ending Aug. 31, 1935, as passed at the meeting of July 30, 1934, is hereby amended by adding at the close of the opening paragraph the following words—subject to the provisions of and reservations in Order No. 4—so that Order No. 11 shall read as follows:

11. ORDERED, That the salaries of the teachers named in Order No. 10 are hereby established for the period beginning January 1, 1935, and ending August 31, 1935, at the following per annum rates, subject to the provisions of and reservations in Order No. 4:

Total population by U. S. Census, 781,188.

HISTORICAL DATA ABOUT WARDS.

The term "ward" first appears in a fire-protection order, approved by the Town on August 29, 1679, dividing the Town into 4 quarters with 2 wards each. The 8 wards had previously been military districts.

On August 11, 1713, the Selectmen "agreed upon a distribution of the Town into distinct Wards or Precincts."

On February 1, 1715, it was "voted to make a new division of the Town into eight distinct Wards."

On March 9, 1735, it was voted to divide the Town into 12 wards to facilitate the work of the Overseers of the Poor.

On March 13, 1822, the Selectmen divided the Town into 12 wards on the basis of the U. S. Census of 1820.

By an ordinance which took effect on the second Monday of December, 1838, there was a revision of the wards.

On April 29, 1850, the City Council accepted Chap. 167 of the Acts of 1850, which altered the wards on the basis of legal voters rather than on the number of inhabitants.

By ordinance taking effect on November 15, 1865 new ward lines were established.

In the annexation period, 1865-1875, the number of wards was increased from twelve to twenty-one.

By Chap. 243, Acts 1875, the City Council was ordered to cause a new division of the City into twenty-four wards in the year 1875 in such manner as to include an equal number of voters in each ward. This division was made, taking effect on December 13, 1875. On May 27, 1876, the City Council, in accordance with Chap. 242, Acts of 1876, divided one of the wards in two, making a total of 25 wards for the City.

By ordinance passed April 20, 1895, under authority of Chap. 437, Acts of 1888, and Section 96 of Chap. 417, Acts of 1893, ward lines were established on the basis of the number of voters registered at the City election of 1894, there still being 25 wards.

The annexation of Hyde Park, effective January 1, 1912, made an additional ward.

By enactment of December 28, 1914, under authority of Chap. 630, Acts of 1914, the City Council redivided the City into 26 wards.

The latest redivision, established December 30, 1924, under authority of Chap. 410, Acts of 1924, consists of 22 wards.

TAX LEVY, 1932.

Total, $67,574,773 ($5,414,540 more than in 1931) or $62,260,762 on realty, $4,834,415 on personalty, and $479,596 on male polls.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR STRENGTHENING AND REDECKING THE GRANITE AVENUE BRIDGE.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for strengthening and redecking the Granite Avenue Bridge. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Strengthening and Redecking the Granite Avenue Bridge," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Wednesday, September 19, 1934, with a certified check for six hundred (600) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two (2) dollars for each set of specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, SEPTEMBER 8, 1934. NO. 36

BOSTON'S INCREASE IN TAX RATE EXPLAINED — MAYOR MANSFIELD TELLS CITIZENS AND RADIO AUDIENCE, OVER WNAC FROM CITY HALL STATION, INCREASE DUE MAINLY TO HIGHER DEBT REQUIREMENTS, LARGER APPROPRIATIONS FOR SCHOOL BUILDINGS AND JUMP IN STATE TAX — THESE OFFSET REDUCTIONS IN CITY MAINTENANCE AND PUBLIC WELFARE NEEDS — TELLS OF PLANS FOR REDUCTIONS NEXT AND FOLLOWING YEARS.

The following is the radio address of Mayor Frederick W. Mansfield given Tuesday, September 4, over WNAC, in which he explained reasons for increase in tax rates.

When the tax rate was announced, I promised to give a more detailed explanation of the city's financial condition, and take this opportunity of giving to the taxpayers some of the reasons for the increase.

Despite a reduction of $1,000,000 in the city maintenance and special public welfare requirements and a reduction of $700,000 in the size of the deficiency assessments on account of the Boston Elevated Railway, the total requirements for 1934 show an increase of $572,438.81 over those for last year. This increase is due mainly to increased debt requirements, larger appropriations for the construction of school buildings, and an increase in the state tax. City debt requirements for the current year are approximately one and three-quarter millions of dollars in excess of similar requirements for 1933.

This increase may be directly attributed to the issuance in 1933 of loans totaling $7,600,000 for public welfare and for tax reduction. The term of these loans as set by state officials was five years, hence it is necessary this year to provide in the tax levy for the liquidation of one fifth of the total amount of the loans as well as the interest charges on the total amount borrowed. Appropriations for construction of new school buildings included in this year's levy are approximately $365,000 in excess of similar appropriations in 1933.

Overcrowded Schools.

This excess was deemed necessary by the School Committee in order to relieve overcrowded conditions in the Beethoven District, West Roxbury, and the Joseph H. Barnes Intermediate District, East Boston. The amount of the state tax and assessments for 1934 is approximately $250,000 in excess of last year, due to the increase in the state budget made necessary by the partial restoration of salaries and wages of state employees.

Increase of approximately $840,000 in city revenue due to income resulting from the repeal of prohibition and $850,000 in the city's share of the income tax distribution—this increase secured through the taxation of dividends on stocks of domestic corporations—has been more than offset by a shrinkage in the amount of Federal welfare relief grants and the absence of borrowing for reduction of the tax rate. Last year the city received approximately $2,000,000 in the form of grants made by the Federal Government because of welfare expenditures. This year's grant payment applicable for a reduction of the tax rate was slightly in excess of $1,000,000. Last year the sum of $3,500,000 was borrowed and utilized to reduce the 1933 tax rate. This year no borrowings of this character have been made.

In 1933 the assessed valuation of the city as determined by the Board of Assessors was $1,780,000,000. As a result of revaluations and adjustments by the assessors, the assessed valuation of the city has been fixed at $1,683,500,000, or a reduction of $96,500,000 from the valuation of the previous year.

Reduced Valuations.

This reduction in valuations increased the tax rate approximately $2. While the amount of reduction appears to be large it was distributed on various properties throughout the city and was made to meet lower real estate levels.

The effect of these three factors on the tax rate of the current year resulted in an increase of $4.08. The following table shows the amount of the increase reflected in this year's rate which may be said to be directly attributable to each factor:

Increased requirements	$0 33
Reduced credits	1 77
Increased overlay	22
Loss in valuations	1 98
Total increase	$4 30
1933 tax rate	32 80
1934 tax rate	$37 10

The table on page 973 shows the variations which have taken place in the last two years in the various items entering into the computation of the tax rate.

MAYOR MANSFIELD DEPLORES STRIKES AT PRESENT TIME AS DESTRUCTIVE TO LABOR'S AIMS AND INJURIOUS TO WHOLE ADVANCE OF COUNTRY FROM DEPRESSION TO PROSPERITY — TELLS LABOR DAY AUDIENCE AT PARKMAN BANDSTAND UNEMPLOYMENT IS STILL TOO UNIVERSAL — THERE IS TOO MUCH DISTRESS AND SUFFERING TO MAKE FOR SUCCESS OF MOVE — MAKES THIS PLEA OUT OF YEARS OF TOIL FOR LABOR'S SUCCESS AND OUT OF A HEART FILLED WITH SYMPATHY FOR WORKINGMAN AND HIS PROBLEMS — CITES HIS YEARS OF TOIL FOR LABOR'S PROGRESS AS PROOF OF HIS SINCERITY.

In his Labor Day address, from the Parkman Bandstand, on Monday, September 3, Mayor Mansfield spoke as follows:

Labor Day in the year 1934 dawns upon a troubled world — a world depressed by seemingly universal stagnation in trade, commerce and industry. The older civilizations of Europe have just barely escaped another war which, had it been permitted to occur, probably would have meant the ruination of the old world and the complete obliteration of many of its governments. How fortunate Europe and the world have been in the avoidance of this war may be easily realized if we but call to mind the international havoc that followed the World War.

After the artificial stimulation given to trade by the extraordinary demands for labor and war materials created by the war itself had passed, there ensued, beginning in the summer and fall of 1929, a period of gradually increasing unemployment and paralysis in commerce and industry, which grew steadily worse during the next three years. In America President Hoover appointed commissions to investigate and to report and although they investigated and reported very little if anything was done to check the slump in the industrial affairs of America.

In March, 1933, after the inauguration of President Franklin D. Roosevelt, things began to be done having for their object the immediate relief of the unemployed and the checking of the downward trend of trade in America. Instead of allowing things either to remain as they were or to grow steadily worse the Government at least attempted to relieve the situation by artificial means. It is unnecessary to repeat the many new projects that have been started by the Government. It is not even necessary to say that the motives behind the launchings of all new projects were the same, namely, to stimulate trade and industry and to create work for the unemployed.

NUMBER OF UNEMPLOYED.

There is a conflict of opinion as to the number of unemployed in this country. Of course it is impossible to get accurate information upon the subject and the best that can be done is to accept estimates based upon such reports as are made and such information as may be obtained by the statisticians. But whatever the number of the unemployed may be I think it may safely be said that the number of persons who have been put at work and enabled to earn at least enough to support themselves as a result of the many federal projects have easily numbered in the millions. But still great distress prevails throughout the country and we must be prepared for another winter of widespread enemployment and consequent suffering and privation.

From a reliable source I have obtained information which shows that in Boston alone the total number of persons who are wholly unemployed is 88,292, representing nearly 12 per cent of the entire population of the city. There are temporarily employed on government projects 11,681, and temporarily employed in private work 447. Those who are employed for part time amount to 25,959. If you add to the 88,292 who are wholly unemployed these others who are only temporarily employed or employed for part time only, the total thus obtained of those not fully employed comes to 126,359.

Those fully employed in the City of Boston amount to 211,655, and there are in the city, 191,564 families. When you have a condition where 12 per cent of the inhabitants of a city is wholly idle and almost half as many more employed only temporarily or on part time, the prospect for the future is not bright. Trade is not good and jobs are scarce. There are hundreds of applicants for each vacant place not only anxious but eager to work and this condition prevails throughout this country and all over the world.

STRIKES AT PRESENT HARMFUL.

And yet in the face of these conditions and in spite of the widespread suffering of the people it seems as though we are not to have industrial peace, and the prospect of industrial disputes and strikes looms large throughout the land. I have been interested in labor matters for more than a quarter of a century. I have been counsel for a great many labor unions in many of their disputes. I have represented them at the State House. I have assisted them to obtain legislation favorable to their ends. I have defended them in many injunction cases. I have been sympathetic with organized labor. But I cannot sympathize with a policy which tends to bring about paralyzing strikes in industries which after five years of devastating depression are just beginning to get upon their feet. Men have a right to organize into unions. They have a right to protect themselves by concerted action against the overreaching of employers. They have a right to a fair wage and decent hours and proper conditions under which to work. They have a right to demand these things and if their demands are rejected they have a right to strike to obtain them. But even labor men will agree that the strike is, or ought to be, only a last-resort weapon. Every other method of settling trade disputes should be tried and every means exhausted before resorting to the strike.

But all of these statements are merely platitudes. There is nothing new about them. They are commonplace.

When times are good and industry is humming strikes are to be expected because labor is then usually at a premium and the worker naturally desires to share some of the profits that are being made in the industry. But the community does not expect strikes in times of depression. I know that it has been said by men who have studied the subject that there are always strikes after a depression. But that does not justify them. When there are so many persons out of employment throughout the world and in the country, and in Boston, for example, and so many who would be very glad to take the places of those who are so fortunate as to have work and who go out on strike, the public is surprised when strikes are called. And that means that public opinion does not approve of strikes during times like these. And no strike of any public importance can ever be won if public opinion does not support it.

I agree that men have a right to strike. I agree that at times no other weapon remains but a strike. But I earnestly urge labor leaders everywhere to consider the temper of the public and the condition of the country and of the people before engaging in a bitter industrial conflict which may result in disaster to themselves and certainly can do no good to the industry wherein the strike is called. To the observer it seems the height of folly for men, who but a short while ago were without employment and suffering for the necessities of life, and who have been employed for such a short while in industries which themselves are barely tottering, to abandon the work which they have obtained, returning to idleness from which they have just escaped, and by strikes not only to refuse to work themselves but to prevent others who are eager to work from filling their places.

NO TIME FOR STRIKES.

The times are not propitious for strikes. They tend to retard recovery and the return of national prosperity. And just at this time when the Government is straining every nerve to give

employment to all of the people and by new and hitherto untried ways to provide work for the multitude, strikes can have but one effect, and that is to delay national recovery. I earnestly urge upon the workers everywhere to forego their right to strike in these unsettled and difficult times, to be satisfied with a little less than they might demand under union regulations in normal times and not to rock the boat.

The cost of government is rising. With a few exceptions in some small towns taxes are considerably higher this year than they were in 1933. In Boston the tax rate for 1934 has been fixed at $37.10, the highest in the history of the city. In 1932 the rate was $35.50 and in 1933, $32.80. But, as I have explained many times, the reduction in 1933 from the high rate of 1932 was made possible by borrowing money—borrowed for the very purpose of reducing the rate. But we are paying this year for the money that we borrowed last year and we will pay for it in the next four years because it was borrowed on the condition that a portion of it be paid off each year for five years and this year payment for last year's borrowing represents one dollar on the tax rate.

I could have borrowed two million dollars—perhaps three million dollars—this year under the provisions of a bill which expires at the end of this year. It would have meant a tax rate of one dollar or one dollar and a half less than that fixed upon. But I refused to avail myself of that opportunity because it was unsound financially and next year and the following years we would have to pay back the money that we borrowed plus interest and that would have meant a higher tax rate for next year.

And I take this occasion to warn all taxpayers that unless I get relief from the Legislature very early in the session in 1935 they are likely to have a $40 tax rate next year. You will recall that the Legislature passed an act compelling me to return to all city employees the pay cuts which went into effect in April, 1933. At the present rate that would cost about $3 on the tax rate and it means a $40 rate unless I can get relief very early in the term in 1935. A bill will be filed authorizing me to retain the pay cuts and I ask for the support of every taxpayer and every voter for that measure.

DEPENDENT UPON BUSINESS.

You must realize as labor men that about the only source of revenue where the city may obtain money to pay its expenses and to carry on the business of the city lies in the taxation of real estate. But if the tax rate is so high that the real estate owner cannot pay his taxes it means that the city cannot collect enough money to do business with. Every effort must be made to reduce the cost of government so that the burden on the taxpayer will be lightened.

I know that many people have the idea that the city's treasury is inexhaustible. I know that there are many more who care nothing whatever about the condition of the city and whose ears are deaf to any argument or plea whatever for economy in municipal affairs.

The average laborer or employee, whether in public service or working for a private industry, and his family, are more dependent upon business conditions than any one else, and if Boston business diminishes, which it will if abnormally high taxes are to be levied, they are the first sufferers. They have very little reserves or savings and if they are out of work continually or temporarily they will soon find it necessary to leave for other parts.

That is a very disconsolate outlook and is paralleled only by the wholesale emigrations out of Ireland, England and other European places to this country when conditions over there were so poor. It is a sad outlook for families to be broken up due to lack of opportunities in Boston. Industries will not locate here if land and structures are taxed beyond their capacity to pay.

The small property owner, who had confidence in his city and bought real estate because it has been the ambition of nearly every family man to own his home, will find that he cannot replace his mortgage, cannot sell his property, and the savings of a lifetme have been diminished because he tried to be prudent and to do the thing that all intelligent men advised him to do—buy a house—and through no fault of his, his equity has been confiscated by high taxes.

The large property owner or business man is probably the one that is the least hurt of the three classes, because generally, much of his estate has been inherited, he has other forms of investment and diversified earnings, and if his real estate and industrial assets which are located in the city shrink, as they have in the past and there is no comeback, it merely means that that person has less income and can reduce his living expenses accordingly. So it resolves itself that the employees dependent entirely upon weekly earnings are those most effected by waste in municipal affairs.

I am confident that the people realize this and that they will no longer tolerate extravagance in municipal government. The extraordinary sums that we are spending for public welfare, mother's aid, and soldiers' relief, the mounting cost of education and our school system, all of the costly enterprises that the city has entered into so blithely in the past, all of these things must tend to give the average citizen pause. The taxpayers and the home owners cannot be expected to pay increased taxes without some effort being made to cut down the cost of municipal government. There can be nothing more important to the labor men of Boston than the question of reducing these expenses.

FIRE DEPARTMENT ORDERS.

General Order No. 61.

I. FREDERICK H. BROWN

It is with deep regret that the Fire Commissioner announces the death of Hoseman Frederick H. Brown of Engine Company 16 on Tuesday, August 28, 1934.

The funeral will be held from his late summer home, 3 Water street, Nantasket, at 8.30 a. m., Friday, August 31, 1934, followed by services at St. Ann's Church, Waveland. This department will be represented by a detail of six men to act as pallbearers.

TAX RATE	32 80	37 10

From this table it appears that the requirements for 1934 exceed those for 1933 by approximately $4,000,000 ($3,966,797.17, exact). This caused an increase in the tax rate of $2.32. Reductions in valuation of the taxable property of the city of $97,500,000 caused an increase in the rate of $1.98 or a total of $4.50.

Mention has previously been made of my decision not to borrow money this year for the specific purpose of reducing the tax rate. While it is true that the tax rate for 1934 could have been reduced by a continuance of the policy of borrowing for this specific purpose, nevertheless, after a careful study of all the factors involved I am of the opinion that the long-term financial interests of the city will be best served by the abandonment of this policy. My reasons for this opinion are as follows:

Up to 1933 the City of Boston, in so far as maintenance requirements for city departments were concerned, followed an absolute pay-as-you-go plan. In other words, the tax levy of each year included the total maintenance requirements of all departments. At the beginning of 1933 it was realized that public welfare requirements would reach the highest level in the history of the city. In the belief that these heavy requirements represented merely a temporary emergency and that welfare payments would tend to slacken off in subsequent years, it was proposed to the Legislature in connection with the fixing of the appropriation limit for 1933 that the city be permitted to borrow outside the debt limit an amount equal to the excess requirements of the year. With legislative approval $4,100,000 was borrowed in 1933 outside the debt limit of the city and utilized for public welfare requirements. The loan was issued for a term of five years at an interest rate of approximately 4 per cent. Because of this borrowing the debt requirements for 1934 have been increased approximately $984,000.

CITY BORROWINGS.

The city in 1933 also borrowed $3,500,000 under the provision of chapter 307 of the Acts of 1933 for the relief of the tax rate of that year. The term and interest rate on this loan were approximately the same as that for the loan for welfare purposes. The liquidation of the tax relief loan in 1934 means an addition to the debt requirements of the city for the current year of approximately $840,000. In short it may be said that the issuance in 1933 of the two loans in question have made necessary additional appropriations for debt requirements in 1934 of $1,824,000, or the equivalent of approximately $1 in the tax rate.

Under the provisions of chapter 307 of the Acts of 1933 additional revenue to cover the liquidation of debt issued was provided by the imposition of a tax on the dividends of domestic corporations. While the exact amount of the return to Boston from this new source of revenue has not been disclosed by the Commissioner of Corporations and Taxation, nevertheless, it would appear from the increase reflected in the current year's distribution of the income tax that the additional revenue resulting to the city from the passage of chapter 307 has tended to offset or balance the increase in 1934 debt requirements made necessary by the issuance in 1933 of the $3,500,000 tax relief loan. To conclude, however, because of this apparent balance or offset that the financial position of the city in 1934 has not been affected by the tax relief loan of 1933 is equivalent to overlooking this very important point.

If the city had not borrowed in 1933 for the relief of that year's tax rate it would still have received in 1934 its share of the new revenue resulting from the enactment of chapter 307 and the entire amount would have been available for a reduction in the tax levy instead of being utilized merely to balance of offset increased debt requirements.

Borrowing for maintenance requirements or for relief of the tax rate, is admittedly a temporary expedient since the relief secured in the year of borrowing is offset in subsequent years by the necessity of liquidating the amounts borrowed. With a realization of this fact it was decided in mapping out the financial program of the city for 1934 to taper off the borrowing of money for city requirements. With this decision arose the question as to which item of borrowing should be continued and which item eliminated. The decision on this question has been to continue borrowing for welfare purposes and to give up borrowing for the relief of the tax rate. The reasons underlying this decision are as follows:

The city may borrow for welfare or maintenance purposes under the provisions of chapter 49 of the Acts of 1933, which authorized municipalities to borrow from the state, against tax titles, for maintenance purposes. A loan of this character will not increase the funded debt of the city since the principal of the loan is to be liquidated by subsequent collections made by the city in connection with the redemption of the tax titles pledged to the state. The only immediate actual debt requirements which the city will be required to meet on a loan of this character are the semiannual interest payments. A loan for tax relief purposes, however, would cause a direct increase in the funded debt of the city and would necessitate increased debt requirements both for principal and interest during the term of the loan. Because borrowings for welfare purposes can be made without the necessity of a heavy increase in debt requirements in subsequent years, it has been decided to follow this kind of borrowing in 1934 rather than the straight out and out borrowing which would be required under the provisions of chapter 307. There is no question but what, over a period of years, the financial interests of the city will be advanced under this policy.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with several firms for work and construction for several departments of the city. Communications from the heads of the several departments involved were as follows:

DEPARTMENT OF SCHOOL BUILDINGS.
BOSTON, August 27, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—I respectfully request permission from your Honor, to extend for sixty days from September 8, the services of Joseph L. Quinn an architectural draftsman in this department. He is now working under permission of your Honor for a period of three months ending September 8. Mr. John Driscoll, the architect of the department, can use him gainfully on department work for another sixty days after termination of his employment.

Employing this man in this way as we have for the past three years enables us to do without the services of a permanent employee that we could not gainfully use for the year and we consider it an economy. The man's work is entirely satisfactory and he is thoroughly familiar with the needs of the department. For these reasons I respectfully ask the approval of your Honor to extend his time sixty days.

Respectfully yours

WILLIAM W. DRUMMEY,
Superintendent of Construction.

PUBLIC WORKS DEPARTMENT (Bridge Service).
BOSTON, July 20, 1934.

To the Honorable the Mayor.

A three-alarm fire last evening seriously damaged two draw spans of the Summer Street Bridge to such an extent that the bridge is now closed for travel.

It is most essential that repairs be made immediately in order that travel over the bridge be restored at the earliest possible moment, especially in view of the fact that the Northern Avenue Bridge is out of commission and the use of Dorchester avenue, going south from Summer street, is restricted to one half the roadway.

As this is an emergency job it is inadvisable to wait for the length of time it would take to advertise.

I would respectfully request permission to award a contract, without advertising, to the Boston Bridge Company for repairing the steel portion damaged and warped by the fire for a sum not exceeding $3,200, this in accordance with section 30 of the City Charter, with amendments.

Respectfully,

CHRISTOPHER J. CARVEN,
Commissioner of Public Works.

BOSTON, July 20, 1934.

To the Honorable the Mayor.

A three-alarm fire last evening seriously damaged two draw spans of the Summer Street Bridge to such an extent that the bridge is now closed for travel, and the entire motor system of the operating of the spans was destroyed.

It is most essential that repairs be made immediately in order that travel over the bridge be restored at the earliest possible moment, especially in view of the fact that the Northern Avenue Bridge is out of commission and the use of the Dorchester avenue outlet, going south from Summer street, is restricted to one half the roadway. As

this is an emergency job it is inadvisable to wait for the length of time it would take to advertise.

I respectfully request permission to award a contract to the Stearns, Perry & Smith Company, 51 Chardon street, for the removing and replacing of the entire system of conduit and wiring, furnishing new motor control switches and volt meter and a new 600-volt lighting control panel for a sum not exceeding $1,200. This firm originally performed the installation of the system and since then have done all repairs to the system at such times as repairs were required and having a perfect knowledge of the system can do the repairing without any delay.

Respectfully,

C. J. CARVEN,
Commissioner of Public Works.

BOSTON, August 27, 1934.

To the Honorable Mayor.

Some years past in order to protect the exposed steel members of the underside of the bridges over the Boston & Albany Railroad a coating of gunite (a mixture of sand and cement) was used to cover the various exposed portions as a protection from the gases and fumes of the locomotives.

This coating has not given satisfaction and for the past three or four years pieces of the concrete have been and are now flaking off, to the danger of hitting persons using the railroad platforms or going through the car windows, and I respectfully request your approval to proceed to have the bridges in question sand blasted and all gunite removed. The estimated cost for any one bridge is in the neighborhood of $300 to $350. All the bridges are over the Boston & Albany Railroad and locations are as follows:

Berkeley Street, Clarendon Street, Huntington Avenue, Massachusetts Avenue, Columbus Avenue, Dartmouth Street, Boylston Street, Brookline Avenue, Cambridge Street in Allston.

With your permission I propose to have the George D. Baker Company submit a proposal for the cleaning of the Dartmouth Street, Columbus Avenue and Huntington Avenue Bridges.

Respectfully,

C. J. CARVEN,
Commissioner of Public Works.

PUBLIC WORKS DEPARTMENT (Paving Service).

BOSTON, August 9, 1934.

To the Mayor of Boston.

Your permission is respectfully requested to the award of a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Sebastian Giampapa, 24 Orange street, Roslindale, on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; and also because such contracts vary greatly in amounts and seldom involve $1,000.

Respectfully yours,

C. J. CARVEN,
Commissioner of Public Works.

PUBLIC WORKS DEPARTMENT.

BOSTON, August 27, 1934.

To the Honorable Mayor:

Boston is illuminated by 13,007 electric lights, varying in candle power from 80 candle power to 1,500 candle power and by 9,583 gas lamps with mantles of 60 candle power. The charge rate for electric lights is governed by pamphlet No. 26, known as "Street Lighting Rate E," and issued by the Massachusetts Department of Public Utilities. There is no contract for electric lighting. Additional electric lights are installed as directed or ordered by the Public Works Department.

The gas lighting is under two contracts. A ten-year contract as a arded to the Boston Consolidated Gas Company on April 1, 1924, terminating March 30, 1934. This contract provided for the purchase from the Gas Company manufactured gas for the lighting of gas lamps in certain streets, parks, alleys, etc. This contract had no provision for extension of contract, but with the approval of the Mayor an extension of this contract was made for six months to end on September 30, 1934. The second contract for the same length of time calls for the equipment—lighting and extinguishing of gas lamps in certain streets, parks, alleys, etc. This contract had an option for extending the time for a period of not exceeding six months and advantage was taken of this offer and the contract extended to September 30, 1934. During the past ten years there have been two reductions in the contract prices and today the present cost per lamp per year is $8.42; the present care per lamp per year is $14.70; the total cost per lamp per year is $23.12.

In various conferences with the Edison Electric Illuminating Company during the spring as to whether or not they were interested in extending the area to furnish electric lights, etc., said company's officials did not appear anxious to increase the number of electric lights, consequently the Public Works Department was proceeding to prepare specifications, etc., for gas lamp lighting for approximately the present number of gas lamps, to be advertised around September 1, 1934.

To the surprise of this department, on August 21 a proposal was received from the Edison Electric Illuminating Company stating that said company is prepared to supply electric service to 4,500 of the present gas lamps in the City of Boston and calling attention to the fact of their present filed street lighting schedule. The cost per each 80 candle power electric lamp will be $20.50 per year as against the gas lamp price of $23.21 per year, or a saving to the City of $2.62 per lamp per year.

The Edison Company's change of view as to extending their system calls for a serious consideration of their offer, especially as to the saving that will result, namely, $12,000 per year.

As it will be impossible for the Edison Company to place brackets on their poles, wiring to lamps, etc., in less than four or five months, I respectfully suggest that the city enter into a contract for six months from October 1, 1934, with the Boston Consolidated Gas Company for furnishing gas and the equipment for lighting and extinguishing gas lamps.

A study is now being conducted with the Edison Company's officials for the best districts and locations to replace the existing gas lamps and replacements will start as soon as the Edison Company is ready.

With the completion of the six months' contract with the Boston Consolidated Gas Company, a new contract can then be considered for a period of years covering the gas lamps in the streets, etc., that cannot be served by the Edison Electric Company.

Respectfully,

C. J. CARVEN,
Commissioner of Public Works.

THE EDISON ELECTRIC ILLUMINATING COMPANY OF BOSTON,
GENERAL OFFICES, 39 BOYLSTON STREET,
BOSTON, MASS.

August 21, 1934.

MR. JOSHUA ATWOOD,
Division Engineer.

DEAR SIR,—Confirming the conversation held today between Messrs. Power, Stevens, Kimball and yourself, the Edison Company is prepared to supply electric service to 4,500 of the present gas lamps in the City of Boston.

It is our understanding that these proposed 4,500 No. 20–80 candle power lamps will replace an equal number of 60 candle power gas lamps, which will, at our present filed street lighting schedule, effect a saving to the City of Boston of $2.62 per lamp, or a net total of $11,790 per annum.

Very truly yours,

L. L. EDGAR,
Vice President.

SUPPLY DEPARTMENT.

BOSTON, August 23, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—Please refer to my letter of August 17, 1934, covering the award of coal for the Welfare and Soldiers' Relief Departments, which you approved on the same date.

Inasmuch as all of the coal in the East Boston district was awarded to the Francis L. Cronin Company of East Boston, I respectfully request permission to award, without advertising, to the East Boston Coal Company, who originally bid only on the East Boston district, approximately 453 tons of coal for delivery in the West End, North End and South End at $3.50 for each one quarter ton lot, and $6.50 for each one half ton lot, which is the same as all other bids received for these districts. Total award, approximately $6,342.

Unless this award is made an injustice will be done the East Boston Coal Company as it will be the only bidder doing business in Boston and not receiving an award for some of this coal.

The 453 tons to be awarded to this company is equal to the tonnage awarded to each of nine other bidders in these districts.

Respectfully yours,

WARREN W. LOOMIS,
Superintendent of Supplies.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

CIRCULAR LETTER NO. 13.

OFFICE OF THE MAYOR,
BOSTON, September 1, 1934.

To the Heads of Departments.

GENTLEMEN,—It has been called to my attention that in many instances where bonds have been given by contractors to secure the city against any defects in work performed, defects have developed before the expiration of the term of the bond but that no report has been made and no attempt to compel the contractor to remedy the defects.

Hereafter each head of department will be held personally responsible in all cases where such defects, by ordinary vigilance and diligence, should have been discovered and reported so that the city could compel the contractor to remedy the defects, or to proceed against the contractor's bond.

Yours truly,
FREDERICK W. MANSFIELD,
Mayor.

EXTENSION OF CONTRACT.

Acting sergeants will wear as designation on their uniform the upper and lower two chevrons of the regulation uniform for sergeants. Acting lieutenants will wear a blue star within the chevrons.

The duties and responsibilities of officers acting in a rank higher than that regularly held by them shall be the same as for regular officers of that rank. The acting officers shall be respected and obeyed acording to their temporary rank.

Officers acting in a higher rank will be assigned by the superintendent as he deems best.

Deputy superintendents assigned to districts and commanding officers of divisions to which acting officers are assigned will forward to the superintendent each Monday, in the morning mail, report in regard to each officer acting in a higher rank on attached blank, and shall carefully note in space for remarks the number of arrests or special work that each officer has accomplished or assisted in accomplishing during the week reported on.

This order becomes effective on Monday, September 3, 1934, at 7.45 a. m.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 540.

SUBJECT: CORRECTION IN GENERAL ORDER No. 539.

The attention of the department is drawn to General Order No. 539, promulgated this day, August 31, 1934, particularly to the first paragraph following the list of patrolmen designated as acting sergeants.

It will be noticed that the last sentence of the paragraph referred to, dealing with the designation acting lieutenants shall wear upon their uniform, is as follows:

"Acting-lieutenants will wear a blue star within the chevrons."

The sentence in question is hereby amended, to read as follows:

"Acting-lieutenants will wear a *gold* star within the chevrons."

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 541.

A trial board consisting of Captains Campbell, McGrath and Casey, having heard by reference a complaint made by William J. Carey, lieutenant, Division 9, against Frank H. Doherty, patrolman, Division 9, for alleged violation of Rules 36 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge: Conduct unbecoming an officer.

Specification 1: In that on the 16th day of August, 1934, the said Patrolman Frank H. Doherty, while not on duty but in full police uniform and with police equipment, was under the influence of intoxicating liquor to such an extent that he was unable to perform police duty if called upon so to do.

Specification 2: In that on the 16th day of August, 1934, the said Patrolman Frank H. Doherty, by his actions and conduct, did tend to bring into disrepute and criticism his associates in the Boston Police Department and the Boston Police Department as a whole,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented by witnesses, finds the said Patrolman Frank H. Doherty guilty as charged and respectfully recommends that the said Patrolman Frank H. Doherty be dismissed from the Police Department."

The commissioner accepts the finding and recommendation of the Trial Board, and hereby orders that the said Patrolman Frank H. Doherty be dismissed from the Police Department, effective as of August 27, 1934, at 5.45 o'clock p. m.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

MASSACHUSETTS BAY COLONY.

The first chartered colony in New England, charter granted by Charles I on March 4, 1629. About a year before, a patent had been granted to six prominent men of Dorchester, west of England, among whom was Capt. John Endicott. He sailed in June, 1628, with a party of fifty or sixty persons, arriving in September and settling at Naumkeag, afterward named Salem. In the spring of 1629, the Bay Company fitted out three ships conveying about four hundred persons and arriving at Salem in June. Endicott sent a small party to effect a settlement on the Bay in Mishawum, afterward named by the settlers Charlestown, the first town in New England to assume the town polity, Plymouth and Salem being governed by a governor and council. Endicott was appointed in London as the first resident governor on April 30, 1629. The Massachusetts Bay Company was reorganized in London on October 20, 1629, when John Winthrop was chosen as governor. He arrived at Salem on June 12, 1630, soon proceeded to Charlestown with a large following and finding that place unsuitable, finally settled in Boston. Winthrop served thirteen years as governor in four different periods ending in 1649 and Endicott fifteen years at various times ending in 1665. Other governors were Thomas Dudley, Richard Bellingham, John Haynes, Henry Vane, John Leverett and Simon Bradstreet, the latter serving twelve years until 1692 when the Bay Colony and the Plymouth Colony were merged, becoming the Royal Province of Massachusetts Bay, which existed eighty-two years to 1774, the governors being appointed by the King.

The name, Massachusetts, is Indian and signifies "near the big hills."

The population of the United States increased 16.1 per cent since 1920; that of New England 10.3 per cent and that of Massachusetts 10.3 per cent.

NEWTON REDUCES WATER RATES.

The city of Newton reduced its water rates 10 per cent in 1932, from 25 to 22.5 cents per 100 cubic feet, and for 1934 has reduced them 11.5 per cent, to a flat price of 20 cents per 100 cubic feet. This reduction was made possible by savings effected by reorganizing the administration and maintenance methods and equipment of the department before and since the beginning of the city's "four-year plan" of water development in 1931.

PROPOSALS FOR FURNISHING RANGE OIL.

The Supply Department of the City of Boston invites proposals for furnishing range oil to the Overseers of the Public Welfare from November 1, 1934, to April 30, 1935, inclusive. Specifications may be obtained at the office of the Superintendent of Supplies, Room 801, City Hall Annex. *There will be a charge of twenty cents ($0.20) a set for each set of proposals taken out.* The bidder must leave his proposal, with a certified check for $200, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The bids will be publicly opened and read at 12 m., at Room 801, City Hall Annex, on Friday, September 14, 1934. The successful bidder must furnish a bond for one quarter the total estimated amount of the bid with a surety company authorized to do business in Massachusetts, as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

This readvertisement is made necessary because the discount allowed on quantity involved is insufficient, resulting in too high a price.

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, SEPTEMBER 15, 1934. NO. 37

MAYOR MANSFIELD MAKES PLANS TO IMPROVE BOSTON HOUSING CONDITIONS — SURVEY OF SUBSTANDARD AREAS MADE AND APPLICATION TO BE MADE TO FEDERAL GOVERNMENT FOR FUNDS UNDER HOUSING DIVISION OF N. R. A. TO REBUILD AND REHABILITATE AREAS THAT ARE POOR CONDITIONED AND RESTORE THEM TO PAYING RENTAL BASIS — WILL PROVIDE MUCH EMPLOYMENT AND INCREASED VALUATIONS — TELLS OF PLANS IN RADIO ADDRESS.

In his weekly broadcast from City Hall Station of WNAC on Tuesday, September 11, Mayor Mansfield spoke as follows:

Over a year ago the Federal Government, as part of the National Recovery Act, set up in Washington a Housing Division with available funds for the purpose of building low-cost housing and the clearance and rebuilding of substandard areas throughout the country. In recognition of this fact, and realizing the urgent need for employment, and proper housing for the low-income group, the 1933 Legislature in its wisdom enacted legislation creating a State Board of Housing, whose duty it is to investigate housing conditions throughout the Commonwealth and to promote the building of wholesome homes for its citizens.

Up to the present time Boston has not received one penny of these Federal monies while New York, under the leadership of that outstanding adherent of the housing movement, Mayor LaGuardia, has received $25,000,000; Chicago, $20,000,000, and many other cities throughout the country lesser sums.

In the development of our city we find that the people have moved from the center of the city to the outlying districts. This has been done at a tremendous cost on the part of the city to provide the necessary new streets, parks, schools, utilities and all the other services required. It has left the abandoned inlying districts where the city already has a large investment in such services, to blight and decadence and eventually to a condition when they are no longer able to pay their way, and thus become social, moral and economic liabilities upon the city.

To Rebuild Areas.

While I recognize the necessity for this expansion, it must be done in an orderly and balanced manner so that the city as a whole may progress. This has not been done, but there is a way to restore the balance, and that is to rehabilitate and rebuild these blighted areas.

There are many advantages in the rebuilding of these areas, such as the existing utilities services, etc., and the accessibility to places of employment. (These areas are invariably found in close proximity to well-established manufacturing districts, and furthermore in the City of Boston there are a number of these districts within a two-mile radius of Park street and the shopping district.) This, coupled with good housing, providing abundant light, sunshine and proper standards of living accommodations, would establish an entirely new environment and have a beneficial and stimulating effect on all the surrounding property. The buildings would produce a new income to the city in the form of increased taxes, and would reduce the expense of maintaining the district. This, in turn, would tend to lighten the burden upon real estate in other sections of the city and which is, at present, carrying an undue percentage of the burden.

There are many areas in the city which can still be saved from blight by a rehabilitation of existing houses; areas where there are fine streets with splendid light and air conditions and houses in good physical condition. Cooperation amongst the owners with a view to rearranging and modernizing their houses, grouping together of back yard spaces to form large garden areas, would rejuvenate such neighborhoods and make them more desirable places in which to live, thus extending their usefulness for many years to come. Improvements of this sort recreate and re-establish the capital structure of such neighborhoods.

Aside from the primary objective of providing a wholesome way of living for the great mass of people, the benefits would be far-reaching and immediate. The purchase of the land for a housing project would at once relieve distressed property owners who are at present unable to sell their properties in the prevailing real estate market. It is assumed that the Government would pay a fair price for property taken and thus enable the owner to salvage some money from what now appears to be a total loss. Many of the owners would then become prospective tenants or purchasers of other properties, giving an added stimulus to business. Large sums of new money would be brought into the community from which labor directly or indirectly would obtain close to 80 cents on each dollar spent.

Evidence of the manner in which the building of a housing project benefits industry and labor is provided in the erection of "Knickerbocker Village," a housing project in New York City. Here there were more than fifty subcontracts awarded providing employment for several thousand workers and it was estimated that a total of $2,100,000 would be spent on wages alone. *(Continued on page 987.)*

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKELL DOLE.

PROVIDES EMPLOYMENT.

No industry has been so badly affected by unemployment among its members as that of the building industry, otherwise the leading industry of this country. It is generally conceded that until considerable improvement in the employment of building workers is brought about, no real progress can be made in the direction of national recovery.

England today is engaged in a program which provides only for replacement of those houses now unfit for human habitation. While their program might be considered magnificent in contrast with what is being done in this country, the new Labor Party regime in the London County Council has claimed itself dissatisfied with this program and will substitute a more ambitious one. Their program now under way provides over a period of five years for the wiping out of 280,000 houses and erecting in their stead 300,000 replacements. This would provide decent housing for 1,250,000 persons at a cost of $575,000,000.

The City of Birmingham, England, about the size of Boston and Cambridge combined, has spent $100,000,000 in the last ten years on the rehousing of its population.

Private enterprise never has and never will undertake the building of housing to accommodate those of the low-income group. It has always been actuated by the profit which it might receive. To provide good housing for the low-income group, and to keep the rent within the range of its ability to pay, does not produce profits; therefore, it is obvious that a public agency must perform this work.

With this in view, the Congress of the United States permitted the setting up, under the Public Works Administration, of a corporation supplied with funds with which to carry out this work, and it is sincerely hoped that our great City of Boston will participate in the application of these funds.

NEEDS OF CITY STUDIED.

During the past year much time and effort have been expended on the study of the various sections of our city with a view to determining those areas which have deteriorated and which are now suitable for rehabilitation or for rebuilding. Studies have been made of comparable statistics for disease, crime and bad social conditions, all of which accompany the closely-built and substandard sections. A careful analysis of the cost of maintenance by the city of such an area has been made and has developed the startling fact that it cost the city eight to ten times its income from such a district to maintain the area. This in itself offers a forceful argument for the rebuilding of such areas and should be of special interest to taxpayers in other sections which carry an undue share of this burden.

These facts obtained and with plans which are available, we are now ready, with the aid of the Federal Government, to set forth upon the rebuilding of one or more given areas to the benefit of the citizens through improved living conditions, through proper facilities for maintaining heat and other modern sanitary improvements, and to the general benefit of a greater number of our citizens.

During the year just passed, since the National Housing Act has been in operation under Secretary Ickes, no funds have been expended within this state for this purpose. Many agencies have been at work during this time tending to restore conditions, but little or nothing has taken place to restore or to improve the field of building construction.

Studies made by the State Board of Housing tend to indicate additional arguments favoring this action. For example, a study of a 24-acre plot in South Boston showed an annual income to the city from taxes of $25,000, whereas the maintenance of school, welfare, police and other forms of public service, cost the city a great many times that amount. Further studies of large, low-cost housing projects both at home and abroad, show conclusively that rebuilding these areas tends to increase the city's income, while it lessens the direct expense —to say nothing of the wider benefit to health, reduction of crime and other social evils. Such an undertaking becomes a tremendous stimulus to the general neighborhood or district where such construction takes place.

The fact that labor alone derives a larger percentage of benefit through this type of construction, as against other forms of public works programs, almost two for one, indicates what might be the benefit to any community which undertakes such work—particularly with a well-rounded program.

I deemed this matter to be so important that I sent a message to the Boston City Council for the purpose of securing some expression of opinion from that body relative to the necessity of bringing about Federal action to obtain, through the Federal Emergency Housing Corporation, an allotment of funds for better housing within the City of Boston. At the meeting of the City Council held on August 27, 1934, a resolution was adopted whereby the Boston City Council requested the Federal Emergency Housing Corporation to accord to Boston the same cooperation and share of Federal money which it was allowing to other large cities for this purpose, and the City Council pledged its full cooperation to forward the better housing project.

It is my purpose to attend the conference of United States mayors to be held in New York on September 21 and 22 when this subject will be brought forward and discussed at greater length. It is my hope to obtain a fair share of the Federal money that is allotted for this purpose.

BOARD OF ZONING ADJUSTMENT HEARING.

A public hearing will be held in Room 30, City Hall, on Tuesday, September 18, 1934, at 2 o'clock p. m., on petition of Estate of Maria E. Morton, by John F. McDonald, attorney, relative to a change in the boundary lines of the zoning districts of the City of Boston, *i. e.*, to extend the L-65 (Local Business, 65 foot height) zone along the easterly side of Humboldt avenue to a depth of 100 feet, between Homestead street and Brookledge street, or such extension or modification of this area or use as may appear advisable to the Board.

EXTENSION OF CONTRACT.

The C. & R. Construction Company have been granted an extension of the time of completion of the contract for the building of sewerage works for Dorchester Brook lower level sewer in Shirley street and Norfolk avenue, from Massachusetts avenue to a point about 190 feet southeast of the New Haven Railroad, Roxbury, from August 31, 1934, to December 10, 1934—100 days.

PUBLIC WORKS DEPARTMENT (Water Service).

Approval has been given to appoint David I. O'Connor as constable at $1,600 a year, less 10 per cent, in Water Income Division, to fill vacancy caused by the transfer of Charles W. Kelley to the Collecting Department, and to take effect on September 7.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

PUBLIC WORKS DEPARTMENT (Paving Service).

Upon September 12 the Mayor approved a contract with A. G. Tomasello & Son, Incorporated, for laying sheet asphalt pavement in Adams street, Wards 16 and 17, from Gallivan Boulevard to Pierce square, Docket No. 4205E. The following bids were received September 6:

Sheet Asphalt.—A. G. Tomasello & Son, Incorporated, $50,848; M. F. Gaddis, $51,650.50; A. Singarella, $53,310.80; Simpson Brothers Corporation, $53,904.60; John McCourt Company, $54,239.90; Dooley Brothers, Incorporated, $55,208.50; A. R. Doyle, Incorporated, $56,360; M. McGinnis Company, $56,889; Martin J. Kelly, $63,203.80; Martino DeMatteo, $70,491.50.

Bitulithic.—A. G. Tomasello & Son, Incorporated, $51,918; A. Singarella, $54,249.80; Dooley Brothers, Incorporated, $56,088.50; A. R. Doyle, Incorporated, $60,030; M. McGinnis Company, $59,639; Martin J. Kelly, $63,947.80; Martino DeMatteo, $71,461.50.

Upon September 12 the Mayor approved a contract with Samuel J. Tomasello Corporation for granite block and sheet asphalt pavements in Southampton streets, Wards 7 and 8, from Andrew square to Massachusetts avenue, Docket No. 4205B. The following bids were received September 4:

Samuel J. Tomasello Corporation, $56,519.60; A. Singarella, $58,570.95; C. Reppucci & Co., $59,174.25; Simpson Brothers Corporation, $59,292.50; A. R. Doyle, Incorporated, $60,326.20; Baker, Matz & Co., $61,107.40; A. G. Tomasello & Son, Incorporated, $68,003.90; J. A. Singarella, Incorporated, $69,100.90; M. F. Gaddis, $69,938.90; M. McGinnis Company, $70,455.75; V. J. Grande Company, $75,098.45; Coleman Brothers, Incorporated, $78,941.55.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts for work, materials and supplies for the several departments indicated. Communications from the heads of the departments were as follows:

POLICE DEPARTMENT.

BOSTON, September 10, 1934.

Public Works Project No. 8200.
Boston Police Communication System.
Installation of Signal Cable.
Bid of James Sugden Company.
Nominal Total of Unit Prices $107,201.45.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—I am forwarding to you herewith "Comparison of Proposals" for installation of signal cable, bids for which were received August 28, 1934, after advertisement as follows:

Boston *Herald*, August 14 and 21, 1934.

Boston *Post*, August 14 and 21, 1934.

City Record, August 18 and 25, 1934.

Bidding documents and procedure were approved by P. W. A. prior to advertisement.

As stated on the "Comparison of Proposals" the James Sugden Company submitted the only bid received, although several other concerns had taken out the bidding documents. The copy of the Sugden bid required to be deposited at the office of the City Auditor was submitted after the time named for receiving proposals—about three minutes late. The time to be named in the proposal for completion of the work was omitted, although the bidder has subsequently stated his willingness to contract to complete the work within 225 calendar days, the maximum time allowed in the bidding documents. There were certain minor inconsistencies (detailed in the attached "Comparison of Proposals") in the statements of unit prices, which inconsistencies do not prevent clear interpretation of the obvious intent of the bid.

It is the recommendation of my consulting engineers, Jackson & Moreland, approved by me, that the contract be awarded to James Sugden Company at $107,201.45 (the nominal total of the unit prices in the contract) for completion within a contract period of 225 calendar days.

There is no question that ample opportunity was afforded all interested parties to submit proposals on this work. In order to avoid the long delay and probable increase in cost and injustice to the bidder I respectfully request that you approve awarding this contract as above without further advertising. Following your approval of the award I will request P. W. A. approval therefor, upon the granting of which the contract itself will be forwarded for your approval.

Very truly yours,

E. C. HULTMAN,
Police Commissioner.

PUBLIC WORKS DEPARTMENT.

BOSTON, September 7, 1934.

To the Mayor of Boston.

Your approval is respectfully requested to the award of a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to the Arlington Construction Company, 691 Massachusetts avenue, Arlington, on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; and also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

C. J. CARVEN,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

BOSTON, September 7, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—In accordance with your permission approved under date of March 22, 1934, and extended under date of June 13, 1934, under which authority was given me to place orders for material or equipment needed for F. E. R. A. activities, where the value of such purchases exceeded $1,000, without the formality of advertising, I would ask that you authorize me to award a contract to the MacAsphalt Corporation, 910 Huntington avenue, Boston, Mass., for the rental for 680 hours, from June 7 to September 1, 1934, of one gas roller, with operator, said rental to include gasolene and oil used during this period, at a price of $2 per hour.

The Chairman of the Park Commission states that the above-named company has the only rollers of this type available around Boston and the rate per hour is considerably under the usual rate for this type of work.

I am attaching copy of letter received from the Chairman of the Park Commission concerning this rental.

Respectfully yours,

WARREN W. LOOMIS,
Superintendent of Supplies.

PLAN TO SPEED WORK.

The following request from the Public Works Department has been approved:

BOSTON, August 28, 1934.

To the Honorable Mayor.

Reporting on the attached letter from Col. T. B. Parker relative to the slowness of Project No. 4205 I beg leave to state that furloughs, vacations and retirements in the Engineering Branch of the Paving Division of the Public Works Department has slowed down the work of surveying, plotting and deciding of street grades of the ten streets covered by the Project.

To hasten the project I propose to employ a former employee to work on the street grading which is a specialized line of work and for which he is especially fitted, for a period of thirty days, at a basic salary of $2,400, effective August 31, 1934. Frederick L. Garvin, 22 Soley street, Charlestown.

In addition with this man together with a loan of two draftsmen from the Transit Department I think we will accomplish the desired results and speed up the remaining streets yet to be submitted to the Federal Emergency Administration.

Alford street, under contract.

Ashmont street, under contract.

Southampton street, approved by P. W. A. Bids opened September 4, 1934.

Adams street, approved by P. W. A. Bids opened September 6, 1934.

Old Colony avenue, Dorchester avenue to Dorchester street, approved by P. W. A. Bids opened September 17, 1934.

Old Colony avenue, Dorchester street to Columbia circle, books will be sent to P. W. A. on Thursday, August 30, 1934.

Woodrow avenue, books will be sent to P. W. A. on Thursday, August 30, 1934.

La Grange street, Centre street to Vermont street, books will be sent to P. W. A. on September 10, 1934.

La Grange street, Washington street to Centre street, books will be sent to P. W. A. on September 15, 1934.

Walk Hill street, books will be sent to P. W. A. on October 1, 1934.

Hyde Park avenue, books will be sent to P. W. A. in October.

La Grange street, Vermont street to Newton line, books will be sent to P. W. A. on November 1, 1934.

Savin Hill avenue, books will be sent to P. W. A. on November 1.

Respectfully,

C. J. CARVEN,
Commissioner of Public Works.

SLUM CLEARANCE STARTS—C. W. A. TO TEAR DOWN BUILDINGS.

The National Association of Housing Officials is urging its members to cooperate with C. W. A. authorities in getting under way local projects for tearing down useless and unsanitary structures—the kind that make up slums. A recent bulletin from Harry Hopkins, C. W. A. head, authorized the undertaking of such projects.

POLICE DEPARTMENT ORDERS.

General Order No. 543.

Patrolman Daniel J. Kerr of Division 11 is commended for meritorious police duty performed on September 4, 1934.

Patrolman Kerr, while off duty and in civilian dress, and driving his automobile across Harvard Bridge, observed a young woman jump from the railing into the Charles river. Patrolman Kerr immediately removed his coat and hat and jumped over the bridge railing after the girl. He succeeded in reaching her and, with the assistance of a citizen on the bridge who threw him a life preserver, brought her ashore at the end of the bridge and then removed her to the Cambridge Hospital, from where she was removed to the Psychopathic Hospital.

The commissioner is pleased to recognize the courage and heroic action shown by Patrolman Kerr in accomplishing the rescue of this person.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 544.

The resignation of Patrolman William J. Gannon of Division 6, having been presented, it is hereby accepted to take effect as of Sunday, September 9, 1934, at 5.45 o'clock p. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

7. Commanding officers are to take notice that it is of the greatest importance, also, that the patrolmen herein detailed report at the polling places in the various precincts promptly according to schedule.

Failure for any reason of an officer to be on hand at a polling place at the appointed time delays the sergeant in the motor vehicle in his delivery of the ballot boxes, ballots, etc., and interferes, as is plainly seen, with the balance of the delivery schedule.

8. This detail of patrolmen at the various precincts will continue until the ballots are counted and the results declared. The officers are then to bring the ballots and returns to the Election Commissioners' Office.

9. Cards with the ward and precinct number and location of voting booth printed thereon have been forwarded to the several police divisions, on which the division commander will write the name, the division number, and the number of the officer detailed at the time stated on the morning of September 20, 1934, at the voting booth of each respective precinct on his division. This card to be given to the officer so detailed at the voting booth will be retained in his possession until delivered by him to an employee of the Board of Election Commissioners, who will arrive accompanying a sergeant on motor vehicle from the Election Commissioners' Office on the morning of September 20, with ballot boxes, ballots, etc., as hereinbefore stated.

This card, when returned by such employee to the office of the election commissioners will be its receipt that the ballot boxes, ballots, etc., have arrived at their proper destination.

10. On receipt by the patrolman from the sergeant, detailed on motor vehicle, as herein provided, of registering ballot box, ballots, voting lists and such other documents as may have been received from the Election Commissioners, the patrolman detailed at polling place will deliver same to the warden or clerk of the precinct, allowing no person to take or handle them before such delivery, and hand the key of the registering ballot box to the warden. On delivery of the ballots

to the warden, the patrolman will take from him a receipt for the same, which receipt will be returned to the Election Commissioners.

11. After the warden has opened the box and allowed the election officers and the public to see that it is empty, the box is to be again locked and the key given to the patrolmen who is to retain it until after the polls have closed, except that, at the request of the warden, the patrolman may allow him to open the box for the purpose of pressing down the ballots, in order to make room for more ballots after which the patrolman will see that the box is again locked, and the key returned to the police officer.

12. The patrolman will obtain from the warden copies of poster, which will be sent to the latter, in relation to smoking and the use of liquor in polling places, and post same in conspicuous places where they may be easily read. Tacks will be sent for the purpose.

13. The warden will deliver to the patrolman detailed at the polling place for his use at that place a copy of the descriptive voting list, which must be returned to the warden at the close of the polls.

14. When the polls are opened the patrolman will mark in the place indicated on the tag attached to the key the figures which the register shows before any ballots are cast.

15. At 8 p. m., Thursday, September 20, when the polls close, one sergeant will report in each of the twenty-two wards (excepting Ward 1, East Boston, for which two sergeants and two motor trucks are provided), to meet motor vehicle at last point of morning distribution; thence to proceed to each of the several precincts in his respective ward, and receive registering ballot box (which must be locked) and key thereof, voting lists envelope, signed by the warden and other election officers, receipts for ballots, unused ballot envelope, sealed and certified (containing unused and spoiled ballots), stamps for marking spoiled ballots, receipts for ballots and check lists, carry them to the Election Commissioners' Office and deliver same to some member of the Board of Election Commissioners.

16. When the polls are closed the patrolman will mark on the same tag the figures which the register shows after all ballots have been cast. He will then hand the key to the warden, who will open the box and take out all the ballots to be sorted and counted. The warden will then cause the voting lists, including the list used by the police officer, to be sealed up in an envelope and the envelope certified by the signatures of himself and the other election officers and the same returned to the Election Commissioners, as described in Section 15 of this order. The patrolman will not allow this envelope to be put into the ballot box. The sergeant who will report on motor vehicle will keep it about his person until delivery at the office of the Election Commissioners. The unused and spoiled ballots are then to be put in the envelope for unused ballots, and the envelope sealed and certified.

17. When returning from polls, all motor vehicles must drive to the easterly side of City Hall Annex, Court square, where ballot boxes will be conveyed by chute to the basement.

18. It is important that the patrolman sees that the voting lists envelope is signed by the warden, clerk and all the inspectors. The patrolman will also see that the special book for signatures of voters is returned in the registering ballot box.

19. In case a patrolman is detailed to relieve another after the close of the polls, the commanding officer will see that he is properly instructed as to the duty of bringing the official returns, the box of ballots cast, and the press return to the Election Commissioners' Office as soon as they are delivered to him by the election officers.

20. When the ballots have all been counted, the ballots thus counted, tally sheets, and nothing else, shall be placed by the warden in the leatheroid box for that purpose (the ballots to be in their separate party envelopes), which must be sealed up and signed by all the election officers. The patrolman will particularly see that this box is properly sealed up and that all the election officers have signed their names to the certificate on the box. The patrolman will then bring the box, official return, record book, and press return to the City Hall Annex, Court square, and deliver same to the Election Commissioners. The patrolman is directed not to allow the official return, Press return or record book to be placed in the leatheroid box.

21. While the polls remain open an officer of rank will visit the polling place in each division at stated intervals, to be designated by the captain, and in case of any disturbance will report the fact to the commanding officer of the station house without delay. If additional men are needed beyond the number available in that division, the officer in charge will communicate immediately with headquarters.

22. Attention is called to the fact that the polls at the State Primary on Thursday, September 20, 1934, shall open at 8 o'clock a. m. and close at 8 o'clock p. m.

23. Commanding officers of divisions will see that the officers detailed for duty on State Primary Day are furnished with a copy of the circular issued by the Board of Election Commissioners, entitled: "Instructions to Police Officer on Primary . . . days."

24. The counting of ballots will be done on one table only with two inspectors counting and two inspectors watching the count.

Notes.

1. Attention is again called to the last paragraph of the circular, "Instructions to Police Officers on Primary . . . Days," which reads: "The police officer is directed not to allow the official return or record book to be placed in the leatheroid box."

That this may not happen (as it has in the past, notwithstanding repeated instructions) in any of the precincts of this city at the coming primary, the officer of rank who will visit the polling places in each division (provided for in Section 21 of this order), shall, at an appropriate time, call to the attention of the police officer and of the warden on duty at the polls, that the official return, press return and record book are not to be placed in the leatheroid box.

They shall be handed to the police officer who will deliver them as set out in the paragraph immediately following.

2. The officer going to the office of the Board of Election Commissioners with the leatheroid box, after the counting of the ballots, will take with him, in a separate package, the official return, press return and record book, which he shall safely deliver to the Election Commissioners with the leatheroid box, as provided in Section 20 of this order.

3. The police shall enforce the order that smoking is prohibited within the confines of the polling places, during the entire day, while the polls are open, as well as after they are closed.

The Board of Election Commissioners makes special request that the officers detailed at the 367 precincts be instructed to see that this is enforced.

As polling places and their approaches and exits are, in many instances, in buildings used for places of religious worship, to say nothing of the danger to valuable property from careless persons, the importance of these instructions is apparent.

Commanding officers will take notice and provide means to correct the following conditions set out in a paragraph of a letter received by the Police Commissioner from the Board of Election Commissioners:

"May we again call your attention to the law which prohibits smoking in any polling place, and ask you to have the officers who are detailed to the three hundred and sixty-seven (367) precincts make a special effort to see that there is no smoking during the entire day, while the polls are opened, as well as after they are closed."

4. The following matter has been brought particularly to the attention of the Police Commissioner in writing by the Board of Election Commissioners. Commanding officers will see that this cause of complaint is corrected:

"During the hours from 6 p. m. to 8 p. m. there has been a large increase in the number of persons who congregate outside the polling places. This makes it disagreeable to voters who are entering and leaving the polling places. May we ask that the police use every effort to relieve this congestion?"

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

CONTRACT AMENDED.

Progressive Iron Works, Incorporated, has been allowed to amend the contract for fire escapes, Howard Avenue School, by striking out the word and figures "September 12," on page 2, and substituting therefor the word and figures "October 1, 1934," so that said article, Completion, on page 2, shall read: "The Contractor shall carry on the work with due diligence and dispatch and shall bring the work to entire completion as defined in the specifications on or before October 1 of 1934, and shall be liable in damages for any failure to so do, all as defined in the specifications."

LOCATION OF STREET.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That the location, direction, width and grade of the private way, in the West Roxbury district, designated as Vogel street, as shown on a plan approved in writing by the Board of Street Commissioners, and on file in the office of the Street Laying-Out Department, be, and the same hereby are, approved.

FIRE DEPARTMENT ORDERS.

General Order No. 65.

I. NEW ASSIGNMENT CARDS.

New assignment cards are being issued to the department today, as follows:

New assignment card for Box 123, as announced in General Orders No. 47, c. s.

New assignment cards for the following boxes as announced in General Orders. No. 52, c. s.:

1213, 1322, 2217, 2219, 2539, 2724, 3163, 3318, 3336, 3347, 3365, 3429, 3472, 3487, 6171, 7115.

New assignment card for Box 2216, as announced in General Orders No. 50, c. s.

A new assignment card for Box 3631 will be furnished at a later date.

The old assignment cards for Box 1213 are to be returned to this office on or before Monday, September 17, 1934. The company number is to be written on the back of each card returned.

II. BUILDING INSPECTION REPORTS.

In order that a proper record of inspections may be kept at headquarters, district chiefs will forward on Monday of each week, on Form 5, a report showing the number of inspections made by the district inspectors during the previous week, as required by General Orders No. 8, c. s. These reports are to contain the following information: The name of the inspector, his company, the date he was assigned to inspection work and the number of inspections made by him.

Form No. 9 will be sent in weekly and the only inspection reports made on this form will be those made by district and company officers and are not to include those made by district inspectors, as required by General Orders No. 8, c. s.

District inspectors will continue to submit their daily inspection sheets as heretofore.

In order to avoid duplication consolidated monthly building inspection reports will be discontinued.

III. BOSTON FIREMEN'S RELIEF FUND.

A report has been received from the chairman of the Balloting Committee of the Boston Firemen's Relief Fund, giving the following result of the election of members of the corporation held on September 11, 1934:

Lieut. Frederick J. Dobbratz, 671; Lieut. Michael J. McGonagle, 656; Capt. John H. Leary, 657; Edward J. C. Powers, 687; John Horgan, 621.

The balance of the votes was scattering.

IV. COMMENDATIONS.

Capt. Franklin B. Sanborn of Engine Company 53, Hosemen George J. Walker of Engine Company 1 and Frederick E. Gottwald of Engine Company 3 are hereby commended for responding to and working at fire, Box 7323, third alarm, August 31, 1934, while off duty.

Deputy Chief Walter M. McLean of Division 3 and Ladderman Walter E. Kelley of Ladder Company 23 are hereby commended for responding to and working at fire, Box 3421, second alarm, September 5, 1934, while off duty.

The Fire Commissioner is pleased to publish the following letter received from the Acting Superintendent of the Boston Protective Department, expressing his appreciation of the services rendered by members of this department on the occasion of an accident September 10, 1934:

BOSTON PROTECTIVE DEPARTMENT,
3 INDIA SQUARE,
BOSTON, September 10, 1934.

HON. EDWARD F. MCLAUGHLIN,
Fire Commissioner.

DEAR COMMISSIONER,—I wish to extend to you and to the members of your department who responded to Box 1293, at 2.18 a. m. this day, my sincere thanks and appreciation. They gave invaluable assistance to the members of Section 1 of this department, who were seriously injured as a result of an accident due in my opinion to a blow-out in a front tire of the truck they were riding in, causing the truck to collide with an upright of the Boston Elevated Railway at the junction of Northern avenue and Atlantic avenue.

Your men, under supervision of Deputy Chief Stickel, righted the apparatus which had turned over and gave assistance to the injured men. Your wrecking crew upon request was sent and did valuable service in taking the truck to Company No. 2 House, which work was done with great difficulty as the collision rendered the truck valueless. It is another example of that spirit and cooperation which I hope will never diminish.

Very sincerely yours,

PETER E. WALSH,
Acting Superintendent.

By order of Fire Commissioner EDWARD F. MCLAUGHLIN.

HENRY A. FOX,
Chief of Department.

DAMAGES AWARDED.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That this Board determines that the undermentioned persons sustain damages in their estates by the taking made for school purposes on Dorchester street and West Seventh street, South Boston district, under the order of the Board of August 21, 1934, in the amounts hereinafter respectively set against them, and awards said amounts therefor.

INSTALLATION OF TRAFFIC SIGNALS.

The following were received.

City of Boston,
Office of the Mayor, August 9, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Boston Traffic Commission, relative to your order of July 23, 1934, concerning the installation of automatic traffic control signals at Porter and Chelsea streets, Ward 1.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Traffic Commission, August 8, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have the honor to acknowledge receipt of a communication from your office dated August 1, 1934, ordering submission of a report as to the necessity and cost of installing an automatic traffic signal at the intersection of Chelsea and Porter streets, East Boston, as requested in City Council order passed July 23, 1934, which reads as follows:

"Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to install automatic traffic control signals at Porter street and Chelsea street, Ward 1."

The records in this office show that thirty motor vehicle accidents involving personal injuries have occurred at this intersection from January 1, 1929, to date. These were divided by years as follows: 1929, 4; 1930, 5; 1931, 11; 1932, 4; 1933, 4; 1934, 2.

One of the above listed accidents, which occurred on June 19, 1931, resulted in a fatality.

The approximate cost of installing a signal at this location would be $2,300. There are no funds available for this installation at the present time.

Very truly yours,
OWEN A. GALLAGHER,
Acting Commissioner.

HOSPITAL KITCHEN EQUIPMENT—WITHDRAWAL OF ORDER.

The following was received:

City of Boston,
Office of the Mayor, August 27, 1934.

To the City Council.

Gentlenem,—Since submitting to your honorable body transfer orders for kitchen equipment for the Boston City Hospital which was ordered to a first reading on August 13, 1934, I have received a report from the Finance Commission suggesting the advisability of a survey by a kitchen equipment expert before such transfer should be made, and also from the Health Commissioner a letter informing me that as a result of the dismantling of the various cafeterias in the Health Units a large quantity of modern kitchen utensils suitable for use in the Institutions and Hospital Departments is available.

It being possible that such a survey by an expert with this additional equipment now available may make the appropriation unnecessary, I desire to withdraw the order transferring $45,000 for kitchen equipment in the Hospital Department and therefore the order is withdrawn.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

REPORTS FROM PUBLIC WELFARE DEPARTMENT.

The following were received:

City of Boston,
Office of the Mayor, August 22, 1934.

To the City Council.

Gentlemen,—I transmit herewith a letter from Mr. John C. L. Dowling, Executive Director, Overseers of the Public Welfare, relative to your order of May 28, 1934, in regard to advising your honorable body whether the re-registration of all recipients of public welfare has been completed, if so, the date; and the total number of active cases on the rolls of that department as of said date.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Overseers of Public Welfare, August 8, 1934.

Mr. John F. Gilmore, Jr.,
Assistant Secretary, Mayor's Office.

Dear Sir,—This is to acknowledge receipt of your letter of June 13, 1934, inclosing the following order from the City Council:

"That the Overseers of Public Welfare be requested, through his Honor the Mayor, to advise the City Council whether the immediate re-registration of all recipients of public welfare, requested by City Council order of April 16, 1934, has been completed, and if so, as of what date; also the total number of active cases on the rolls of said department as of said date."

It is the intention of this department to re-register all cases on our rolls as soon as the matter of decentralization is completed, which work is now in progress.

For your further information there were 30,368 active cases on the welfare rolls as of April 16, 1934.

Yours truly,
JOHN C. L. DOWLING,
Executive Director.

City of Boston,
Office of the Mayor, August 22, 1934.

To the City Council

Gentlemen,—I transmit herewith a letter from Mr. John C. L Dowling, Executive Director, Overseers of the Public Welfare, relative to your order of May 21, 1934, in regard to forwarding each week to the Statistics Department notice of any and all changes in the status of public welfare recipients.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Overseers of Public Welfare, August 11, 1934.

Mr. John F. Gilmore, Jr.,
Assistant Secretary, Mayor's Office.

Dear Sir,—This is to acknowledge receipt of your communication of June 13, 1934, inclosing the following order from the City Council, dated May 21, 1934:

"That his Honor the Mayor be, and hereby is, requested to direct and require the Overseers of Public Welfare to forward promptly each week to the Statistics Department notice of any and all changes in the status of public welfare recipients."

The above request is being given our attention and reports forwarded to the Statistics Department.

Yours very truly,
JOHN C. L. DOWLING,
Executive Director.

HOUSING AND SLUM CLEARANCE.

The following was received:

City of Boston,
Office of the Mayor, August 27, 1934.

To the City Council.

Gentlemen,—I am submitting herewith a letter from the State Board of Housing of the Commonwealth of Massachusetts with an inclosure showing the result of a survey of a certain area in the city of Cleveland, and a proposed form of resolution which the State Board of Housing submits for the consideration of your honorable body with a view to its immediate adoption if it meets with approval.

It will appear from the accompanying communication that there are certain areas in Boston, as well as in all other large cities, containing real estate which are expensive to maintain and which pay a very small proportionate return in the form of taxes. Such areas may be cleared and new buildings erected substituting for these old and unproductive properties new developments which, beside improving the neighborhood and the city, decreasing crime and the tendency to crime, and improving the general health, will actually yield substantial financial returns.

The example of a twenty-four acre plot in South Boston shows an actual income to the city in taxes of $25,000 as against the cost of maintenance of schools, welfare, fire and other forms of public service and protection, of many times that amount.

Clearance of such a plot and the erection of new buildings would employ about 2,500 men for from one to two years. Federal funds would be available for projects such as these and I earnestly urge your consideration of the advisability of adopting the resolutions. I am heartily in favor of these housing projects for the many reasons enumerated above such as the betterment of public health, beautifying the city, the tendency to decrease crime, the change from a non-productive to a productive tax paying property, the giving of work to a large number of men, and the increase in business caused by the purchase of building materials necessary to such projects.

I strongly recommend the adoption of these resolutions as an important and necessary step in the procurement of Federal aid for the proposed projects.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

The Commonwealth of Massachusetts,
Department of Public Welfare,
State Board of Housing,
Statler Building, Boston,
August 24, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

My dear Mr. Mayor,—May we call to your attention the desirability of securing some expression of opinion from the Boston City Council relative to the necessity of bringing about some government action to promote, through the Federal Emergency Housing Corporation, an allotment of funds for slum clearance within the City of Boston.

During the year just passed, since the National Housing Act has been in operation under Secretary Ickes, no funds have been expended within this state for this purpose. Many agencies have been at work through this time tending to restore conditions, but little or nothing has taken place to restore or to improve the field of building construction.

Studies made by the State Board of Housing through this time tend to indicate additional arguments favoring this action. For example, a study of a twenty-four acre plot in South Boston indicated an actual income to the city from taxes of $25,000, whereas, the maintenance of school, welfare, police and other forms of public service, cost the city a great many times that amount. Further studies of large, low-cost housing projects, both at home and abroad, show conclusively that rebuilding these areas tends to increase the cities income, while it lessens the direct expense—to say nothing of the wider benefit to health, reduction of crime, and other social evils. Such an undertaking becomes a tremendous stimulus to the general neighborhood or district where such construction takes place.

The fact that labor alone derives a larger percentage of benefit through this type of construction, as against other forms of public works programs, almost two for one, indicates what might be the benefit to any community which undertakes such work—particularly with a well-rounded program.

We are inclosing herewith a summary sheet of civic costs for a similar area in Cleveland, where the government is now at work. We take the further liberty of suggesting the type of resolve that might be presented to the City Council, and are also inclosing a copy of Mr. Hoopingarner's letter about his proposed visit to Boston the latter part of next week.

May we take this opportunity to thank your Honor for your interest in this matter of providing low-cost living accommodations—a field that does not invite private enterprise.

Sincerely yours,
SIDNEY T. STRICKLAND.

RESOLUTION FOR SLUM CLEARANCE.

Be it Resolved, That the Boston City Council request the Federal Emergency Housing Corpo-

ration of the Federal Government to give a portion of the same cooperation and monies which it has given to other large cities of our country in the field of slum clearance and rehabilitation of sub-standard areas; and be it further

Resolved, That, in the event of such cooperation, the City Council offer their full cooperation to the end that construction in this field can be started without undue delay.

Referred to Executive Committee.

RESCISSION OF LOAN ORDERS.

President DOWD called up, under unfinished business, Nos. 4, 5, 6 and 7 on the calendar, viz.:

4. Ordered, That the right to borrow money for Fire Station, Brighton, under loan order passed November 13, 1928, and approved by the Mayor on November 14, 1928, be limited to $66,000 and that the authorization to borrow in excess of said amount, for said purposes, be, and the same hereby is, recinded.

5. Ordered, That the right to borrow money for Automatic Traffic Signal System on Commonwealth avenue, from Arlington street to Governor square, under loan order passed December 16, 1929, and approved by the Mayor on December 18, 1929, be limited to $40,000 and that the authorization to borrow in excess of said amount, for said purpose, be, and the same hereby is, recinded.

6. Ordered, That the right to borrow money for Courthouse, Brighton, under loan order passed March 3, 1930, and approved by the Mayor on March 4, 1930, be limited to $120,000 and that the authorization to borrow in excess of said amount, for said purpose, be, and the same hereby is, recinded.

7. Ordered, That the right to borrow money for New Charities Administration Building, under loan order passed March 2, 1931, and approved by the Mayor on March 3, 1931, be limited to $275,000 and that the authorization to borrow in excess of said amount, for said purpose, be, and the same hereby is, recinded.

On August 13, 1934, the foregoing orders were read once and passed, yeas 19, nays 0.

The orders were read a second time and again passed, yeas 19, nays 0.

LOAN FOR PUBLIC WELFARE.

President DOWD called up, under unfinished business, No. 8 on the calendar, viz.:

8. Ordered, That under the provisions of section 2, chapter 49, of the Acts of 1933, the City Treasurer be authorized to secure the approval of the Emergency Finance Board to an issuance of $3,800,000 in bonds or certificates of indebtedness of the city, said bonds or certificates to be sold at their face value to the Commonwealth and the proceeds to be used for relief disbursements by the Public Welfare Department, as set forth in the following table:

Public Welfare Department.

F.	Special Items	$3,800,000
9.	Care of Dependents	$3,000,000
10.	Mothers' Aid	400,000
14.	Old Age Assistance	400,000

On August 13, 1934, the foregoing order was read once and passed, yeas 17, nays 2.

The order was read a second time and again passed, yeas 16, nays—Coun. Shattuck—1.

TRANSFER OF APPROPRIATION.

President DOWD called up, under unfinished business, No. 10 on the calendar, viz.:

10. Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Hospital Department, Pathological Building, $4,087.22; Laundry Building, $2,867.95; Kitchen, Equipment, etc., $1,044.83, to the appropriation for Hospital Department, Laundry Building, Furnishing and Equipping, $8,000.

On August 13, 1934, the foregoing orders were read once and passed, yeas 19, nays 0.

Coun. SELVITELLA—Mr. President, a point of information on that.

President DOWD—We are passing now on the $8,000, the $45,000 having been withdrawn by order of his Honor the Mayor today. We will vote now on No. 10.

Coun. SELVITELLA—Do I understand that is separate from the $45,000 order?

President DOWD—That is separate from the $45,000.

The order was read a second time and again passed, yeas 16, nays 0.

SUMNER TUNNEL TOLLS.

Coun. SELVITELLA offered the following:

Whereas, A survey was made of the leading business firms in Boston, including cities and towns north of Boston, to determine the extent and manner in which the Sumner Tunnel is used by them in connection with their business, together with whatever comment, suggestion or criticism relative to the present rates; and

Whereas, An individual poll was made of operators of pleasure motor vehicles, residing in communities adjacent to and approaching the Sumner Tunnel; and

Whereas, The result of the survey and poll clearly indicates that lack of use of the tunnel is due mainly to the present high schedule of rates;

Whereas, The present rates are unattractive, uninviting to all classes of motorists and causing a deficit of approximately $500,000 per annum;

Resolved, The Boston City Council being of the opinion that a lower toll rate will in all probability reduce and obliterate the present increasing deficit, approves, in part, a revision of the present schedule of tunnel toll rates as follows:

Description.	Rate.
Motorcycles	$0 10
Passenger cars, one-way	15
Round trip	25
Book of thirty-ride tickets per month	3 00
All truck-trailers	25
Funeral procession per car	10
Buses with or without passengers	20
Book of thirty-ride truck tickets per month	6 00

In connection with the resolution Coun. SELVITELLA submitted the following communication:

East Boston Board of Trade,
P. O. Box 21, East Boston,
August 24, 1934.

Councilor Henry Selvitella,
City Hall, Boston.

My dear Councilor,—At a recent meeting of the Board of Directors of the East Boston Board of Trade, it was unanimously voted to indorse and approve a revision of the present schedule of Tunnel Toll Rates as outlined by you.

The present high rates have proven unjust, unfair and injurious not only for the best interests of the city but to the merchants and manufacturers of East Boston as well.

Several business firms with trucks making many trips to Boston daily have advised of their intention to locate elsewhere on account of increased cost of transportation.

We believe a lower rate will encourage more frequent use of the tunnel by pleasure cars as well as trucks.

Respectfully yours,
WILLIAM L. HIRSHBERG,
Secretary.

Coun. SELVITELLA—Mr. President, as we are all familiar and acquainted with the ever-increasing deficit of the East Boston Traffic Tunnel, or the Sumner Tunnel, we are amazed to find that up until the close of business last night there has been a deficit of close to $84,000 since the opening of the new tunnel. Since the tunnel was opened it has been the consensus of opinion among the motorists as well as among leading traffic engineers that in order that this tunnel's deficit might be reduced, that a lower toll rate more attractive to the public would have to be put into effect. I have given this matter considerable study. At the time of the first issuance of the rates on June the 14th, I appealed to the Public Utilities Board for a revision of the rates and after a hearing the rates as submitted by the Commissioner of Public Works were approved, with the understanding that the proponents of lower rates would have an opportunity of later asking for a revision of the rates if they were found to be too high. Now, I do not pretend to know anything about the mechanical operation of the tunnel. Nor do I place much faith in traffic managers or efficiency experts, because in the final analysis it is up to the motoring public to patronize the tunnel. So that I sent out 200 letters in the form of questionnaires to the leading firms in Boston and the cities and towns north of Boston asking for their comment, criticism or suggestions, and I have received back replies from many houses employing large fleets of trucks and in every single instance they have advised me that they are not using the tunnel at the present time due to the excessive and prohibitive rates that have been established; and these firms include some of the largest coal dealers in and about Boston, express companies, small merchants, and so forth. And I also have a letter of indorsement from the East Boston Board of Trade which desires to go on record as opposed to these excessive rates and picturing a situation that, unless some more attractive rates are submitted by the Commissioner of Public Works, the merchants in East Boston will move out of there. I am not going to take the time of the Council in reading the letters that I have here, but I am just going to mention a few names of companies employing at least fifty trucks and who would have used the tunnel with their entire fleets if the rates had been lower: The City Fuel Company; the R. S. Brine Transportation Company, who have sixty-five trucks; the Economy Stores, who have twenty-two large trucks going in and out of East Boston and who, at the present time, are not using the tunnel. The City Fuel Company, which I mentioned first, has twenty trucks. Then there are also the George H. Ball Company, operating a large fleet of trucks, and the Marks Dispatch, the H. B. Church Truck Service, and other individuals. I also have a petition signed by 2,800 motorists in and around Boston, objecting to the present high rates. Now I am just going to amplify, by way of comments on my proposed suggestions. I want to say first that I am just as much interested as any public official in the successful operation of the tunnel, and I do hope that those in charge of the tunnel will give this plan their careful consideration. I do not make it as a threat but as a warning that unless due consideration is given, that the boycott will continue and increase in its present standing. I am asking that they consider the passenger car rate of 15 cents. Now there are many, many motorists in and about Boston who object to a 25-cent one-way fare, and I earnestly and sincerely believe that if 15 cents is charged for passenger cars, that they will get at least 300 per cent more car riders than they are getting at the present time. I would also ask that a round trip ticket of 25 cents be issued to those that go in and out of the tunnel, as an inducement and as an invitation to use the tunnel. There is also a suggestion of issuing a so-called commuter's book of thirty rides to those motorists who have occasion to use the tunnel from two to half a dozen times a day, and it is only fair that they should get a little more consideration than the person using the tunnel but once or twice. The next item is that of the trucks. At the present time there

is a schedule of rates calling for 25 cents for trucks of two and one half tons or less; 35 cents for two and one half to five tons; and 50 cents for ten-ton and $1.50 for fifteen-ton trucks. It does not seem to me very clear why more than 25 cents should be charged regardless of the weight of the tonnage of the trucks, and it is on that question that a great many firms in Boston that have from twenty-five to seventy-five trucks are not using the tunnel and it is that class of business that we ought to attract into using the tunnel, because an analysis of the figures shows that 95 per cent of the automobiles going through the new tunnel are passenger cars and only 5 per cent are firms using the trucks. Now, will you have in mind that this tunnel opens up or leads into the market district, and you will then see that we are not getting our percentage of the traffic that would ordinarily use the tunnel if the rates were reduced to 25 cents per truck regardless of the weight of it, and those firms that contemplate using the tunnel, as stated by them in their letters, at least twenty times a day, they certainly ought to—as an additional inducement—be able to purchase strips of tickets at 20 cents each. Then we would make it inviting to them, and at least try to increase the revenue from the tunnel and decrease the deficit that is now increasing daily. Now then, coming to the question of funeral car processions. At the present time it costs 25 cents for each funeral car passing through the tunnel and, to my knowledge, I do not believe that there has been a funeral procession that has gone through the tunnel, and when we stop to consider that each funeral procession has at least twenty-five cars in it, I think that the rate of 10 cents per car would be low enough and attractive enough. Next we come to the question of buses. The present rates call for 50 cents, and the Boston Elevated Railway Company and the Eastern Massachusetts Street Railway Company absolutely refuse to use the tunnel under the present rates. They have stated that if the rates were reduced to 20 cents for each passenger bus, that they will put in operation, or at least the Boston Elevated Railway will, a 5-cent fare from Haymarket square to Central square, East Boston, and I have been given figures that the Boston Elevated Railway Company will operate 15,000 trips within a period of three months and the Eastern Massachusetts Street Railway Company will operate 8,000 trips in a period of three months. Now those are revenues that we are losing at the present time, and it is but a small detail matter to arrange whatever mechanical devices they may not have at the present time, in order that the present schedules will be changed to conform with the suggested rates that I am presenting here today. It has been too long, those two long months of effort on my part, and I have the indorsement not only of the East Boston Board of Trade, as I stated before, but Mr. W. L. O'Brien, chairman of the transportation committee of the Revere Chamber of Commerce, and Mr. George E. Lund, the president of the Revere City Council; and I hope that those in charge will consider fast dimes, rather than slow quarters.

Coun. BRACKMAN—Mr. President, this is a very important question because it deals with a considerable amount of revenue or a considerable amount of loss to the City of Boston. It not only affects the district of the councilor from East Boston, but every member of the Council. And I would like to suggest to him that he seek to have a committee of this Council appointed to investigate the situation and make a report to the Mayor, or a recommendation, which I feel would be far more effective than the present schedule of rates as now in force.

Coun. SHATTUCK—Mr. President, I do not know what the purpose of the proposal of the gentleman is with reference to action on this order, but I certainly think that we should not snap it through at the present session. This question of rates is a very important one. It is important, as the gentleman who has last spoken said, to every district of the city, because we all bear the burden of this deficit; but it is a matter of very considerable study to determine what rates will bring the most revenue. The rates suggested in the pending order are about an average, I should say, of about half the present rates, and some are less than half while others are a little more than half, but an average of about half the present rates. In other words, if those rates were adopted before getting more revenue, it would be necessary to get over twice as much automobile traffic through the tunnel. It is a question for considerable study whether we can hope to get twice as many automobiles through there if we were to make these reductions in rates. Certainly this matter should not be considered in a snap judgment way if, by doing it, we make ourselves ridiculous, as everybody knows. It is not a matter that one can snap off in a few minutes. It is an exceedingly difficult matter and one on which we do not perhaps get sufficient information to judge whether the rates ought to be changed, and if so, how they ought to be changed. Therefore I hope, sir, that this matter will be referred to a committee of the Council for further consideration.

Coun. SELVITELLA—Mr. President, I agree with Councilor Shattuck that this is ridiculous, and it is most apparent to you that since June 30 the city has operated the tunnel under a loss of $84,000. Now, when you bear in mind that this loss, or this huge deficit, occurred at the height of a summer season, when the tunnel was a novelty, and when the summer vacations were opening up, and when people were going to and from the beaches, and if you consider that that $84,000 deficit was created during the height of the season, I do not want even to imagine what is going to happen in the first four months of next year when, on account of the high automobile insurance rates, people are going to store their cars so that, instead of having a probable deficit of $500,000, we are going to have one of nearly $800,000. These rates have been carefully studied. Where we are getting on an average of 6,500 cars at the present time, I honestly and sincerely believe that there will be close to 13,000 or 14,000 cars under the new schedule of rates. We are going to take care of the smaller rates by the increased patronage of the motorists and especially the trucking concerns and business houses in and about Boston. We have lost that business up to now because the rates have not been sufficiently attractive and inviting. Now, I am interested, of course, in lowering the deficit and reducing the deficit. The tunnel will never pay for itself. There is no doubt of that, and that is the general consensus of opinion of everybody. Our duty is to try to reduce that deficit in order to keep it at a minimum and unless you do something now that the summer season is waning, we are going to increase that deficit. My only purpose is to save the taxpayers of the City of Boston as much money as possible. We are guided by precedent and an experience of two months' operation of this tunnel. Are we going to sit idly by and watch that huge deficit grow? At least put this plan into operation; give it a trial. I understand that there is going to be a reduction anyway; 15 cents is a popular amount, and 25 cents round trip is still popular. If you don't want a continued boycott of the tunnel by the people of East Boston and Revere, then it is your salvation or your privilege to say otherwise. There is nothing selfish in this for me. It is merely to keep down to a minimum the deficit that is constantly increasing.

Coun. GREEN—Mr. President, I heartily agree with everything the councilor from East Boston has so well said in regard to the tunnel tolls, but I do not think we can use snap judgment here this afternoon, and if he is agreeable, I would like to have this proposed schedule of rates referred to the Executive Committee and bring down the Transit Commissioner, Mr. Sullivan, or Mr. Carven.

Coun. SHATTUCK—Mr. President, the gentleman from East Boston says this deficit has been astounding. I suppose he means it has been astounding in the sense that it has been so low. I think it is astounding that it has not been larger, sir. I do not think anybody expected—certainly in the last year or so—that this tunnel would pay for itself. Some of us, when it was pending in the Legislature, voted against it because we felt certain then that it would not pay for itself, or anywhere near pay for itself. I was one of those, and I have not seen anybody since I have served in the Council with whom I have talked, who thought that the tunnel, when opened, would pay for itself. To my mind it is astounding that it has come as near paying for itself as it has. Now, on the question of what rates will bring the most revenue, that is, of course, exceedingly important; and so far as the purpose of the gentleman's order is concerned, I am in entire sympathy with it, but so far as speed in revising these rates is concerned, I think we ought to move carefully and with the greatest consideration.

Order referred to Executive Committee.

EXCLUSION OF TRUCKS FROM WEST CANTON STREET.

Coun. ROBERTS offered the following:

Ordered, That the Traffic Commissioner be instructed, through his Honor the Mayor, to exclude heavy trucks from West Canton street, Ward 4.

Order passed under suspension of the rules.

EMPLOYMENT OF NONRESIDENTS.

Coun. FINLEY offered the following:

Ordered, That the Committee on Ordinances be directed to consult with the Corporation Counsel for the purpose of ascertaining whether or not it is possible to provide legally by ordinance:

1. That all employees of the city shall be citizens of the United States and residents of Boston and that the nonresidence of an employee shall by that fact terminate his employment.

2. That no city contract shall be made except on the condition that all the employees of the contractor and subcontractor shall be citizens of the United States and residents of Boston and that violation of the said condition shall by that fact abrogate the contract.

And if it is determined that such ordinances or either of them can be drafted so as to be legally effective, to report such draft or drafts to the City Council.

—

Coun. FINLEY—Mr. President, my purpose in introducing this order is to see if some definite action cannot be taken to prevent nonresidents of the City of Boston from working on contract and subcontract work given out by the City of Boston. It must be apparent to every member of this Council that there is a decided agitation from the residents of Boston who are being discriminated against when they apply for work in the suburban cities and towns around Boston; and when they see nonresidents coming into the City of Boston and working at jobs on which, in all fairness, they should be given first consideration. I believe that this Council should make some determined effort to see that the ordinances of the City of Boston should protect the interests of the residents of Boston who are seeking work, and that if the same situation should prevail, that the contractors who receive work from the City of Boston should be compelled to give preference to residents of Boston who apply for that work. At the present time, in the various departments of the city, when contracts are given out, it is a fact that the contractors that receive those jobs employ men who live as far away as Marlboro, Mass. In Cambridge, Quincy, Somerville, and all the suburban cities and towns, it is absolutely impossible for a Boston man to secure a job on any work that is given out under contract in those places. Now, if the surburban cities around Boston are protecting their own residents in that way, I think the City of Boston should do likewise. I believe this order that I have introduced is the proper procedure in the matter, to find out, through the committee of ordinances and through our Corporation Counsel, if we cannot in some legal manner find some way to amend or create or provide ordinances which would protect the residents of Boston who are seeking work.

Order passed under suspension of the rules.

TRAFFIC LIGHT AT SOUTH STREET AND ARBORWAY.

Coun. MURRAY and ENGLERT offered the following:

Ordered, That the Traffic Commissioner be instructed, through his Honor the Mayor, to install a traffic light at the corner of South street and the Arborway, Jamaica Plain.

Order passed under suspension of the rules.

RECESS.

On motion of Coun. TOBIN, the Council voted at 2.50 p. m. to take a recess, subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by Pres dent DOWD at 3.50 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. GALLAGHER, for the Executive Committee, submitted the following:

1. Report on communication and resolution from the Mayor requesting cooperation from Federal Housing Corporation in the rehabilitation of substandard areas, recommending new draft as follows:

Be it Resolved, That the Boston City Council request the Federal Emergency Housing Corporation of the Federal Government to give a portion of the same cooperation and monies which it has given to other large cities of our country in the field of rehabilitation of sub-standard areas, provided that each project be approved by the Mayor and City Council.

And Be It Further Resolved, That in the event of such cooperation, the City Council offer their full cooperation to the end that construction in this field can be started without undue delay.

Report accepted; said order passed.

2. Report on resolution of Coun. SELVITELLA for reducing toll rates through the Sumner Tunnel—recommending reference to a special committee.

Report accepted.

REPAVING OF NEWMAN STREET, WARD 7.

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth paving Newman street, Ward 7.

Passed under a suspension of the rule.

BETTER PROTECTION OF BATHERS.

Coun. KERRIGAN offered the following:

Whereas, The recent unfortunate drowning at Carson Beach of Mary Durant, who gave her life in order to save the life of her younger brother, has demonstrated that the facilities and service at the South Boston Beaches for the saving of life should be augmented,

Resolved, That the City Council of Boston favor immediate steps by the Park Department for the placing of signals or signs in sufficient number to warn unsuspecting bathers of unseen dangers; and be it further

Resolved, That the City Council favor the drafting of a bill by the Corporation Counsel to be presented to the next Legislature, to authorize the payment of a certain sum of money to the mother of Mary Durant.

Passed under a suspension of the rule.

MARANVILLE DAY.

Coun. GREEN offered the following:

Resolved, That the members of the City Council of Boston hereby express their approval of the proposed celebration of Maranville Day, Sunday, September 2, by the Boston National League Baseball Club, and tender their cooperation in making the day a success.

Passed under a suspension of the rule.

ACCEPTANCE OF JUNIPER TERRACE.

Coun. GLEASON offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Juniper terrace, Ward 9, as a public highway.

Passed under a suspension of the rule.

JEWISH HOLIDAYS.

Coun. GOLDMAN offered the following:

Ordered, That his Honor the Mayor grant all those employees of the City of Boston who are of the Jewish faith, a leave of absence, without any loss of pay, on the three Jewish High Holidays.

Ordered. That his Honor the Mayor request the authorities of the E. R. A. and the P. W. A. to arrange for a leave of absence, without any loss of pay, for all those of the Jewish faith, who are employed on the E. R. A. or the P. W. A. projects, during the High Holidays.

Severally passed under a suspension of the rule.

CLAIMS REPORT.

Coun. BRACKMAN, for the Committee on Claims, submitted a report on the petition of Daniel F. Flood (referred July 2), recommending the passage of the following:

Ordered, That the sum of one hundred dollars be allowed and paid to Daniel F. Flood in reimbursement for the amount of execution issued against him on account of his acts as a member of the Boston Police Department, said sum to be charged to the Reserve Fund.

Report accepted; order passed.

COMMITTEE ON TUNNEL TOLLS.

Coun. SELVITELLA offered the following:

Ordered, That a special committee of five members of the City Council be appointed to consider and report on the subject of such schedule of tolls for the Sumner Tunnel as would be best adapted to obtain the most revenue for the operation and maintenance of said Tunnel.

The order was passed and the President appointed as members of the Committee, Coun. Selvitella, Green, Shattuck, Brackman and Goldman.

CONFIRMATION OF EXECUTIVE APPOINTMENTS.

Coun. GOLDMAN called up, under unfinished business, No. 3 on the calendar, viz.:

3. Action on appointments submitted by the Mayor August 13, 1934, of Constables authorized to serve civil process, as follows:

Harry Meltzer, Charles Horowitz, John F. Welch, Benjamin Jacobson, John Milgroom.

To this list on motion of Coun. MURRAY, the name of John B. Blotto was added. Question came on confirmation.

Coun. Green and Goldman were appointed to receive, sort and count the ballots.

Whole number of ballots, 14; yeas 14, and the appointments were confirmed.

Adjourned, on motion of Coun. GOLDMAN, at 4.05 p. m., to meet on Monday, September 17, 1934, at 2 p. m.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the construction of Goodway road, West Roxbury district, from Bourne street to Florence street, bounded and described as follows:

The highway named Goodway road is hereby ordered constructed, from Bourne street to Florence street.

Trees or structures standing upon or affixed to the aforesaid highway shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on both sides of Goodway road, from Bourne street to Florence street, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Goodway Road, West Roxbury, Assessment Plan, October 26, 1932, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

P. W. A. ESTIMATES ITS 1934 EXPENDITURES.

A statistical study was received by Public Works Administrator Harold L. Ickes indicating $1,382,000,000 would go from the Public Works Fund into citizens' pockets during 1934 to increase purchasing power and re-employment, and spread recovery.

The study showed P. W. A. expenditures would reach the peak of $164,000,000 a month in June. Statutory and executive allotments totaling approximately one third the entire P. W. A. fund were not included in the compilation.

POPULATION OF COUNTIES, 1930.

(1) Middlesex (11 cities and 43 towns), 934,924 or 156,572 over 1920; (2) Suffolk (3 cities and 1 town), 879,536 or 44,014 over 1920; (3) Essex (8 cities and 26 towns), 498,040 or 15,884 over 1920; (4) Worcester (4 cities and 57 towns), 491,242 or 36,107 over 1920; (5) Bristol (4 cities and 16 towns), 364,590 or 5,585 over 1920; (6) Hampden (4 cities and 19 towns), 335,496 or 35,191 over 1920; (7) Norfolk (1 city and 27 towns), 299,426 or 80,345 over 1920; (8) Plymouth (1 city and 26 towns), 162,311 or 5,343 over 1920; (9) Berkshire (2 cities and 30 towns), 120,700 or 7,667 over 1920; (10) Hampshire (1 city and 22 towns), 72,801 or 3,202 over 1920; (11) Franklin (26 towns), 49,612 or 251 over 1920; (12) Barnstable (15 towns), 32,305 or 5,635 over 1920; (13) Dukes (7 towns), 4,953 or 581 over 1920; (14) Nantucket (1 town), 3,678 or 881 over 1920. Total for the 14 counties (39 cities and 316 towns), 4,249,614 or 397,258 (*i. e.*, 10.3 per cent) over 1920. Of said total, 2,940,335 (*i. e.*, 69.19 per cent) were in the cities and 1,309,279 (*i. e.*, 30.81 per cent) in the towns. The four counties, Suffolk, Middlesex, Essex and Bristol, contain 63.00 per cent of the State's inhabitants.

If the municipalities having a population of 5,000 or over are properly called urban, then the percentage of urban population in the entire State reaches the notable figure of 90.71, while the rural shows but 9.29 per cent.

SAND, CINDERS AND SALT IN DULUTH.

About 385 miles of sidewalk are sanded every year and about 250 miles of streets are snow-plowed and sanded. Ordinarily, flat grades are not sanded, this work being confined to steep grades where dangerous ice conditions exist. During the past season the maintenance department used about 500 cubic yards of cinders, 500 cubic yards of sand, and 5 tons of calcium chloride on the streets.

The use of salt, or sodium chloride, has been discontinued entirely, because of its injurious effect on concrete walks and pavements. The action of salt is not clearly understood, but it is much more active during cold weather than in summer, and is apparently due to the formation of crystals after penetrating the surface, the force of which disintegrates the concrete. Calcium chloride does not seem to be entirely free from this difficulty, but is much less active than sodium chloride.

POPULATION OF NEW ENGLAND, 1930.

Total population, 8,166,341 (4,024,657 males and 4,141,684 females); total white, 8,065,113 (3,972,465 males and 4,092,648 females); total native white, 6,230,803 (3,067,723 males and 3,163,080 females); native white of native parentage, 3,167,082 (1,572,885 males and 1,594,197 females); native white of foreign or mixed parentage, 3,063,721 (1,494,838 males and 1,568,883 females); foreign-born white 1,834,310 (904,742 males and 929,568 females); Negro, 94,086 (46,963 males and 47,123 females); Indian, 2,466 (1,273 males and 1,193 females); Chinese, 3,794 (3,233 males and 561 females); Japanese, 352 (277 males and 75 females); Mexican, 107 (69 males and 38 females); all other races, 423 (377 males and 46 females).

CITY PURCHASING UNDER THE CODES.

Caught between two fires, American cities are feeling the influence of the National Industrial Recovery Act codes in their purchasing in a way they had not foreseen. On one side taxpayers ask for economy in budget-making. On the other, application of codes, which has resulted in collective price-fixing, has increased prices of supplies for city use to an almost prohibitive point.

CHICAGO POLICE.

Although the numerical strength of the Chicago police department has been reduced in the last two years from approximately 6,700 to 6,000, the number of men on foot patrol has been increased 150 per cent, or about 1,900.

DEPARTMENT OF SCHOOL BUILDINGS.

SHURTLEFF INTERMEDIATE SCHOOL FOR THE DEPARTMENT OF SCHOOL BUILDINGS, CITY OF BOSTON, MASSACHUSETTS, NATIONAL INDUSTRIAL RECOVERY PROJECT NO. 4217.

NOTICE TO CONTRACTORS.

Sealed proposals for erecting and completing an intermediate school in the District of South Boston, will be received by the Superintendent of Construction at the office of the Department of School Buildings, 11 Beacon street, Boston, Mass., until 2 o'clock p. m. of Wednesday, October 3, 1934, and at that place and time will be publicly opened and read. The proposal submitted to the Superintendent of Construction shall not be separated from the book of specifications. The additional copy of the proposal form shall be removed from the book of specifications and after filling out shall be sealed in an envelope and delivered to the auditor of the city at the City Hall, School street, Boston, before the time for the opening of the proposals. Consideration shall be given to the fact that this is a project constructed and financed in part by grant under the terms of the National Industrial Recovery Act and chapter 366 of the Acts of 1933 of the Commonwealth of Massachusetts, as amended by chapter 21 of the Acts of 1934. The attention of bidders is directed to the construction regulations prescribed by the P. W. A. The minimum wage rates for the project are $1.20 per hour for skilled labor and $0.50 per hour for unskilled labor. The employment agency designated by the Government for this project is Everett L. Hanna, Manager, 100 Nashua street, Boston, Mass. All bids must be accompanied by a certified check, on a bank located in the Federal Reserve District (5), payable to the City of Boston, in the sum of $30,000. Pursuant to executive order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate of compliance (worded in accordance with P. W. A. 61, revised March, 1934) duly executed by the bidder. The certified check shall be attached to the proposal, sealed and delivered to the Superintendent of Construction. The right is reserved to reject any or all proposals or to accept the proposal deemed best for the City of Boston. The certified checks of the three lowest bidders will be retained until the contract has been signed by all interested parties. All other certified proposal checks will be returned within forty-eight hours after the date of the opening of the proposals. A bond of an approved surety company shall be given by the Contractor in the full amount of the entire contract price. The contract is subject to the approval of the Mayor. No award can be made without the approval of the State Engineer, P. W. A. Plans and specifications may be obtained at the office of the Superintendent of Construction, Department of School Buildings, 11 Beacon street, Boston, Mass. A deposit of a certified check for $300, made payable to the City of Boston, will be required for each set of plans and specifications, said sum to be refunded if plans and specifications are returned not later than seven days after the opening of bids. Mutilation of the plans or the specifications shall be deemed sufficient cause for the forfeiture of the said deposit.

The Superintendent of Construction of the Department of School Buildings of the City of Boston invites sealed proposals for erecting and completing fire escapes on the Wait School, Shawmut avenue, near Castle street, Boston, Mass., and giving bond of a surety company satisfactory to the Superintendent of Construction therefor in the full amount of the entire contract price. Only proposals obtained at the office of the Superintendent of Construction, 11 Beacon street, eighth floor, signed by the bidder and left before 2 o'clock p. m. of Monday September 24, 1934, at said office, with a certified check for $500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The proposal shall be made in duplicate, the one with the check to be submitted as indicated above, and the other to be deposited with the City Auditor, City Hall, previous to the time named for opening proposals. The Superintendent of Construction reserves the right to reject any or all proposals. A deposit of a certified check in the sum of $25 will be required in order to procure a complete set of plans and specifications,, said sum to be refunded to all but the successful bidder. If all unused plans and specifications are not returned prior to noon of Monday, October 1, 1934, said deposit for specifications shall be forfeited. Mutilation of the plans and specifications will be deemed sufficient cause for the forfeiture of the said deposit.

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, SEPTEMBER 22, 1934. NO. 38

MAYOR MANSFIELD BROADCASTS TRUTH ABOUT BOSTON'S HIGH TAX RATE — IN ADDRESS ON SUNDAY, SEPTEMBER 16, HE TAKES FORMER MAYOR CURLEY TO TASK FOR CLAIMING THE RATE OF 1934 OF $4.30 WAS "HIGHEST TRIBUTE" TO HIM AND SHOWED HIS ABILITY AS EXECUTIVE — TELLS AUDIENCE HIGH RATE THIS YEAR DUE TO EXTRAVAGANCES OF PREDECESSOR AND RECKLESS EXPENDITURES UNDER CURLEY REGIME — POINTS TO HURRIED SETTLEMENTS AFTER NOVEMBER ELECTION AND RUSH OF ABATEMENTS IN LAST DAYS OF CURLEY ADMINISTRATION.

The following is the radio address of Mayor Frederick W. Mansfield, from Station WNAC, Sunday, September 16:

The Truth About Boston's High Tax Rate.

Former Mayor Curley stated in a broadcast from this station last Tuesday evening that an increase of $4.30 in Boston's tax rate was the highest tribute that could possibly be paid to him and that it indicated his ability as a chief executive and as an administrator of public affairs.

This statement was such a bold and unblushing distortion of the facts that I cannot let it go unchallenged. The truth is that the high tax rate this year, and the still higher tax rate which we face for next year, are largely the result of the wholesale extravagance of former Mayor Curley and his lavish throwing away of the people's money.

In 1912 Boston's tax rate was only $16.40. When Mr. Curley retired at the end of his second term in 1925 the rate had gone up to $26.70. But in 1926, the first year of Mayor Nichols' term, the rate was $31.80 — an increase of $5.10 over the year before.

Will Mr. Curley claim, because Mayor Nichols found it necessary to increase the tax rate by $5.10 the year after Mr. Curley retired from his second term as Mayor, that that also is a tribute to his genius as an administrator of public affairs? Former Mayor Nichols didn't think so. In his inaugural speech former Mayor Nichols said:

"The incoming Mayor's inheritance is due to conditions over which he has no control. These conditions oblige him to enter upon his administration under a severe financial handicap for which he has no responsibility except to meet them with appropriate measures. . . .

"A sharp rise in the tax rate from the figure of $26.70 to $32 is a serious matter for everyone who either dwells or carries on business in the City of Boston. It can be kept down by borrowing, which, of course, would tend to increase the tax rate in the future. If the existing situation, critical but not dangerous, is met promptly and wisely by an appropriate increase in the tax rate, taxpayers will suffer present inconvenience but will turn the best face toward the future. . . . If, on the other hand, the city fails to face the facts much higher tax rates, even as high as $35 or $40, will become inevitable at no very distant date and the city's credit will be impaired."

Nichols' Situation.

And the only way that former Mayor Nichols could meet the situation, and rescue the city from the financial condition in which it was left by former Mayor Curley, with an empty treasury, was to fix the tax rate at $31.80, an increase of $5.10 over the year before.

When Mr. Nichols retired and Mr. Curley was elected for his last term as Mayor of Boston, the tax rate had been reduced to $28. During those four years the rate was, in 1930, $30.80; in 1931, $31.50; in 1932, $35.50; and in 1933, $32.80. Thus we see that former Mayor Curley found it necessary during his first year to raise the rate from $28 to $30.80. Will he say that this increase of $2.80 was a tribute to his predecessor? Obviously not, yet that is what he is trying to argue now.

In 1932 the Boston tax rate was $35.50, the highest it had ever reached. In 1933—the last year of Mr. Curley's administration—the rate was $32.80, a reduction of $2.70 under the 1932 rate. But let us see how this tax rate of $32.80 was reached. It was reached chiefly by borrowing money and by pay cuts. Mr. Curley, during that year borrowed $3,500,000 to meet the current bills which otherwise would have had to be paid out of taxes. If he did not borrow that money, and if he did not secure the Parkman Act pay cuts, the rate would have been at least $36.80. But he did borrow the money and one of the reasons why the tax rate this year is higher than it was last year is that we have to pay back with interest part of the money that he borrowed amounting to $1,824,000. It represents $1 in the tax rate this year. And he paid a high price for it. He paid 4 per cent while the City of Boston is now borrowing money for around 1.60 per cent.

And let us not forget that in April, 1933, the Parkman Act was passed by which Mr. Curley was empowered to cut the wages and salaries of all city employees. This bill was asked for by Mr. Curley, who saved $3,500,000 by it. And what does that represent on the tax rate? Roughly $2. Add to this the $2 saved by borrowing and you have $4 which, as I have said, would have made the 1933 tax rate $36.80. *(Continued on page 1007.)*

BROADCAST BY MAYOR.

(*Continued from page 1005.*)

I have said that he threw away the city's money with a lavish hand. Let me cite the cases of hurried settlements rushed through after I was elected on November 7 and before I took office on January 1. Those settlements were put through in feverish haste by former Mayor Curley with the aid of his Law Department and the Corporation Counsel. The total amount involved was $1,376,000, and it represents 80 cents in the tax rate. You will recall that I protested at the time and Mr. Curley said that he was still Mayor and would be until January 1.

But that is not all. There was a wild and unseemly rush to jam abatement claims through the Assessing Department between the day of my election and the day I took office. Those abatements covered 1,748 separate parcels of real estate, of a total assessed value of $23,000,000. The amount of tax money actually abated was $759,000, of which $188,000 had already been paid to the city and had to be refunded out of the city treasury. These abatements represent 45 cents in the tax rate.

And speaking of abatements of assessed value it was necessary for the Board of Assessors this year to reduce the assessed value of property in the City of Boston by over $97,000,000. This means that under former Mayor Curley these properties had been assessed too high.

HONEST ASSESSMENT.

But this year the assessors were instructed by me to assess all property honestly and the result has been, as I have said, a reduction of over $97,000,000 upon the assessed value of real estate and that accounts for $2 of the increase of $4.30 this year.

In 1930, the first year of Mr. Curley's last term, the city debt was $102,000,000. In 1933, his last year, it was approximately $136,000,000, an increase in four years of approximately $34,000,000, or 33⅓ per cent. And that debt and that increase will be reflected in the tax rate every year for many years to come because we must set aside every year a certain amount to pay off on the principal of the debt plus the interest and carrying charges.

The result of all this has been that our financial condition has grown steadily worse and our credit as a city has suffered where it formerly enjoyed the distinction of being one of the very best risks in the world for municipal loans.

In March, 1933, during the last year of former Mayor Curley's administration, his City Treasurer Dolan asked for bids on a temporary loan of $1,000,000 and he did not get one solitary bid. This year the credit of the city has improved so much under my administration that we have borrowed money for as low as 1.14 per cent. Does former Mayor Curley think that refusing to lend the city $1,000,000 and declining to bid on that proposal by bankers and the public is a tribute to him? I should call it a very significant indication of what the responsible people in the community thought of him and his administration. They did not consider him a safe risk.

But there are other things that have helped to swell the tax rate this year. I have spoken about the abatements on the valuation of 1,748 parcels of land. But other money was squandered in land-takings of which I will cite only one instance typical of many. Despite the vigorous protest of the Finance Commission in 1932 the Curley administration made immediate payment of $134,000 for property on North street, the amount at which the property was assessed, but which was $49,000 more than the price for which the owner had agreed to sell the land to a private individual by option agreement. Thus the person holding the option got $49,000 and the owner got $85,000. $134,000 of the city's money given for property upon which the owner himself had set a value of $85,000. Such cases could be multiplied many times, but time will not permit.

TRIBUTE TO CURLEY EXTRAVAGANCE.

The increased tax rate in Boston a tribute to Mr. Curley? It is a tribute to his extravagance and willful waste of the city's money. The former Mayor is fond of posing as a wonderful executive, as an expert on municipal affairs and as a man of great administrative ability. Well, here is what he has done for Boston.

1. He has permitted the discredited and archaic borrowing for current expenses to continue so that the present administration inherited it.

2. He permitted the disorganized Public Welfare administration to continue and did absolutely nothing to reorganize it and put it upon a sound footing.

3. He inaugurated and continued an extravagant and inefficient purchasing and contracting system.

4. He claimed that Boston needed no Federal aid and so Boston has never had adequate Federal aid while every other community in the country is obtaining it and Boston is paying its share so that other cities and towns have enjoyed the benefit contributed to by us with Boston getting none.

5. Instead of turning over cash in the treasury he left office with a cash deficit of $13,617,000, which he passed on to me. Of course this is offset by uncollected taxes but much of these taxes are either uncollectable or will not be paid for a long time.

6. He hung a $19,000,000 millstone around the city's neck in the East Boston Tunnel, where the deficit promises to be around $500,000 a year, and this deficit must be made up from taxes and will represent 29 cents in the tax rate of 1935.

To summarize the whole matter briefly and to show the reason for the increase of $4.30, let me put it so that every householder, home owner and taxpayer can understand it.

This year, because of the borrowing of Mr. Curley last year, we have a debt requirement of $1,824,000.

Last year the loan obtained by Mayor Curley to cut the tax rate was $3,500,000. Those two items alone amount to $5,324,000 and that equals $3.16 on the tax rate.

To this add $2 because of the enforced reduction of the assessed values, because Mr. Curley maintained them at too high a scale, and you have $5.16 accounted for right there and yet the increase has been kept down to $4.30.

And let us not forget in this summary that the 1933 rate was a false rate, obtained, as I have stated, partly by borrowing money. Let us not forget that that 1933 rate was kept down to $32.80 by the following factors:

1. Borrowing $3,500,000, representing $2 in the tax rate.

2. By pay cuts under the Parkman Act, $3,500,000, representing $2 more in the tax rate.

3. He failed by the sum of $400,000 to set aside enough money to reimburse overassessed property owners, equalling on the tax rate about 25 cents.

The 1933 tax rate was $32.80. These three items alone would add $4.25 to that and the rate for 1933 would have been $37.05. Practically what our rate is today. Plainly if the 1933 tax rate had been fixed at this figure, the 1934 tax rate would have been much lower than it is.

Radio friends, this is not a political speech. It is not delivered in the interest of any one for any office. If Mr. Curley had not had the brazen effrontery to claim as a tribute to himself the necessity to increase the tax rate in Boston when he himself was largely responsible for that rate, I should have said nothing. But that was too much. The people who pay the taxes are entitled to know how their money goes and where it goes and why it goes.

I am not a candidate for public office. I have no purpose in deceiving you. I want you to know the facts. I have given them to you here. I leave it to you to judge whether the $4.30 increase in the Boston tax rate is a tribute to Mr. Curley's ability or a tribute to his reckless extravagance and incompetency as a public official.

TRAFFIC COMMISSION RULINGS.

Voted, That the Traffic Regulations are amended as follows, effective September 24, 1934:

That section 17, Part 3, is amended by adding the following:

Cross street.
Northeast side, from Sumner Tunnel exit to Hanover street.

Voted, That as urgently required by reasons of public safety and convenience, during the period of a fair to be held by the Emanuel Episcopal Church of West Roxbury, vehicles are excluded from Clement avenue, between Park street and Stratford street, Wednesday, September 19, 1934, between the hours of 6 p. m. and 11 p. m.

FURLOUGHS TERMINATED.

Upon September 13 the Mayor issued the following orders ending furloughs:

MAYOR'S OFFICE,
BOSTON, September 13, 1934.

WILLIAM P. HICKEY,
Traffic Commissioner.

DEAR SIR,—You are hereby authorized to terminate the furlough schedule now in effect in your department as of the first day of October.

Respectfully,

FREDERICK W. MANSFIELD, *Mayor.*

MAYOR'S OFFICE,
BOSTON, September 13, 1934.

DR. FRANCIS X. MAHONEY,
Commissioner, Health Department.

DEAR SIR,—I am advised by the City Auditor that because of anticipated savings within the budget of your department it will be possible to terminate the furlough schedule now in effect on October first without any necessity for an increase in the department budget. In view of this fact, I hereby authorize you to terminate as of the first day of October all voluntary payless furloughs without pay.

Respectfully,

FREDERICK W. MANSFIELD, *Mayor.*

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts for works, materials and supplies for the several departments indicated. Communications from the heads of the departments were as follows:

PUBLIC WORKS DEPARTMENT.

BOSTON, August 1, 1934.

To the Honorable Mayor.

In the construction of the State Highway in East Boston under a contract between the Commonwealth of Massachusetts and A. G. Tomasello & Sons, Incorporated, said work was done by the contractor in sections. The first section graded, etc., included Saratoga street, between the railroad bridge and Swift street; Pope street, between Swift street and Curtis street.

As the Commonwealth recognizes only the contractor to whom they have awarded the contract they are loath to permit other contractors to enter on the highway under construction. Your approval was obtained to award a contract without advertising to the state contractors, A. G. Tomasello & Sons, Incorporated, for the necessary water pipe changes involved, for the sum of $1,985, and in accord with a detailed statement of that particular location showing the changes in this particular location said contract was approved May 10, 1934, and the waterworks changes have been completed. The construction of the remaining section of the highway calls for changes in the water pipe system in Pope street, between Curtis and Wordsworth street, and also on the adjoining streets. A price of approximately $2,200 has been submitted for performing the work as detailed. The reasons why the A. G. Tomasello & Sons, Incorporated, are the only parties to be considered are:

1. This work could not be performed previous to the awarding of the contract by the Commonwealth, as the existing street lines and grades at that time were not conformable to the line and grade as established by the new highway.

2. After a contract is awarded by the Commonwealth the state officials know only the contractor involved and do not grant permits for any other party to enter and interfere with the state contractor. In such cases, also, the contractor objects to an outside contractor interfering with the progress of his activities, he being bonded to the Commonwealth and held directly responsible for all work on the highway.

Your permission is respectfully requested to have the Public Works Department enter into a contract with the A. G. Tomasello & Son, Incorporated, for executing the necessary work at a lump sum of $2,175. The work to be done is:

1. Pope street, between Curtis and Moore street, relaying approximately 160 linear feet 6-inch pipe with 12-inch pipe.

2. Pope street, at Moore street, cut in 10-inch gate on existing 10-inch pipe line.

3. Addison street, at Pope street, lay 45 linear feet 16-inch pipe from end of present pipe to railroad property.

4. Addison street, at Pope street, cut in 16-inch gate and build brick chamber 5 feet inside diameter with 8-inch brickwork.

5. Pope street, between Moore and Byron street, relay 180 feet 6-inch with 12-inch pipe.

6. Pope street, between Byron and Wordsworth street, lay 260 linear feet 12-inch pipe. Lay 25 feet 8-inch pipe, including setting gate and post hydrant in Wordsworth street.

7. Abandoning existing service pipe connections and making new pipe connections at Nos. 593, 597, 579, 585, 587, 589, 591, 595 Saratoga street.

Respectfully,

C. J. CARVEN,
Commissioner of Public Works.

BOSTON, September 14, 1934.

To the Honorable Mayor.

A breakdown in No. 3 pump at the Calf Pasture pumping station discloses the fact that some wearing rings, impellers, etc., demand work which must be performed immediately in order to have the pump operative in case of an emergency, this being one of the pumps at said station for caring of sewage discharged into the bay.

The Marine Company, 173 Sumner street, East Boston, have done work on this pump at various times in the past and are familiar with this type of pump and are thoroughly equipped to do the repairing in the shortest possible time.

I respectfully request permission to enter into a contract with the Marine Company, 173 Sumner street, East Boston, to do the repairing as detailed, for a sum of $1,782, without inviting bids by advertisement.

Respectfully,

C. J. CARVEN,
Commissioner of Public Works.

CIRCULAR LETTER NO. 14.

MAYOR'S OFFICE,
BOSTON, September 18, 1934.

To the Heads of Departments, Including County Officials.

GENTLEMEN,—The forms to be used in the preparation of departmental budget estimates for the year 1935 are now available and may be obtained at the Budget Department, 47 City Hall. These forms should be secured at once and preparation of budget estimates for the new fiscal year started immediately.

Departmental estimates are to be returned to the Budget Department in accordance with the provisions of section 23, chapter 3, of the Revised Ordinances, namely, "on or before the first day of November." This ordinance provision must be strictly observed by department heads, since it will be necessary in 1935 to complete the preparation and consideration of the budget at a much earlier date than ever before. Beginning with next year the tax year will coincide with the calendar year. Advancing the beginning of the tax year by three months means that the declaration of the tax rate must be similarly advanced. To permit an announcement of the rate in May, rather than August, early passage of the budget is imperative. It will be necessary, therefore, to insist on submission of budget estimates by department heads *not later than November 1.* Conferences with department heads on their budget estimates will begin on or about November 15.

In view of the probability of increased commodity prices in 1935 it is suggested that department heads confer with the Superintendent of Supplies and ascertain the estimated trend of prices in advance of the preparation of their estimates.

In order that the maximum personal service requirements for 1935 may be ascertained, department heads are instructed to include in their estimates provisions for any sliding scale increases that may be made. These increases are to be computed as of January 1, 1935, except in the Fire and Police Departments, where sliding scale increases for privates and patrolmen will be figured from the anniversary dates. Sliding scale increases are to be recommended only for those groups and positions which were granted increases this year under chapter 228 of the Acts of 1934. Only those below the maximum of the different groups may be recommended for sliding scale increases. Under no circumstances should recommendations for new positions or salary increases, with the exception of the sliding scale increases previously mentioned, be included in departmental estimates.

In view of existing conditions it is hardly necessary for me to point out to department heads the necessity for using the utmost care in the preparation of departmental estimates. Faced with the certainty of rising commodity prices, a strong probability of an increased State Tax, the initial financing of the Sumner Tunnel operating deficit, and the apparent necessity of appropriating $5,000,000 for the restoration of salary and wage reductions, it is evident that only by heroic measures may a confiscatory tax rate be avoided in Boston in 1935. Of the many items entering into the determination of the tax rate the budget is the sole factor over which the Mayor may be said to exercise a material measure of control. Department heads are therefore directed to make an individual, intensive study of their departmental needs to the end that reductions and savings may be effected wherever possible. Appropriations which in the past have been included in budget estimates largely because of precedent and custom should be eliminated. Budget estimates when finally prepared should represent the irreducible minimum required for the rendition of efficient service to the public. It is my intention to carefully examine the estimates when submitted and department heads will be held individually responsible by me for strict compliance with this direction of conserving wherever possible.

Attention is expressly directed to the specific instructions for filling out estimate sheets listed on the following pages.

Respectfully,

FREDERICK W. MANSFIELD, *Mayor.*

INSTRUCTIONS FOR PREPARING BUDGET ESTIMATE SHEETS.

In General.

Department heads are to submit General Item Sheets 1 and 1A, together with supporting Schedule A (Sheet 2), for each division within the department. Five copies of each form are to be made. Four copies are to be sent to the Budget Department and one copy retained in the department office. Department heads responsible for the submission of budget estimates must sign the first, or original, copy of the estimate forms on the line reserved for this purpose. Facsmile or typewritten signatures will be accepted on other copies. The name of the department and the division, if any, should be clearly indicated on each estimate form.

Forms, when returned to the Budget Department, must be accompanied by an explanatory letter (in triplicate), addressed to the Mayor, giving full details as to reasons for estimates under each item. Large estimates must be fully itemized. Forms for the explanatory letter are furnished with the estimate sheets and are numbered Sheet 3. *No department estimate will be considered complete in which the explanatory letter is missing.*

Any amendment of estimates subsequent to the filing of the original estimate sheets must be supported by a written request (in triplicate) addressed to the Budget Commissioner.

Estimate sheets are not to be folded or rolled, but are to be returned in the same envelope in which the blank forms are distributed to the departments.

Estimate sheets are to be returned to the Budget Department not later than November. 1.

GENERAL ITEM FORMS (Sheets 1 and 1A).

Estimates are not to be entered in the column headed "Department Estimate," No entries are to be made in the column headed "Allowed by Mayor."

Item estimates are to be entered in the left-hand division of the estimate column. The right-hand division of this column should be used only for group totals—these totals should be inserted in this column on the same line as the heading of this particular group.

Since definite information concerning the possibility of a continuance of E. R. A. projects during 1935 is not available at the present time, no provision has been made on these forms for estimates under the "H" group. In the event of a continuance by the Federal Government of this form of unemployment relief during 1935, department heads will be requested at a later date to submit budget estimates under the "H" group.

Schedule A Form (Sheet 2).

Title of Position: In city departments positions in Schedule A should be listed in the order indicated under "Exhibit D" in the printed copy of the 1934 budget (Document 61, 1934). In county departments positions should be listed alphabetically according to the titles under which employees have been allocated in the County Classification Plan.

Quota: This column should indicate the total number allowed for each class of position regardless of existing vacancies.

Vacancies: All vacancies existing at the time of submission of budget estimates should be indicated in this column.

Pay Roll Period: It is desirable that the Budget Department should know whether employees are paid on monthly, semi-monthly or weekly pay rolls. For this reason a column has been designated. There should be inserted in this column, opposite every title, either the letter "M" or the letter "W", "M" indicating that the incumbent of the position opposite which this letter appears is paid on monthly or semi-monthly rolls and "W" indicating that the incumbent is paid in weekly installments. In groups of employees receiving the same salary, it is requested that two lines be used, if necessary, to show the pay roll distribution of the entire group.

Rate of Pay: In filling out this column the following instructions should be observed: Owing to the fact that chapter 121 of the Acts of 1933, reducing salaries by 5, 10 and 15 per cent, automatically becomes inoperative on December 31, 1934, all salary estimates should be submitted on the *basic rate of pay* for each particular position. Where no sliding scale increase in salary is proposed, enter the basic rate of pay. Where a sliding scale increase is proposed, enter both the present basic and proposed basic rates, separating the two by a dash, or interlining them, *e. g.*, $1,800–1,900 or $\frac{\$1,800}{1,900}$ per year. Sliding scale increases of salaries and wages should be estimated from January 1, 1935, except in the case of employees who received an increase during 1934, or who by reason of similar cricumstances in 1933 received only a portion of the sliding scale rate in 1934, the sliding scale step will be figured from the corresponding date in 1935, *e. g.*, an employee who received a sliding scale increment, or an increase in salary, on September 1, 1934, and who is entitled to a sliding scale increase, the same will be figured for the increment from September 1, 1935, to December 31, 1935. In the Fire and Police Departments sliding scale increases for privates and patrolmen will, of course, be figured from anniversary dates.

BOSTON INCORPORATED AS A CITY, 1822.

The act of incorporation was passed by the Legislature on February 23, 1822. On March 4 following, the voters of Boston accepted said act, chapter 110, 1821-22, as its first city charter by a majority of 916 in a total vote of 4,678. The vote was 2,797 yeas, 1,881 nays. Previous attempts to incorporate as a city had been made in 1650, 1659, 1667, 1708, 1744, 1762, 1784, 1791, 1804 and 1815. The charter was revised in 1854, 1885 and 1909. Amendments to the 1909 charter were enacted in 1910, 1912, 1914, 1918, 1919, 1921, 1922 and lastly in 1924 (see "Municipal Register" for 1928, pages 19-43).

POLICE DEPARTMENT ORDERS.

General Order No. 546.

The commanding officers of all divisions and units shall inform the Bureau of Operations immediately when any matter of importance occurs, such as felonies of all descriptions, sudden deaths, attempted suicides, fire, explosions, drownings, riots, accidents, misappropriation and larceny of automobiles, and any other emergencies that might arise, together with a summary of the facts in their possession.

In cases of persons who are injured, commanding officers shall immediately notify the Bureau of Operations and furnish the name and address of the nearest relative or friend. In the event where the nearest relative or friend does not live on the division reporting the accident, the Bureau of Operations shall make every effort to notify the proper party.

In all cases of serious crimes, such as holdups, burglaries, etc., where the perpetrator has escaped, commanding officers of all divisions and units shall notify immediately the Bureau of Operations with whatever information is available at that particular time. Any additional informative facts that may be obtained later shall be immediately telephoned to the Bureau of Operations. Prompt action shall be required of all officers concerned in these cases.

In serious cases that require the attention of the Supervisor of Cases, in accordance with the rules, particularly relating to homicides or an assault likely to result in death, or where death follows a criminal attempt to procure an abortion, commanding officers of all divisions shall immediately notify the Bureau of Operations.

Commanding officers of all divisions, upon receipt of information regarding a missing person, including lost children, shall immediately notify the Bureau of Operations and furnish a description of the person, clothing and other characteristics that may aid in identification.

The division commander shall see that an officer calls frequently at the home of the missing person until such person is found, and if such person returns or any further information is obtained, such information shall be telephoned to the Bureau of Operations.

Commanding officers of all divisions shall report promptly to the Bureau of Operations the cause and location of all fires in their divisions, and if reinforcements are needed the commanding officer shall notify the Bureau of Operations in order that a sufficient force of men may be sent to the fire.

All rules and regulations and orders inconsistent herewith are hereby repealed.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 547.

The report entitled "Return A, Monthly Return of Offenses Known to the Police," for the month of August, has been forwarded to Mr. J. E. Hoover, Director, Division of Investigation, Department of Justice, Washington, D. C.

This monthly return is composed of the following offenses:

1. Criminal Homicide:
   a. Murder and non-negligent manslaughter.
   b. Manslaughter by negligence.
2. Rape. (Abuse of female child.) (Rape, assault to.)
3. Robbery. (Assault to, robbery, armed and unarmed.)
4. Aggravated Assault. (Assault and battery, with dangerous weapon, mayhem.) (Assault with intent to murder.)
5. Burglary. Breaking and entering.
6. Larceny, Theft (except auto theft):
   a. $50 and over in value.
   b. Under $50 in value.
7. Auto Theft. (Larceny of automobile and attempted larceny of automobile.)

Divisions of this department reported on the above-mentioned offenses collectively for the month of August as follows:

Division.	Number of Offenses Reported.	Unfounded.	Actual.	Cleared.	Per Cent Cleared.
1	50	20	30	34	100.00
7	35	8	27	35	100.00
9	138	74	64	79	100.00
15	32	15	17	24	100.00
18	—	—	—	4	100.00
19	48	11	37	34	91.89
2	76	48	28	25	89.28
10	92	20	72	64	88.88
16	83	33	50	43	86.00
14	29	10	19	16	84.21
6	54	31	23	18	78.26
13	30	7	23	18	78.26
4	126	56	70	48	68.57
11	29	16	13	8	61.53
17	13	2	11	5	45.45

It will be noted upon examination of the percentage of cases cleared that Divisions 1, 7, 9, 15 and 18 have obtained a mark of 100 per cent. An examination of the percentages during the past few months discloses the fact that Division 7 has had an average of 100 per cent during the months of June, July and August, and that Divisions 15 and 18 have attained a perfect score for the second time. Practically every division in the department showed an improvement in the percentage of cases cleared for this month over the month of July.

The total percentage of cleared cases by all the divisions was 84.82 and the combined averages of divisions by districts were as follows:

	Per Cent Cleared.
District B: (Divisions 1, 2, 7, 15 and 16)	95.06
District A: (Divisions 13, 14, 17, and 19)	79.96
District C: (Divisions 4, 6, 9, 10 and 11)	79.45

The commissioner is pleased to note the continual improvement shown by divisions in the percentage of cases cleared for the month of August.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 548.

A trial board consisting of Captains Campbell, Casey and Daley, having heard by reference a complaint made by George A. Mahoney, lieutenant, Division 6, against Cornelius F. Crowley, patrolman, Division 6, for alleged violation of Rules 27, 36 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge 1: Conduct unbecoming an officer.

Specification: In that on August 26, 1934, at 11.55 p. m., while on duty and in uniform in West Broadway, Patrolman Crowley was under the influence of intoxicating liquor to such an extent as to unfit him to properly perform police duty, if called on so to do.

Charge 2: Neglect of duty.

Specification: In that on August 26, 1934, Patrolman Cornelius F. Crowley, assigned to a fixed post, out first duty, in West Broadway at Dorchester street, did leave his post of duty without being properly relieved and without notifying the officer in charge of station that he was so doing,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence finds the said Patrolman Cornelius F. Crowley guilty on both charges and specifications thereunder. Inasmuch as Patrolman Crowley has been before a trial board on two other occasions, and his commanding officer, Captain Fallon, states that he believes the officer's usefulness in the department is past, the Board respectfully recommends that the said Patrolman Cornelius F. Crowley be dismissed from the Police Department."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Cornelius F. Crowley be dismissed from the Police Department, effective as of September 13, 1934, at 5.45 o'clock p. m.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

ADDED DAMAGES.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of November 2, 1931, as amended, determining damages caused by the making of the public improvement consisting of the laying out of Guernsey street, be, and the same hereby is, amended, by adding to said order the amount $150 as an award to Helen Gallagher; that the amount $150 be, and the same hereby is, awarded to Helen Gallagher for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of August 15, 1933, determining damages caused by the making of the public improvement, consisting of the laying out and construction of Freeland street, be, and the same hereby is, amended, by striking from said order the amount $130 awarded to Mary G. Doherty and Henry H. Dionne in said order and inserting in place thereof the amount of $350; that the amount $350 be, and the same hereby is, awarded to Mary G. Doherty and Henry H. Dionne for the damages so sustained.

ADJUSTMENTS OF PAY.

The Mayor has approved the following request of the Public Works Department:

BOSTON, September 13, 1934.

To the Honorable Mayor.

The acceptance of the grant for P. W A. projects Nos. 4205, Street Improvement; 4193, Sewer Construction; 7223, Water Pipe Laying in Forest Hills; 4214, Water Pipe Laying in Brookline Avenue; and 9177, Repairing Northern Avenue Bridge, imposed certain obligations relative to the rate of pay of Public Works Department employees to be engaged on these projects, said employees being none as (Borrower's Staff).

Article 2. Construction Regulations included in each contract contains the following paragraph and is part of the contract:

Engineers, architects and other professional and sub-professional employees engaged in duties normally done at the site of the project shall receive at least the prevailing rates for the various types of services to be rendered, provided that in no case shall professional employees receive less than $36 weekly compensation for forty hours or less irrespective of the number of hours employed.

"Where the working week is larger than forty hours, weekly compensation shall be increased proportionally. Compensation under this paragraph shall be subject to the approval of the Government Engineer."

The mandatory 15 per cent reduction in salaries reduces the weekly rate of pay of various engineers and inspectors below the $36 minimum rate. Demands have been made and will be made by the P. W. A. authorities that the Public Works Department live up to the contractorial agreements.

After a consultation with Corporation Counsel Henry Foley and City Auditor Charles Fox, as to the best methods of compliance, I am of the opinion that to care for those engineers that are directing and supervising projects and who are not now receiving a salary compensatory to the position, that they be permitted to apply for a leave of absence until December 31, 1934, and to employ them from their date of beginning on the P. W. A. project until December 31, 1934, or the project is completed, at a rate of $50 per week.

The following engineers are effected by this change of salary:

Cornelius Collins, weekly rate, $34.23, Paving Division; William F. Donnelly, weekly rate, $39.12, Water Division; Edward J. Pinkul, weekly rate, $27.71, Water Division.

The following inspectors do not now receive rate of $36 per week and I respectfully request permission to pay said rate during the contract period:

James L. Barry, Frank A. Corcoran, John W. Green, Joseph McCaig, James J. McMorrow, Frederick C. Power, W. J. Galvin, weekly rate, $34.23, Paving Division; Walter P. Palmer, weekly rate, $32.60, Paving Division.

Thomas Canfield, James Conboy, Peter J. Costello, Daniel Cotter, Michael J. Dagle, William Dotten, William Flynn, John P. Meehan, Henry McBride, Walter McDonough, John J. Mullen, John Ring, Leo Rull, John E. Whalen, George Gleavy, John J. King, weekly rate $35.86, Sewer Division.

Respectfully,

C. J. CARVEN,
Commissioner of Public Works.

AMENDMENT TO CONTRACT.

The Mayor has approved the following amendment to contract:

This Agreement made this thirteenth day of September, 1934, by and between the City of Boston, a municipal corporation hereinafter called the City, acting by its Boston Traffic Commission, and the Edison Electric Illuminating Company of Boston, a corporation hereinafter called the Company,

Witnesseth that:

Whereas, the parties hereto have entered into an agreement, dated July 24, 1934, for the installation and operation of one group of isolated non-interconnected electrically-operated traffic signals at Commercial street and Foster street, Boston; and

Whereas, The City, through its said Traffic Commission, has been unable to obtain from its Park Department permits for the necessary construction and installation in the bath house as provided in paragraph numbered 5 of said agreement and it is necessary to amend the provisions of said agreement relating to the source and control of the necessary supply of electric current;

Now, therefore, in consideration of the premises and of the mutual promises hereinafter expressed and one dollar each to the other paid, receipt whereof is hereby acknowledged, the parties hereto agree to amend said agreement, dated July 24, 1934, by striking out paragraphs numbered 2, 4, 5, 6, 8 and 9 thereof and by inserting the following paragraphs in place thereof:

"2. The Company agrees, at the expense of the City, as hereinafter provided, to furnish and install control and service cables, conduit connections, terminal boxes and service equipment, at the said street intersection as shown on plan annexed hereto, dated July 19, 1934, and Revision No. 1, dated August 21, 1934, and marked S 3539.

"4. The Company agrees, at the expense of the City, as hereinafter provided, to furnish and install from its direct current source of supply in manhole 844, so called, two No. 6 (B. & S. gauge) rubber-insulated and lead-covered, 600-volt service cables to the terminal block in the base of an inverter housing pedestal. The Company further agrees, at the expense of the City, as hereinafter provided, to furnish and install from the terminal block in the aforementioned pedestal, two No. 6 (B. & S. gauge) rubber-insulated and lead-covered, 600-volt direct current service cables and one No. 10 twin (B. & S. gauge) rubber-insulated and lead-covered, 600-volt alternating current service cable to the said traffic signal post, for the supply of electricity at 115 volts direct current to the signal lamps and at 110 volts alternating current to the control mechanism. The Company will make the connections to the service fuse blocks to be provided and installed by the City in said control box on said traffic signal post.

"5. The Company agrees, at the expense of the City, as hereinafter provided, to furnish, install and connect a 200-volt ampere inverter, 115-volt direct current to 110 volt alternating current, complete with the necessary starting and protective equipment, in a suitable pedestal-mounted housing, to be furnished and installed by the City.

"6. The Company agrees, at the expense of the City, as hereinafter provided, to furnish and install conduit connections between manhole 844, so called, and said inverter housing pedestal and said traffic signal post, from said traffic signal post to said inverter housing pedestal, and to furnish and install lateral conduit connections from said manhole to said terminal boxes on said Boston Elevated Railway columns, for the installation of cables described in Paragraphs 2, 3 and 4 hereof.

"It is understood and agreed that four iron pipe quarter-bends will be furnished by the Company at the expense of the City, as hereinafter provided, for the said connections to said traffic signal post and said inverter housing pedestal. The concrete bases or other supporting rods or structures for said traffic signal post and said inverter housing pedestal are to be provided and installed by the City,— the installation of said quarter-bends to be under the supervision of the Company.

"8. It is agreed that said control cables and the direct and alternating current service cables to be provided and installed by the Company from the inverter housing to the control box as aforesaid shall be the property of the City, and shall be maintained by the Company, but the cost of maintaining the same shall be borne by the City under terms and conditions hereafter to be agreed upon, and the City further agrees that it will furnish and keep on hand in its own stockrooms a supply of control cable sufficient for necessary repairs and renewals.

"It is further agreed that the said inverter and its protective equipment and wiring shall be and remain the property of the City, and be maintained by the City at the City's expense.

"9. BUILDINGS RAZED.

The Mayor has approved the request of the Building Department to raze the following structures as fire nuisances or menaces:

The building at 84 London street, rear, Ward 1.

The building at 68 Liverpool street, Ward 1.

The building at 31 Way street, Ward 3.

The building at 3 Hayden place, Ward 6.

The building at 178 London street, Ward 1, the sills are rotted, building settled, wall open. Dilapidated and a menace. The owner, Gaetano Dalessio of 180 London street, East Boston, has been notified of the unsafe condition of the building, but has done nothing to remove cause of complaint.

The building at 43 Oswego street, Ward 3, the west wall, formerly party wall, is bulged and settled at basement. Above basement this wall is in poor condition, many soft bricks disintegrating. Rear wall at east end is cracked and settled. Pile tops under rear wall that have been exposed are decayed on top. West wall is a bearing wall, 8 inches thick. The owner, Sadie Canner of 17 Cobb street, Boston, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 25 Oswego street, Ward 3, the east party wall exposed by the razing of adjoining building is bulged in several places, some outside bricks disintegrating, also rear wall is bulged, settled and cracked. Fire escape at rear in need of repairs and cut off at second floor. The owner, Sotir E. Kreshpani of 25 Oswego street, Boston, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 244 Paris street, rear, Ward 1, the building burnt over 50 per cent, dilapidated and a menace. Must come down. The owner, Minnie Brass of 240 Paris street, East Boston, has been notified of the unsafe condition of the building, but nothing has been done to remove cause of complaint.

The building at 5 Washington place, Ward 6, the building is in an unsafe and dangerous condition, dilapidated and a fire menace. The owner, Samuel S. Levine, in care of Albert Goldman of 18 Tremont street, Boston, has been notified of the unsafe and dangerous condition of the building, and a notice has been posted on the building, but nothing has been done to remove the cause of complaint.

The building at 162 Heath street, Ward 10, the rear door is broken down, sash and glass out of basement windows and it is now a fire menace. The owners, Roderick A. and Susan A. Cummings of 9 Heath place, Roxbury, have been notified of the unsafe and dangerous condition of the building, but nothing has been done to remove the cause of complaint.

HOUSING CORPORATION HAS $123,670,500 AVAILABLE.

Transfer to the Public Works Emergency Housing Corporation of $23,670,500 previously allotted to seven low-cost housing and slum clearance projects was announced by Public Works Administrator Harold L. Ickes. The housing corporation now has $123,670,500 available for housing and slum clearance projects.

TRANSFER OF FUND.

The Mayor has approved the following request of the Park Department:

BOSTON, September 18, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—By vote of the Board of Park Commissioners, you are respectfully asked to request the City Council to transfer from the income of the George F. Parkman Fund the sum of $60,000, which is now available, to be expended under the direction of the Board of Park Commissioners as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of.....$60,000

When the budget estimates were made up for the year 1934, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item A-1, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1934, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Park Department.

Respectfully yours,

WILLIAM P. LONG, *Chairman.*

MOTOR VEHICLE ACCIDENTS IN 1933.

It is estimated that in 1933 there were 30,500 motor vehicle deaths—1,000 more than in 1932; this remaining otherwise, however, the lowest number since 1928, when 27,996 deaths occurred. These figures are given by the National Safety Council, Inc., in "Public Safety" for February.

MASSACHUSETTS BAY COLONY.

The first chartered colony in New England, charter granted by Charles I on March 4, 1629. About a year before, a patent had been granted to six prominent men of Dorchester, west of England, among whom was Capt. John Endicott. He sailed in June, 1628, with a party of fifty or sixty persons, arriving in September and settling at Naumkeag, afterward named Salem. In the spring of 1629, the Bay Company fitted out three ships conveying about four hundred persons and arriving at Salem in June. Endicott sent a small party to effect a settlement on the Bay in Mishawum, afterward named by the settlers Charlestown, the first town in New England to assume the town polity, Plymouth and Salem being governed by a governor and council. Endicott was appointed in London as the first resident governor on April 30, 1629. The Massachusetts Bay Company was reorganized in London on October 20, 1629, when John Winthrop was chosen as governor. He arrived at Salem on June 12, 1630, soon proceeded to Charlestown with a large following and finding that place unsuitable, finally settled in Boston. Winthrop served thirteen years as governor in four different periods ending in 1649 and Endicott fifteen years at various times ending in 1665. Other governors were Thomas Dudley, Richard Bellingham, John Haynes, Henry Vane, John Leverett and Simon Bradstreet, the latter serving twelve years until 1692 when the Bay Colony and the Plymouth Colony were merged, becoming the Royal Province of Massachusetts Bay, which existed eighty-two years to 1774, the governors being appointed by the King.

The name, Massachusetts, is Indian and signifies "near the big hills."

POPULATION OF UNITED STATES, NEW ENGLAND AND MASSACHUSETTS.

Continental United States (*i. e.*, 48 states and the District of Columbia) in 1930, 122,775,046; outlying possessions, 14,233,389; total, 137,008,435; New England, 8,166,341; Massachusetts, 4,249,614 or 52.04 per cent of New England and ranking eighth in the Union. In density of population Massachusetts ranks second, *i. e.*, 528 per square mile of land, Rhode Island ranking first, with 644 per square mile of land.

Population of the other New England States in 1930, ranking from the highest total: Connecticut, 1,606,903; Maine, 797,423; Rhode Island, 687,497; New Hampshire, 465,293; Vermont, 359,611. Density for New England, 132 per sq. m.; for U. S. (48 states and the District of Columbia) 41 per sq. m.

The population of the United States increased 16.1 per cent since 1920; that of New England 10.3 per cent and that of Massachusetts 10.3 per cent.

APPOINTMENTS BY THE MAYOR.

The Mayor submitted the appointments of Herbert Paresky, 4 Leicester street, Brighton, and Joseph F. Ryan, 25 Teragram street, East Boston, to be Weighers of Goods, and William F. Nover, 49 High street, Somerville, to be a Weigher of Coal.

Severally laid over one week under the law.

ANDREW J. GLEASON CIRCLE.

The following was received:

City of Boston,
Office of the Mayor, August 28, 1934.

To the City Council.

Gentlemen,—The order adopted on August 13 requesting the Park Commissioner to name the circle at Castle Island in memory of the late Andrew J. Gleason was referred by me to Park Commissioner Long for consideration and report. I have just received a letter from Mr. Long in which he reports that the land in question is under the jurisdiction of the United States Government and as it is Government land that there would be some difficulty in obtaining permission to name it after any person. He also calls attention to the fact that it has been the policy of the Park Department to name its areas "only for those paying the supreme sacrifice or for outstanding personages of by-gone days."

He adds that he has no information as to whether or not Mr. Gleason was in the World War or was wounded or what his history is, and that he would like to obtain more information before taking up the matter with the War Department at Washington.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

RECONSTRUCTION AND REPAIR OF NORTHERN AVENUE BRIDGE.

The following was received:

City of Boston,
Office of the Mayor, September 7, 1934.

To the Honorable the City Council.

Gentlemen,—On April 16, 1934, your honorable body passed the following order:

"Ordered, That in accordance with the provisions of section 2, Part 1, of chapter 366 of the Acts of 1933, and acts in amendment thereof or in addition thereto, the City of Boston shall engage in the following public works project:

Reconstruction and repair of Northern Avenue Bridge at an estimated cost of $375,000."

This order was approved by me on April 18, 1934.

I have recently received from the Federal Emergency Administration of Public Works, with letter of transmittal dated August 29, 1934, forms of grant agreement between the City of Boston and the United States of America relating to the project approved by the above order, and I submit herewith one copy of said agreement. Said agreement provides for a grant to the City of Boston by the United States of America, upon the terms and conditions therein set forth, of an amount not to exceed 30 per cent of the cost of the labor and materials employed upon the project and not to exceed $103,000.

I also submit herewith an order approving said grant agreement and authorizing me to execute and deliver to the United States of America for and in behalf of the City of Boston three counterparts of the same.

I recommend prompt consideration and passage by your honorable body of this order, because of the limited time available for the execution and delivery of this agreement, and because of the desirability of commencing work upon this project without delay.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

Ordered, That the Mayor be, and he hereby is, authorized to execute and deliver to the United States of America for and in behalf of the City of Boston three counterparts of the grant agreement between the City of Boston and the United States of America, relating to the Public Works Project of the reconstruction of the Northern Avenue Bridge over the Fort Point channel, P. W. A. Docket No. 9177, and providing for the grant upon the terms and conditions in said grant agreement set forth to the City of Boston by the United States of America of an amount not to exceed 30 per cent of the cost of the labor and materials employed upon said project and not to exceed $103,000, one copy of which grant agreement has been submitted to this meeting, and is made a part of the minutes hereof, and that said grant agreement be and the same hereby is approved.

Referred to the Executive Committee.

REPAVING EAST SIXTH STREET.

The following was received:

City of Boston,
Office of the Mayor, September 6, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Commissioner of Public Works, relative to your order of August 13, 1934, concerning the repaving of East Sixth street, South Boston.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Public Works Department, September 4, 1934.
Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I beg leave to acknowledge receipt of City Council order passed August 13, reading:

"Ordered, That the Street Commissioners, through his Honor the Mayor, be instructed to repave with smooth paving East Sixth street, South Boston."

East Sixth street, G street to Farragut road: G to K streets, macadam and artificial stone sidewalks. Macadam is in poor condition. The artificial stone sidewalks in good condition. K to L streets, granite blocks with gravel base, abandoned car tracks. Artificial stone sidewalks in good condition. Granite blocks are of no value. L street to Farragut road, granite blocks with gravel base. Car tracks abandoned from L to P streets, and from P street to Farragut road the tracks are in service. Brick sidewalks, granite blocks are of no value.

The entire roadway is in very poor condition and should be constructed with smooth pavement on 6-inch concrete base with artificial stone sidewalks where needed at an approximate cost of $75,000. There is no money available in any budget item this year for the repaving of East Sixth street.

Respectfully,
C. J. CARVEN,
Commissioner of Public Works.

REPAVING NORTH AND CHARDON STREETS.

The following was received:

City of Boston,
Office of the Mayor, September 6, 1934.
To the City Council.

Gentlemen,—I herewith transmit a letter from the Commissioner of Public Works, relative to your order of August 13, 1934, concerning the repaving of North street, Ward 3, and Chardon street, Ward 3.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Public Works Department,
September 4, 1934.
Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I beg leave to acknowledge receipt of City Council order passed August 13, reading:

"Ordered, That the Commissioner of Public Works, through his Honor the Mayor, be instructed to repave with smooth paving North street, Ward 3, and Chardon street, Ward 3."

North street, from Ferry street to Commercial street is now paved with large blocks on concrete base and artificial stone sidewalks. The roadway is in very poor condition. The granite blocks should be recut and concrete base built up to conform to the new grade, at an estimated cost of $20,000. This street should not have a smooth pavement.

Chardon street, from Merrimac street to Green street, is now paved with large granite blocks with some concrete base. The roadway is in poor condition. The blocks should be recut and relaid with concrete base at a cost of about $10,000. This street should not have a smooth pavement as the blocks are in good condition and could be recut.

No money is available in any budget item this year for the repaving of either North or Chardon streets.

Respectfully,
C. J. CARVEN,
Commissioner of Public Works.

TRANSFER OF FUNDS.

The following was received:

City of Boston,
Office of the Mayor, September 7, 1934.
To the City Council.

Gentlemen,—I submit herewith an order providing for a transfer of funds within the budget appropriations of the Municipal Court, South Boston. This transfer is necessary to cover a deficit in the library account of the Court occasioned by the purchase of additional law books for the use of the court.

I respectfully recommend adoption of the accompanying order by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to make the following transfer in the appropriations for Municipal Court, South Boston:

From the appropriation for A, Personal Service, $24, to the appropriation for C, Equipment, $24.

Referred to Executive Committee.

TRANSFER OF FUNDS.

The following was received:

City of Boston,
Office of the Mayor, September 7, 1934.
To the City Council.

Gentlemen,—I submit herewith an order providing for a transfer of funds within the budget appropriations of the Collecting Department. This transfer is made necessary by the retirement of an employee of that department who is eligible for a pension under the veterans' pension act. Since this retirement was not anticipated at the time of the preparation of the Collecting Department budget no provision was made for an appropriation to cover the pension payments which must be made during the balance of this year.

I respectfully recommend the adoption of the accompanying order by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to make the following transfer in the appropriations for Collecting Department:

From the appropriation for A, Personal Service, $333.33, to the appropriation for F, Special Items, 7, Pensions and Annuities, $333.33.

Referred to Executive Committee.

LEAVE OF ABSENCE ON JEWISH HOLIDAYS.

The following was received:

City of Boston,
Office of the Mayor, September 7, 1934.
To the City Council.

Gentlemen,—Upon receipt of the order adopted by your honorable body on August 27, 1934, requesting me to ask the authorities of the E. R. A. and P. W. A. to arrange for a leave of absence without loss of pay for all those of the Jewish faith who were employed on those projects during the Jewish High Holidays, I wrote Joseph P. Carney, Administrator of the Federal Emergency Relief Administration in Massachusetts, a letter, a copy of which is attached, in which I recommended that the request be honored and that Mr. Roswell G. Hall be authorized to promulgate an order to that effect.

I have received a letter from Mr. B. F. McElligott, in the absence of Mr. Carney, in reply to my communication, a copy of which I inclose herewith and which is self-explanatory. Apparently under Federal regulations leave cannot be granted without loss of pay but people of Jewish faith who do not work during the Jewish High Holidays may be allowed to make up the time by extra work on other days.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

August 29, 1934.
Joseph P. Carney, Esq., E. R. A. Director,
49 Federal Street, Boston, Mass.

Dear Mr. Carney,—On Monday last the City Council of Boston adopted an order that I request the authorities of the E. R. A. and P. W. A. to arrange for leave of absence without any loss of pay for all those of the Jewish faith who are employed on the E. R. A. or P. W. A. during the Jewish High Holidays, which I understand are three in number. If this can be done I would recommend it and request that Mr. Roswell G. Hall be authorized to promulgate an order to this effect.

Yours truly,
FREDERICK W. MANSFIELD, Mayor.

Federal Emergency Relief Administration of Massachusetts,
49 Federal Street, Boston,
Joseph P. Carney, Administrator,
Work Division,
September 4, 1934.
Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mr. Mayor,—In the absence of Mr. Carney I am taking the liberty of answering your letter of August 29, 1934, with reference to leave of absence without loss of pay for those of Jewish faith during their High Holidays.

Unfortunately there is no way in which employees of work projects can be granted leave of absence with pay. However, you will be interested to know that all local Emergency Relief Administrators have already been advised by a letter dated August 18, 1934, from Mr. Carney to plan to give people of Jewish faith the opportunity to work their twenty-four hours on days other than the ones on which the Jewish Holidays occur, so that they will not suffer any loss of pay.

We trust that this provides you with the information you desire.

Very truly yours,
EMERGENCY RELIEF ADMINISTRATION OF MASSACHUSETTS,
B. F. McELLIGOTT,
Executive Director.

COMMUNICATION OF THANKS.

The following was received:

80 Robey Street,
Dorchester, Mass.,
August 13, 1934.
Boston City Council, City Hall, Boston, Mass.

Honorable Members of the Boston City Council.

It is with a great deal of pleasure and satisfaction that the United Polish Societies of South Boston and the citizens of Polish extraction in general, learned of your adoption of Councilor John E. Kerrigan's order to name the circle on the Strandway in South Boston "Thaddeus Kosciuszko Circle."

At a meeting of the representatives of all societies, a motion was made and unanimously passed, authorizing the writer to send a letter of thanks and appreciation, and to assure you that persons of Polish extraction throughout the City of Boston are greatly pleased in having your honorable board name this circle after this Polish patriot.

Respectfully yours,
ALEX. DAMIECKI,
President of the United Polish Societies of South Boston.

CONFIRMATION OF APPOINTMENTS.

President DOWD called up, under unfinished business, No. 3 on the calendar, viz.:

3. Action on appointments submitted by the Mayor August 27, 1934, of Hazel Latham, Louis C. Tigar and Raymond O. Grant, to be weighers of coal; and Martin A. Callinan and Albert P. McCann, to be weighers of goods.

The question came on confirmation. Committee, Coun. Agnew and Tobin. Whole number of ballots 16; yeas 16, nays 0, and the appointments were confirmed.

SOLDIERS' RELIEF.

Coun. KERRIGAN, for the Committee on Soldiers' Relief, submitted report recommending passage of order for payment of aid to soldiers and sailors and their families in the City of Boston for the month of September, 1934.

Report accepted; said order passed.

REPORTS OF COMMITTEE ON CLAIMS.

Coun. BRACKMAN, for Committee on Claims, submitted the following:

1. Report on the petition of Thomas P. Killion (referred July 23), recommending the passage of the following:

Ordered, That the sum of thirty dollars be allowed and paid to Thomas P. Killion in reimbursement for the amount of an execution issued against him on account of his acts as operator of a snowplow belonging to the Sanitary Service of the Public Works Department, said sum to be charged to the Reserve Fund.

Report accepted, order passed.

2. Report on the petition of David F. Kirby (referred July 23), recommending the passage of the following:

Ordered, That the sum of two hundred and nine dollars be allowed and paid to David F. Kirby in reimbursement for amount of judgment issued against him on account of his acts as operator of a motor vehicle belonging to the City of Boston, Water Division, Public Works Department, said sum to be charged to the Reserve Fund.

Report accepted; order passed.

3. Report on the petition of David F. Kirby (referred July 23), recommending the passage of the following:

Ordered, That the sum of one hundred and twenty-four dollars be allowed and paid to David F. Kirby in reimbursement for amount of judgment issued against him on account of his acts as operator of a motor vehicle belonging to the City of Boston, Water Division, Public Works Department, said sum to be charged to the Reserve Fund.

Report accepted; order passed.

PAYMENT OF CITY HALL EMPLOYEES FOR FULL TIME OF VACATION IN ADVANCE.

Coun. DOHERTY offered the following:

Ordered, That the City Treasurer, through his Honor the Mayor, be requested to compensate all city employees at the time of their leaving for vacation, for the full amount of their due vacation.

Coun. DOHERTY—Just a word about this order. It has been called to my attention that the city employees, some of whom have gone on their vacation to the Cape or to New Hampshire, did not get their pay until they came back. I believe it can be arranged so that the City Treasurer can pay them when they leave and they can have the money to spend while they are gone.

Passed under suspension of the rule.

RECESS.

The Council voted at 2.55 p. m., on motion of Coun. DONOVAN, to take a recess, subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by President DOWD at 3.30 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. GALLAGHER, for the Executive Committee, submitted the following:

1. Report on message and order (referred today) approving grant agreement between United States and the City of Boston for the reconstruction and repair of Northern Avenue Bridge—recommending order ought to pass.

2. Report on message and order (referred today) for transferring funds within the budget appropriations of the Municipal Court, South Boston—recommending order ought to pass.

3. Report on message and order (referred today) for transferring funds within the budget appropriations of the Collecting Department—recommending order ought to pass.

The reports were accepted and the question came on the passage of the three orders.

Orders were severally passed, yeas 20, nays 0.

ADVISABILITY OF CANCELING ALL FURLOUGHS IN THE PUBLIC WORKS DEPARTMENT.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to immediately consider the advisability of canceling all furloughs in the Public Works Department at once.

Coun. NORTON—I am one of those who feel this matter of furloughs and extra day's pay at the present time is being handled for political reasons only with the proximity of the primary and election. I understand an order has been, or is supposed to be, introduced—in other words, the men have obtained the impression, although the Public Works Department has been unable to state whether or not it was so, that the furloughs would be canceled on October 1. Now, as I understand it, there are men in the Public Works Department who are not drawing salary for one or two or three weeks due to this furlough, and an order has gone forward, although denied in certain quarters, that furloughs be taken all at once; instead of one day, take two or three weeks now. I do not like this manner of dealing with this problem and I think the matter is being handled from a political standpoint and can only redound after primary and election against the city employees and the best interests of the city.

Coun. BRACKMAN—I am sorry I have to disagree with my colleague on this matter. After many weeks of furlough many of these city employees who are entitled to come back into their own are going to meet that piece of justice. I think it is inappropriate and unfortunate that we should attempt in any way to interfere with the Mayor's plans in restoring these people to their full-time work and I am opposed to the order.

President DOWD—Councilor Norton moves suspension of the rule and passage of the order.

After a voice vote being taken President DOWD said that he was in doubt as to the vote and asked for a showing of hands.

Coun. NORTON—If I may repeat the order. This order merely requests the Mayor to consider the advisability of immediately canceling the furloughs in the Public Works Department. My contention is this is a very important matter that is being handled at a difficult time.

Coun. MURRAY—Last July I introduced an order to the effect that all the days' pay taken from the laborers be given back and stop the furloughs, and the Mayor agreed at that time to take care of it on October 1. After further consideration he said he would do it on September 15. Last July there was no thought of politics, but the thought was to try and bring them back so everybody would be in the same happy family spirit once more and get their full-time pay.

President DOWD—Those in favor will signify their intention by raising their hand.

(Ten hands raised in favor.)

President DOWD—Will those opposed to the order signify their intention by raising their hands?

(Five hands raised in opposition to the order.)

President DOWD—Ten in favor and five opposed and the order is passed.

USE OF BOSTON COMMON AND PARKMAN BANDSTAND BY MASSACHUSETTS REAL ESTATE OWNERS ASSOCIATION.

Coun. WILSON offered the following:

Ordered, That his Honor the Mayor be, and he hereby is, requested, to at once grant requested permit for use of the Boston Common and the Parkman Bandstand by members of the Massachusetts Real Estate Owners Association, on the afternoon of September 16, 1934.

Coun. WILSON—Speaking about that order, Mr. President, as to which I would ask passage at this time without reference to the committee, it was called to my attention that the Massachusetts Real Estate Owners Association had made one of the frequent and usual requests that are made by various organizations in the City of Boston, and many without more merit, to use the Boston Common and the Parkman Bandstand for a mass meeting on the afternoon of September 16, and I understood that there was more or less backing and filling for no particular reason in the Mayor's office; one of the alleged reasons for refusal being there was a musical concert being held at the Parkman Bandstand on the afternoon of September 16. That real or alleged objection was easily overcome by the organization volunteering to postpone their meeting until after the music had ceased on the Common. Their request was for the use of the Parkman Bandstand and the Boston Common. Personally, without committing myself or any member of the Council or agreeing 100 per cent with all of the projects that they may or may not advance, the fact remains that I cannot conceive of a more appropriate organization to take advantage of the constitutionally guaranteed right of public assembly and free speech on Boston Common at the Parkman Bandstand than an organization composed of ten or twelve thousand taxpayers of Boston, who pay the salary of the Mayor and the salaries of the Council, pay for the improvements that the city has had and help support the Boston Common. I understand a statement has gone from the Mayor's office something to the effect that there was a rule of the Park Department back in the happy days of 1911 to the effect that public speaking should not be permitted in that part of the Common near the bandstand, but if there is such a ruling it has been honored more in the breach than in the observance of it, and how unfortunate it is that any such rule should suddenly, out of a clear sky, without any well explained reason, be adapted to the taxpayers of the City of Boston. Now as I said before, I urge the passage of this order on the members of the Council. The order requests the Mayor to grant that permit. That organization, I am assured, is 100 per cent taxpayers and is composed of twelve thousand taxpayers of the City of Boston. They want the right granted all organizations practically without exception, the right granted on the first of May on more than one occasion to communists in the City of Boston to hold meetings under police supervision. They, as taxpayers, ask the right to assemble on a Sunday afternoon at the Parkman Bandstand and this order urges the Mayor to grant that right.

Coun. McGRATH—I expect that there is a deeper significance to the denying of the Parkman Bandstand to any organized group in the City of Boston. I feel that if Mr. Parkman were alive he would be the first one to say that Boston Common with all its historical background was the one place where free speech should not be denied. I understand on Labor Day his Honor the Mayor spoke from that bandstand and advocated a further cut in wages of city employees and I understand that there is such a popular demand for him to come there and reiterate that statement that he is selecting September 16 to again appear on the Common and make another speech against restoring salaries and also for a further pay cut. In this city today there is no question but what the popularity of his Honor the Mayor has brought about a situation that there is a public demand for him to appear in places like the Parkman Bandstand and address his constituency and I am certain that in his own mind he feels that there is no organization in the city, even the organization representing the sacred homes of our city, which can have a message of such significance as to offset a message that he would have and knowing that this great leader of the masses, this man who had a slogan in the campaign that "You need a big man for a big place," this man who is representing all branches of the people in our community, is going back there on September 16, even though his Excellency the Governor sent for him within two days and gave him this message: "Mr. Mayor: I am deeply concerned in the candidacy of Charles Cole. I do not want you to speak in favor of him. I want no indorsement from you. On Labor Day you ruined another clean young man in this city and I will consider it a favor in so far as our candidate is concerned if you will keep absolutely quiet." But listening to no dictators, being a man without any man's collar around his neck, he is going back there to deliver the message again of further pay cuts to the already overburdened twenty thousand men and women who have worked for the city and county for many years.

Coun. SHATTUCK—This order, if I understand it, is in the form of a request that a license or permit be granted. Now I do not believe this body ought to make a request without hearing both sides and without fully informing itself on the question. I do not believe in *ex-parte* action and action without a hearing in passing requests of this kind.

I don't know what action I should favor if I had all the facts. Without the facts I am opposed to the order at the present time.

Order passed under suspension of the rule.

COUNCIL'S ORDER CONCERNING WELFARE DEPARTMENT.

Coun. WILSON offered the following:

Ordered, That the Overseers of Public Welfare be requested, through his Honor the Mayor, to advise the City Council in detail at once with reference to City Council's orders passed concerning the Welfare Department:

(1) On May 7, with reference to work card stamps;

(2) On May 21, concerning number and names of visitors in Wards 9 and 13 and the date of personal check-up of cases; and

(3) On May 28, with reference to completing date and result of complete registration of all Boston Welfare cases, originally requested in Council order of April 16.

Coun. WILSON—I do not want to worry the Council along the welfare lines, except to remind this body, which perhaps does not require reminding, of the Council order introduced by Councilor Fitzgerald on March 19 for a special committee of the Council to investigate the Public Welfare Department; and the order of Councilor Agnew requesting the reconsideration of all cases as one of the most important methods of purging the Welfare lists of those manifestly improper cases which we all know are on the list and have no right there. I have also in mind the feeling letter from the Mayor under date of April 23 when he wrote to the City Council: "May I venture to inquire what progress has been made by this committee. I am intensely interested in the Public Welfare Department and would like to have whatever information may have been obtained by the committee. If I may have this information at the earliest convenient time I will be greatly obliged to you"; and so taking that letter on its face value the members of the Council realized that from then on they would have the 100 per cent cooperation of the Mayor of Boston in cutting down this item of the department which costs $7.50 out of $37.10 tax rate, we passed those orders at the request of the members of the committee asking for what we felt was important information. I do not blame the new man who went in there following the dismissal of the man at the head of the department. I blame the lack of cooperation in the Mayor's office despite the letter of April 23, and I do not want to make a statement like that unfairly, and I do not want to make it unbacked up by facts and so I will point out two instances illustrating the manner in which the orders have been handled in the Mayor's office, and I refer to the minutes of the meeting of July 2, 1934, at which time there came into the Council from the Mayor's office under date of June 18,—and I am going into this in detail because I want it on the record,—under June 18 communications that had passed between the Mayor's office and the Welfare Department, and on page 248 of the minutes of this year for July 2, 1934, it appeared on the record that the City Council order of May 21, asking for certain information was not even forwarded to Mr. Dowling at the Welfare Department until the 13th of June. I also point out the minutes of July 23 which showed the first order of record, that City Council order of May 21 asking for important information incident to this investigation of the Welfare Department was not so much as forwarded to the Welfare Department until the 13th of July; meaning that we waited almost two months from the introduction of the order to receive the reply from the Welfare Department; and so I have offered these orders again insisting on this information. I think it is important to the Council and I think it is important to the investigating committee. This thing so far as the members of the Council are concerned, including myself, has not died a natural death by any means. There came to my attention during the past week some cards,—and we are all acquainted with the stamp whereby the work cards are stamped in the various yards, and we are well aware although we do not get the information officially, of the fact that the work cards are stamped supposedly with a different stamp for each division of each yard, and yet I am shown fourteen different cards for the same division of the same yard of the Public Works Department, for the same day, with eleven different numbered and colored stamps; and we are all aware of the system whereby in case of illness or some peculiar circumstance a man does not need to get a stamp on his card but can get somebody in authority at the Welfare Department to O. K. it and that an opportunity is afforded for an immense amount of graft and corruption to creep in. I was shown twenty-three cards all for the same day this year, all before Mr. Dowling was appointed, all bearing various indorsements for payment but without a single stamp and on those twenty-three cards there appeared nineteen different names. One, for example, a case where an East Boston visitor O. K'd work done on the golf course in West Roxbury; another case where a South Boston visitor O. K'd for a man doing work in the Charlestown yard. Therefore, I say it is important that we get this information and I ask the passage of these orders and I hope the Mayor will not merely recall this letter to us, this letter of April 23, but that he will cooperate with the Council and committee to clean out the situation that exists in the Welfare Department.

Order passed under suspension of the rule.

DANGER SIGNALS AT DORCHESTER AVENUE BRIDGE.

Coun. KERRIGAN offered the following:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to install danger signals at each end of the center span on the Dorchester Avenue Bridge, between Power and Kemp streets, Ward 7.

Passed under suspension of the rule.

REMOVAL OF PRECINCT OFFICERS.

Coun. GREEN offered the following:

Resolved, That the Boston City Council of Boston assembled go on record against the proposed wholesale removal of precinct officers in the different wards of Boston by the present chairman of the Board of Election Commissioners

Coun. GREEN—I understand that the chairman of the Election Commissioners intends to call in certain precinct officers from different sections of the city and these men and women are to be subjected to the delinquency test, but I understand he is only taking them from certain precincts in Boston and I would like to have this order passed under suspension of the rule.

Adopted under suspension of the rule.

REPAIRS ON G. A. R. BUILDING AT 46 JOY STREET.

Coun. GLEASON offered the following:

Ordered, That the Superintendent of Public Buildings be requested, through his Honor the Mayor, to complete the repairs which were started some time ago in the building at 46 Joy street, Boston, which is occupied by Robert A. Bell Post, No. 134, G. A. R.

Passed under suspension of the rule.

INSTALLATION OF ARC LIGHT AT WESTOVER AND WELD STREETS.

Coun. FINLEY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install an arc light at the corner of Westover and Weld streets, Ward 20.

Passed under suspension of the rule.

ACCEPTANCE OF DWINELL STREET AS PUBLIC HIGHWAY.

Coun. FINLEY offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Dwinell street, Ward 20, as a public highway.

Passed under suspension of the rule.

ACCEPTANCE OF BOGANDALE ROAD AS PUBLIC HIGHWAY.

Coun. FINLEY offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Bogandale road, Ward 20, as a public highway.

Passed under suspension of the rule.

NEXT MEETING.

On motion of Coun. AGNEW it was voted that when the Council adjourns it be to meet again on Monday, September 24, 1934.

Adjourned, on motion of Coun. DONOVAN, at 4 p. m. to meet on Monday, September 24, 1934, at 2 p. m.

ANNEXATIONS OF BOSTON.

East Boston in 1637; South Boston in 1804, being set off from Dorchester; Roxbury in 1868, a city of Norfolk County since March, 1846; Dorchester in 1870, a town since September, 1630; Charlestown in 1874, a city of Middlesex County since February, 1847; Brighton in 1874, set off from Cambridge and incorporated as a town of Middlesex County in February, 1807; West Roxbury in 1874, set off from Roxbury and incorporated as a town of Norfolk County in May, 1851; Hyde Park in 1912, a town of Norfolk County since April, 1868.

These annexations, which added 24,312 acres of land to the original land of Boston, were by area as follows: East Boston, 1,435 acres; South Boston, 795; Roxbury, 2,450; Dorchester, 5,600; West Roxbury, 8,075; Brighton, 2,664; Charlestown, 424; Hyde Park, 2,869. Filled land increased the area later by 1,396 acres. In 1875 the annexed territory had a population of 201,250, or 58.86 per cent of city's total; in 1910 its population had increased to 477,311, or 71.18 per cent, Hyde Park not included. By 1915 the total was 549,139, or 73.67 per cent of city. By 1925 the total was 607,519, or 77.92 per cent.

JAMAICA SPENDS $1,000,000 ANNUALLY ON ROAD CONSTRUCTION AND MAINTENANCE.

Jamaica, an English possession, has a highway system which is almost entirely constructed of waterbound macadam, some 70 miles of which has been surface-treated. Many of the roads are under the supervision of the Department of Public Works and various parochial boards. There are about 2,500 miles of bridle and foot paths. The highway system connects all parts of the island in a very satisfactory manner, and the problem is not that of the construction of new roads, but the improvement of old ones, the surfacing and widening of these roads, and protective coatings. The roads are well maintained and, as there are not many heavy trucks, the maintenance is satisfactory. There are approximately 4,000 miles of highways, or 1.11 square miles of area to one mile of highway.

About a million dollars per year is spent on new construction and maintenance, the machinery used being both European and American.

FINANCING SEWAGE WORKS BY SPECIAL ASSESSMENT IN IOWA.

The cost of constructing sewage disposal plants in a number of states, and in Iowa in particular, may be levied against the various lots, parts of lots or parcels of ground draining to, or susceptible to drainage to, the site of the disposal plant. Such assessments must be in proportion to the benefits to each property and must not, in any case, exceed one-fourth of the fair value of the property in question. These special assessments are payable in the same manner as other municipal improvement costs; that is, in ten annual equal installments, paid at the same time and place as the March 1 installment of ordinary taxes in Iowa. Any property owner may pay off the unpaid portion of such tax at any time. Interest on the deferred payments must not exceed 6 per cent.

PROPOSALS FOR SHEET ASPHALT OR BITULITHIC PAVEMENT IN OLD COLONY AVENUE, SECTION B, WARD 7, FROM DORCHESTER STREET TO MT. VERNON STREET.

The Commissioner of Public Works of the City of Boston, hereinafter designated as the Commissioner, Room 508, fifth floor, City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt or bitulithic pavement in Old Colony avenue, Section B, Ward 7, from Dorchester street to Mt. Vernon street. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt or Bitulithic Pavement in Old Colony Avenue, Section B," and left in Room 508, fifth floor, City Hall Annex, before 12 m., eastern standard time, on Monday, October 1, 1934, accompanied by a properly certified check on, or a certificate of deposit issued by, a responsible bank or trust company in the sum of four thousand five hundred dollars ($4,500), payable to the City of Boston. Checks will be returned after execution of the contract on demand. The proposals will be then and there publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. Bids must be made upon the prescribed proposal form. Special attention of the bidder is called to all provisions of the Federal Emergency Administration of Public Works which form a part of the contract, including the prescribed minimum rate of $1.20 per hour for skilled labor, and $0.50 per hour for unskilled labor and to the special provision as to semi-skilled labor. Pursuant to executive order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate (worded in accordance with P. W. A. 61, revised March 19, 1934) duly executed by the bidder. Plans, specifications and contract forms may be obtained at Room 508, City Hall Annex, upon deposit of the sum of five dollars ($5). A surety bond by an approved surety company will be required from the successful bidder in an amount not less than the full amount of the contract. The right is reserved to reject any and all proposals or to accept any proposal deemed best for the interests of the City of Boston, and no award can be made without the approval of the State Engineer, P. W. A. The name and address of the local registration office of the National Re-employment Service, from which employee lists for this contract Employment Office, Everett L. Hanna, shall be obtained, is as follows: State Public Manager, 100 Nashua Street, Boston.

RECREATION, ADEQUATE AS TO KIND AND AVAILABILITY.

Although the ratio of park acreage to population has been used as the simplest measure of the extent to which cities provide areas for the recreation of their people, it is by no means an accurate basis for determining this. If most of the total acreage is in one large park, if the parks are poorly distributed, or if they do not provide various types of recreation facilities, the park system may be inefficient even though the acreage is large. The efficiently *planned* park and recreation system will involve balanced relationship and well-distributed location of several types of properties, namely, children's playgrounds, neighborhood playfield parks, neighborhood parks, reservations, boulevards, and parkways.

BOSTON AS A TOWN.

From its foundation until 1755, or a period of 125 years, Boston was not only the most outstanding but the most populous town in the American colonies. In 1760, Philadelphia's population was ahead, viz., 18,756, Boston's then being 15,631 and New York's about 14,000. In the last year of town government, viz., 1821, Boston's population was about 45,000 and its public debt $100,000, all incurred for new county buildings.

The history of Boston as a town during a period of nearly two centuries surpasses in civic interest that of Boston as a city because of the untiring zeal and successful efforts of its townsmen to realize more of true democracy than had ever been attained before. Their obligations were held as sacred as their liberties.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, SEPTEMBER 29, 1934. NO. 39

MAYOR MANSFIELD PLANS FOR NEW SCHOOL BUILDINGS TO MEET GROWING DEMANDS OF CITY — BIDS BEING SOUGHT FOR ERECTION OF THREE STRUCTURES CALLING FOR EXPENDITURE OF MORE THAN $1,200,000, ONE A P. W. A. PROJECT TO COST APPROXIMATELY $800,000 — LARGEST OF STRUCTURES FOR SOUTH BOSTON TO HOUSE 1,600 GIRLS, WITH 36 CLASSROOMS — OTHER BUILDINGS TO HOUSE 325 AND 300 PUPILS, RESPECTIVELY.

Mayor Mansfield is continuing his efforts to meet the problem of housing Boston's school children as they grow in number each year by the erection of new schools. During the year three additions to school buildings were made ready for the opening of school a couple of weeks ago and now, after consultation with the Department of School Buildings and its Superintendent of Construction, William W. Drummey, plans have been drawn for three other buildings at an estimated cost of more than $1,200,000, and bids are being sought for their construction.

The three schools ready at the opening of the session of 1934–35, at a cost of $665,000, are the William Barton Rogers Intermediate School in Hyde Park, the Joseph H. Barnes Intermediate School in East Boston and the Randall G. Morris School, West Roxbury.

The addition to the Rogers School, costing $274,000, affords sixteen more classrooms, food preparation, science, sewing and art rooms, two cooking rooms and a lunchroom seating 600.

The Joseph H. Barnes School addition, costing $349,000, provides seventeen additional classrooms, sheet metal shop, cooking room, woodworking room, electrical shop, health room, two art rooms and a lunchroom accommodating 800.

Four new classrooms for the Randall G. Morris School bring the total number of rooms to sixteen. In five years the number of classrooms has doubled. The cost of the addition was $42,000.

Since these were opened and turned over to the School Committee Mayor Mansfield has authorized the erection of and the Department of School Buildings have begun calling for proposals for the erection of three additional school projects. The largest one is located on Dorchester street, South Boston, and is a P. W. A. project which is estimated to cost approximately $800,000. This will occupy the site on which the present Shurtleff and Clinch Schools were situated. These buildings will be razed in order to build the new school. This building will accommodate 1,600 girls of the intermediate grades and will have thirty-six classrooms, four sewing and millinery rooms, four cooking rooms, two domestic science suites and an assembly hall, which will accommodate approximately 750 persons. The gymnasium is immediately below the assembly hall. On account of the fact that there are no accommodations for the scholars now in the Shurtleff School the building is to be constructed in two portions under one contract. When the first portion is completed the scholars will be transferred to the new building and the remainder of the building will be constructed. The building is designed to be built of red water-struck brick exterior and limestone trimming above the grade. The entrance doorways and the base around the building will be of granite.

In East Boston an addition to the East Boston High School will be started shortly. This consists of an addition of nine rooms to the present building and a drill space in the basement. Of the nine rooms there will be biology and sewing rooms and the remainder will be regular classrooms. It will accommodate approximately three hundred twenty-five pupils and will be built to match the present building. It is anticipated that it will be completed by April, 1935.

In West Roxbury, the Baker Street Elementary School is about to be built, for which proposals will be received within ten days. This building will be constructed of red water-struck brick with granite and limestone trimmings. It contains six classrooms and one large double kindergarten. The play space in the basement has been designed to permit of the use of this area as a community center and will accommodate approximately two hundred fifty persons. This building is located so far from other public halls or buildings that the people of the district will undoubtedly use this for community purposes to a great extent. The building should be completed on or about April 1, 1935, and will accommodate approximately three hundred pupils.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the shipteeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKELL DOLE.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with several concerns and firms for work and supplies. Communications from the heads of the departments concerned were as follows:

PUBLIC WORKS DEPARTMENT.

BOSTON, September 15, 1934.

To the Honorable Mayor.

The Eagle Sign Company, 575 Albany street, Boston, as per a request from this office, has submitted plans and prices for installing large Neon signs at either entrance of the Sumner Tunnel, said signs for the benefit of the motoring public.

The first proposal is for the erection of a sign at either entrance on the booth roofs as per sketch No. 5051. A photograph showing the proposed appearance is attached to the sketch. The price quoted for this type of sign at either entrance is $725, or a total expense of $1,450. The objection to this type of sign will be that it is not as prominent as desired, as it is not visible to traffic arriving from the Haymarket square section. Also on the East Boston side the booth locations are a distance back from Porter street and a sign on the booth roof at this extreme will not be visible until one actually arrives at the entrance.

The second proposal submitted is for a V-shaped sign, sketch No. 5050, for the Boston entrance placed on the booth roof and this type of sign will be visible to traffic entering from either North street or Haymarket square, for some distance away. The cost quoted is $890, and photograph showing a view is attached to the sketch. For the East Boston entrance, on account of the entrance booths setting some distance away from the street line, it is the purpose to install a double-faced sign on an existing light standard as per drawing No. 5029. This sign will be visible to traffic entering Porter street either way. The price quoted is $550.

The Eagle Sign Company is a company of high reputation, their work is first class and they will guarantee any sign erected for two years. I respectfully request your permission to enter into a contract for furnishing and installing the signs as per sketches No. 5030 and No. 5029, including the connecting of the signs to the alternating current electric wires brought to the sign by the City of Boston, for the sum of $1,440 without inviting bids by advertisement.

Respectfully,

C. J. CARVEN,
Commissioner of Public Works.

—

BOSTON, September 28, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—In a letter dated August 27, 1934, the Commissioner of Public Works set forth in detail the facts concerning the lighting of city streets and suggested that the city enter into a contract for six months from October 1, 1934, with the Boston Consolidated Gas

Company for furnishing gas and the equipment for lighting and extinguishing gas lamps.

In order that there may be no interruption in the service of lighting the city streets and in order to afford this department an opportunity of considering the advisability of replacing part of the existing 9,563 gas lamps by electrically lighted lamps, and of preparing the terms and specifications for a new gas contract, I hereby respectfully request your authority to award the following contracts without inviting proposals therefor by advertisement:

1. Contract for furnishing illuminating gas for street lighting to the Boston Consolidated Gas Company for a term of one month from October 1, 1934, at the present rate of $8.42 per lamp per year for a single burner, 60-candle power lamps.

2. Contract for equipment and the lighting and extinguishing of gas lamps for the City of Boston, excluding Hyde Park, to the Boston Consolidated Gas Company for a term of one month from October 1, 1934, at the present rate of $14.70 per lamp per year.

Respectfully,

JOSHUA ATWOOD,
Acting Commissioner of Public Works.

SUPPLY DEPARTMENT.

BOSTON, September 20, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising the same, to M. H. Loonie, for the purchase of one second-hand Buffalo steam roller, for delivery to the Penal Institutions Department, at Deer Island, at a price of $1,500.

This roller is at the present time at Deer Island and examinations and inspections have been made by men familiar with this type of equipment, both through the Supply Department and the Penal Institutions Department. The consensus of opinion of the examiners is that the machine is worth the amount quoted, namely, $1,500.

In view of this information, I would request that the permission to award, asked for above, be granted.

Respectfully yours,

WARREN W. LOOMIS,
Superintendent of Supplies.

—

BOSTON, September 24, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—Permission is respectfully requested to award a contract, without publicly advertising same, to the Gamewoll Company to deliver to the Fire Alarm Shop, Fire Department, the following:

Thirty 3-fold type fire alarm boxes complete, with quick-action doors, break wheels to be blank, at a price of $135 each, less 10 per cent, $3,645; ten old type fire alarm boxes complete to be returned for credit at $10 each, $100. Net total, $3,545.

The Gamewell type of fire alarm equipment has been used by the Fire Alarm Branch for many years, and has been adopted by them as a standard.

As the Gamewell Company are the manufacturers, no advantage would be gained by publicly advertising.

Respectfully yours,

WARREN W. LOOMIS,
Superintendent of Supplies.

TRANSFER OF APPROPRIATION.

PUBLIC WORKS DEPARTMENT.

BOSTON, September 14, 1934.

CHARLES J. FOX,
City Auditor.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfer within the appropriations of the Public Works Department:

From the appropriation for Sewer Service, H, Emergency Relief Projects, $5,500, to the appropriation for Paving Service, H, Emergency Relief Projects, $5,500.

See letter following for explanation.

Respectfully,

C. J. CARVEN,
Commissioner.

—

PUBLIC WORKS DEPARTMENT,

BOSTON, September 14, 1934.

To His Honor the Mayor.

$6,000 was made available in the Sewer Division budget this year under Item H, Emergency Relief Projects. A small amount of this money has been expended, and the total expenditures will not exceed $500, as the activities of the Sewer Division on emergency relief projects are practically completed.

The balance of this appropriation could be used to advantage in the Paving Service of the Highway Division, which is still engaged on projects, and I respectfully recommend that this balance under Item H be transferred from the Sewer Service to the Paving Service.

Yours respectfully,

C. J. CARVEN,
Commissioner of Public Works.

The above transfer was approved by the Mayor on September 26, 1934.

FIRE DEPARTMENT ORDERS.

General Order No. 66.

I. CHANGE OF TIME.

Under the daylight saving law, time will be retarded one hour at 2 a. m., Sunday, September 30, 1934. At that time clocks in department houses will be set back one hour.

All tower clocks without striking mechanisms will be set back at 6.30 a. m. All tower clocks with striking mechanisms will be stopped at 6.30 a. m. for one hour and then started.

Only the men who are regularly assigned to winding clocks should be detailed to change tower clocks.

II. RETIREMENT.

The following retirement is hereby announced, to take effect at 8 a. m., Monday, October 1, 1934:

Apparatus Operator Aloysius A. Hart, Engine Company 20.

Apparatus Operator Hart was appointed to the Fire Department on June 10, 1903, and was promoted to Apparatus Operator on April 13, 1917.

He leaves the department with the best wishes of his associates.

III. SALVATION ARMY.

With this General Order there is being issued to each house of the department a subscription blank of the Salvation Army. Company commanders are requested to call the attention of the members of the company to these blanks and accept such donation as the members wish to give.

The attention of the members of the department is called to the services rendered by the Salvation Army in connection with multiple alarm fires in the City of Boston. During the past twelve months the Salvation Army responded to forty-eight multiple alarm fires and rendered excellent service to the members of the department.

The blanks are to be returned to headquarters, with the contributions of the members, on Friday, October 19, 1934.

IV. BOSTON AUTOMATIC FIRE ALARM.

Notice has been received from the Boston Automatic Fire Alarm Company that Signal No. 93 at 6 Dore street and Signal No. 94 at 8 Dore street have been discontinued.

V. COMMENDATIONS.

The Fire Commissioner is in receipt of a communication from Miss Susan J. Ginn, Director of Vocational Guidance, in which she commends Aid to the Commissioner Frank B. Cook, for first-aid service rendered by him to a lady who fell on Beacon street on Friday, September 21, 1934. Miss Ginn is very high in her praise of the services rendered by Mr. Cook and the commissioner is glad to add his personal commendation for the splendid service rendered by him on this occasion.

Capt. Edward F. Cunniff of Engine Company 38 is hereby commended for the services rendered by him on September 16, 1934. Captain Cunniff was walking over the Summer Street Bridge at about 6.10 p. m., on September 16 when he discovered a brisk rubbish fire burning in a New Haven freight car on track 17, off Congress street. The car on fire was connected to a train of freight cars, including tank cars loaded with gasolene. Captain Cunniff ordered the train crew to detach the cars and haul the gasolene tank cars clear of the fire. This work was all performed prior to the arrival of the apparatus. Captain Cunniff was off duty at the time.

Hoseman Edward J. Murphy of Engine Company 15 is hereby commended for volunteering and donating blood in transfusion at the Boston City Hospital September 12, 1934.

Hoseman Michael J. Flaherty of Engine Company 25 is hereby commended for responding to and extinguishing a fire at 7 Long Wharf September 12, 1934, while off duty. Hoseman Flaherty extinguished a fire in an awning and clapboards of the building before the arrival of the fire apparatus.

Hoseman Francis P. Willcutt of Engine Company 48 is hereby commended for responding to and working at a fire in the transformer of an electric light pole opposite 11 Business street, on September 17, 1934, while off duty.

Ladderman William O. Cheswell of Ladder Company 1 is hereby commended for volunteering and donating blood in transfusion at the Massachusetts General Hospital on September 24, 1934. Several members of the department from District 4 volunteered to perform this service and their blood was tested at the hospital. Ladderman Cheswell was selected because his blood was of the right type. The voluntary offer of the members of this department for this service reflects great credit on the men.

The Fire Commissioner is pleased to publish the following letter from Mr. L. C. Prior, manager of the Brunwsick Hotel, concerning the services rendered by the members of this department at a fire in that building on Sunday, September 9, 1934:

September 18, 1934.

MR. EDWARD F. MCLAUGHLIN,
Fire Commissioner.

MY DEAR COMMISSIONER,— Though I was personally absent on the night of the recent fire in the Egyptian Room of the Hotel Brunswick, I heard so many favorable comments on the way the fire was handled by the department that I would like to take this opportunity of thanking every one concerned, through you, for the efficient work that was performed.

To me it seemed almost miraculous that a fire should have gotten such headway and be practically confined to the room in which it originated. It is gratifying, of course, to feel that the old Brunswick can continue and that our many permanent guests, who have lived there for years and years, are not obliged to seek other quarters.

As I said before, I have heard nothing but words of praise from our guests as well as employees, for the good work performed by the firemen. I therefore trust that you may have some medium by which the appreciation of not only the management but the guests of the hotel may be expressed.

Yours sincerely,

HOTEL BRUNSWICK,
L. C. PRIOR,
Managing Director.

By order of Fire Commissioner EDWARD F. MCLAUGHLIN.

HENRY A. FOX,
Chief of Department.

CLAIMS ALLOWED.

Upon recommendation of the Corporation Counsel, the Mayor has approved the following claims:

Nicholas DeSimone, 421 Hanover street, Boston, in the sum of $1.35, as refund on nine unused refuse tickets.

Hyman Rosenzwicz, 34 Hollander street, Roxbury, in the sum of 55 cents, as refund on five unused refuse tickets purchased on May 15, 1933, and returned on March 20, 1934.

R. George Mongrain, assignee of R. Dunkel, Incorporated, 11 Beacon street, Boston, in the sum of $4.95, as refund on thirty-three unused refuse tickets.

Grace H. Austin, 3 Remington street, Dorchester, in the sum of $6, as compensation for damage to automobile caused by depression in highway on Huntington avenue, at the junction of Longwood avenue, January 8, 1934.

George H. Bruce, 8 Maitland street, Boston, in the sum of $25, as compensation for damage to automobile caused by hole in highway on Lowell street, between Minot and Willard streets, April 5, 1934.

Grace McCarthy, 53 Gardner street, Allston, in the sum of $43, as compensation for personal injuries and damage to property caused by defect in highway on Chester street, about eight feet from Brighton avenue, June 3, 1934.

Frank Teton, 60 Ormond street, Mattapan, in the sum of $7.50, as compensation for damage to automobile truck caused by defect in highway on Talbot avenue, at or near No. 245, on March 28, 1934.

POLICE DEPARTMENT ORDERS.

General Order No. 549.

The following is published for the information and guidance of all members of the department in connection with the State Primary to be held on Thursday, September 20, 1934. The commanding officer of all divisions and units will hand a copy of this General Order to every officer who is detailed to a voting booth.

September 19, 1934.

EUGENE C. HULTMAN, ESQ.,
Police Commissioner.

DEAR COMMISSIONER,—Your communication of the 18th instant received, *in re* definition of guard rails used at elections and primaries in the City of Boston.

We refer you to section 25 of chapter 54 of the General Laws, which has to do with marking shelves and guard rails.

"Except where voting machines are used as provided in section thirty-four, the aldermen or selectmen shall cause each polling place in their respective cities and towns to be provided with a sufficient number of suitable marking shelves or compartments where voters may conveniently and secretly mark their ballots; and they shall cause a guard rail to be so placed that only persons inside thereof can approach within six feet of the ballot boxes or of the marking shelves or compartments. The ballot boxes and the marking shelves or compartments shall be in open view of persons in the polling place outside the guard rail. The number of marking shelves or compartments shall be not less than one for every seventy-five voters at such polling place, and not less than five in any voting precinct of a city, and not less than three in any town or voting precinct thereof. Each marking shelf or compartment shall at all times be provided with proper supplies and conveniences for marking the ballots."

May I refer you also to sections 69 and 70 of chapter 54 of the General Laws.

"SECTION 69. No persons except the election officers, supervisors, the city or town clerks, and voters admitted for the purpose of voting, shall, during the progress of an election and until the public declaration of the vote be permitted within the guard rail unless authorized by the election officers for the purpose of keeping order and enforcing the law.

"SECTION 70. No more than four voters, besides election officers and supervisors, and the city or town clerk, in excess of the number of marking compartments provided, shall be allowed at one time within the guard rail, and except the election officers and supervisors, no voters shall be admitted therein after the time fixed for closing the polls; but voters previously admitted shall be allowed five minutes after the time so fixed to deposit their ballots."

Thanking you for your courtesy and trusting that this will satisfy your request for such information, I am,

Very respectfully,

DAVID B. SHAW, *Chairman,*
Board of Election Commissioners.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

are commended for efficient police duty performed on September 8, 1934. While off duty and on their way home on the ferryboat "General Sumner," these officers disarmed and arrested a person who had committed a serious assault and battery with a razor, with intent to murder.

The commissioner is pleased to recognize the initiative and the effective police duty performed by these officers in accomplishing the arrest of this dangerous character.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 551.

The commissioner is pleased to publish the following letter for the information of the department:

THE COMMONWEALTH OF MASSACHUSETTS,
DEPARTMENT OF CORRECTION,
STATE PRISON, CHARLESTOWN,
JAMES L. HOGSETT, *Warden.*

September 18, 1934.

MR. EUGENE C. HULTMAN,
Police Commissioner.

DEAR MR. HULTMAN,—Once again I am happy to tell you how much I appreciate your splendid work and cooperation in our time of need. I cannot be too grateful to you, to Deputy Livingston, and to your men, for the splendid work that was done.

You certainly have a wonderful organization, which is great credit to you; and it gives me a great feeling of security to know that such an organization exists in the City of Boston.

Please accept my hearty and sincere thanks for the assistance you rendered when we were in need.

Very sincerely,

J. L. HOGSETT, *Warden.*

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 552.

Commanding officers will make requisition on the Property Clerk for a supply of printed form No. 217 (sample copy attached), on which to report trouble calls in connection with electrical and mechanical defects of circuits.

A check mark will be made in the proper column in reporting any signal trouble. When an entire circuit is out of order a check mark will be made, in addition to the number of the circuit, in the column headed "Circuit No."

These reports shall be made in triplicate, the original and first carbon copy to be forwarded to the superintendent, and the second carbon copy to be retained for the files of the division.

Form No. 144, entitled "Report to Signal Director," which has been used for reporting signal defects is hereby discontinued, and commanding officers will forward all such forms on hand to the Property Clerk for disposition.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 553.

A trial board consisting of Captains Campbell, Casey and Daley, having heard by reference a complaint made by John J. Mullen, captain, Division 1, against Albert F. Connolly, patrolman, Division 1, for alleged violation of Rules 27 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge: Neglect of duty.

Specification 1: In that on the tenth day of September, 1934, the said Patrolman Albert F. Connolly did fail to telephone his "on duty" calls from 11.38 p. m. until the expiration of his tour of duty at 12.45 a. m., a period of one hour and seven minutes, when the rules of the department require that he telephone such calls once every forty minutes.

Specification 2: In that on the tenth day of September, 1934, the said Patrolman Albert F. Connolly did fail to report to his station at the expiration of his tour of duty at 12.45 a. m., and did not so report until 1.30 a. m., September 11, 1934.

Specification 3: In that on the tenth day of September, 1934, the said Patrolman Albert F. Connolly did fail to properly patrol his route during his tour of duty from 5.45 p. m. to 12.45 a. m.,—

(The motion was made by Captain John J. Mullen of Division 1 to amend said complaint by striking out the word "tenth" and inserting the word "eleventh" in each of the specifications, which would read " . . . on the eleventh

day of September, 1934." Said amendment was allowed by the Trial Board.)

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence accepts the plea of guilty made by the said Patrolman Albert F. Connolly. In view of the fact that this officer has never previously been complained of before a trial board for violation of the rules; the fact that he has promised the Board to take more interest in his work and that he will make every effort to become a more valuable police officer, the Board respectfully recommends that the said Patrolman Albert F. Connolly be ordered to perform seventy hours of punishment duty."

The Acting Police Commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Albert F. Connolly perform seventy hours of punishment duty.

The Acting Superintendent of Police will promulgate this order.

MARTIN H. KING,
Acting Police Commissioner.

General Order No. 654.

Elizabeth A. Kirby, chief matron of the House of Detention, having performed faithful service in the Police Department for twenty-four and six-twelfths years, and having requested to be retired from active service, it is hereby

Ordered, His Honor the Mayor having approved the same, that the said Elizabeth A. Kirby be retired from active service and that her name be placed upon the department pension roll with pay at the rate of nine hundred (900) dollars per annum, said sum being one half of the amount of compensation received by her in the office from which she is retired, previous to a 15 per cent reduction in pay, which went into effect April 21, 1933.

Note.

By Chapter 121, Acts of 1933 (having to do with reductions in pay), provision is made for the retirement for those in a non-contributory system, at half of the rate of compensation received before such reduction.

The retirement of Elizabeth A. Kirby, chief matron, as herein provided, will take effect as of Monday, September 24, 1934, at 7.45 o'clock a. m.

The Acting Superintendent of Police will promulgate this order.

MARTIN H. KING,
Acting Police Commissioner.

REVISION OF ASSESSMENT.

The Mayor has approved the following vote of the Board of Street Commissioners:

In the matter of the application for revision of assessment levied on account of the construction of sewerage works, the Board of Street Commissioners acting under the provisions of chapter 359 of the Acts of the year 1896, and deeming it just and proper that such action should be taken on said application,

Ordered, That the amount hereinafter specified, being the annual apportionment of said assessment for the year specified below, be, and the same is, hereby abated.

Mary E. Chemin, Sunset avenue, West Roxbury, assessed February 27, 1931, Lot 5, Plan 1930-22, Part 3, 1933 apportionment, $11.47.

LIFE-GIVING PATRIOTISM IS LOCAL.

By civic patriotism is meant the feeling and the taking of a deep, unselfish, earnest, ever-wakeful, active interest in the affairs of one's own city or local community, regarding it as having an autonomy, a distinct personality, a name and interests of its own, and, if one pleases, endowed with a sense of personal honor and with all laudable ambitions for the promotion of the welfare of its people.

Where such civic virtues exist the local community will neither suffer from the dry-rot of public indifference and neglect nor become tainted with graft or corruption. Its life will be healthful, and, like the ocean, will be kept pure by its own ceaseless flow and movement. All life-giving patriotism is local.

Show a good municipal citizen and one will see a citizen who loves his state, and who loves his nation, and who will discharge all the duties of this triple relation. Good government in local affairs is the best assurance of good government in state and national affairs.

REPAIRS AT JOY STREET BUILDING.

The following was received:

City of Boston,
Office of the Mayor, September 15, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Superintendent of Public Buildings, relative to your order of September 7, 1934, concerning the completion of repairs started in the building 46 Joy street, Boston, which is occupied by Robert G. Bell Post, No. 134, G. A. R.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Public Buildings Department,
September 13, 1934.

Joseph F. Mellyn,
Secretary to the Mayor.

Dear Sir,—Referring to the attached order of the City Council regarding the completion of the repairs at the Robert G. Bell Post, 46 Joy street, Boston, I have to inform you that at the time this work was undertaken it was proposed to use this building for administration work for the E. R. A. with the consent of the tenants. After the work had been partially completed the consent of the tenants was withdrawn and consequently the work stopped.

There are three similar propositions contemplated at this time, one for the Polish Legion Post at the old Leverett Street Fire House, who have agreed to supply all material if the work can be done as an E. R. A. project.

There is a similar proposition for the Columbia Post, A. L., at South Boston, and it is our understanding that the Federal Government will supply the material in this instance.

We therefore feel that it would set a bad precedent for the City of Boston to supply material for one project on leased premises and ask the tenants of other leased premises to supply their own material. If the Bell Post will guarantee the material, we would be very happy to submit a project to complete the work to Federal Street for their approval.

Respectfully yours,
ROSWELL G. HALL,
Superintendent of Public Buildings.

Placed on file.

City of Boston,
Office of the Mayor, September 15, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Boston Traffic Commission, relative to your order of September 7, 1934, concerning the installation of danger signals at each end of the center span on the Dorchester Avenue Bridge, between Power and Kemp streets, Ward 7.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Traffic Commission, September 14, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have the honor to acknowledge Council order passed September 7, 1934, which reads as follows:

"Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to install danger signals at each end of the center span on the Dorchester Avenue Bridge, between Power and Kemp streets, Ward 7."

Orders will be issued to erect two reflector signs, which will be taken from our stock and will not entail any additional expense.

Very truly yours,
WILLIAM P. HICKEY, Commissioner.

Placed on file.

APPROPRIATION FOR MUNICIPAL EMPLOYMENT BUREAU.

The following was received:

City of Boston,
Office of the Mayor, September 24, 1934.

To the City Council.

Gentlemen,—I am advised by the director of the Municipal Employment Bureau that the appropriation authorized for the running expenses of the Bureau last June will be exhausted on or about the end of the current week.

In my opinion the Bureau is doing a worth-while work and in order that it may continue I submit herewith an order providing for a further allotment from the Reserve Fund of $2,500. It is estimated that this amount will be sufficient to continue the activities of the Bureau until the end of the year.

I respectfully recommend adoption by your honorable body of the accompanying order.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

Ordered, That the sum of $2,500 be, and hereby is, appropriated, to be expended by the Municipal Employment Bureau, under the direction of the Mayor, in the prosecution of its duties, said sum to be charged to the Reserve Fund, when made.

Referred to Executive Committee.

RESIDENT C. W. A. WORKERS.

The following was received:

City of Boston,
Office of the Mayor, September 24, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Overseers of the Public Welfare, relative to your order of February 19, 1934, concerning the number of C. W. A. workers resident in Boston actually working and receiving C. W. A. pay during December, 1933, and January, 1934.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Overseers of Public Welfare,
September 18, 1934.

Mr. John F. Gilmore, Jr.,
Assistant Secretary, Mayor's Office.

Dear Sir,—This is to acknowledge receipt of your letter of February 21, 1934, inclosing the following order from the City Council, dated February 19, 1934:

"That Walter V. McCarthy, through his Honor the Mayor, be, and hereby is, respectfully requested to advise the City Council forthwith as to the number of C. W. A. workers resident in Boston actually working and receiving C. W. A. pay: (a) during December, 1933, and (b) during January, 1934."

Answers.

(a) 10,148 workers during December, 1933.
(b) 14,805 workers during January, 1934.

Yours truly,
DANIEL A. MURPHY, Auditor.

TRANSFER FROM PARKMAN FUND.

The following was received:

City of Boston,
Office of the Mayor, September 24, 1934.

To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Board of Park Commissioners requesting the transfer of the sum of $60,000 from the income of the George F. Parkman Fund to the maintenance and improvement of the Common and Parks in existence on January 12, 1887.

I submit herewith an appropriation order and respectfully recommend its immediate passage by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

Ordered, That the sum of $60,000 be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended, under the direction of the Park Commissioners, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887, as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of..... $60,000

—

City of Boston,
Park Department, September 18, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—By vote of the Board of Park Commissioners, you are respectfully asked to request the City Council to transfer from the income of the George F. Parkman Fund the sum of $60,000, which is now available, to be expended under the direction of the Board of Park Commissioners as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of..... $60,000

When the budget estimates were made up for the year 1934, a sum equal to the total yearly

income of the George F. Parkman Fund was deducted from Item A-1 Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1934, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Park Department.

Respectfully yours,
WILLIAM P. LONG, Chairman.

Referred to Executive Committee.

TRAFFIC LIGHT, SOUTH STREET.

The following was received:

City of Boston,
Office of the Mayor, September 7, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Traffic Commission, relative to your order of August 27, 1934, concerning the installation of a traffic light at the corner of South street and the Arborway, Jamaica Plain.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Traffic Commission, September 4, 1934.

Re: Communications of August 28, 1934, and August 30, 1934, ordering report on the advisability of installing an automatic traffic signal at the intersection of South street and Arborway, Jamaica Plain, with cost of same, and whether or not funds are available.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mr. Mayor,—This commission has a plan for the installation of a traffic signal at the intersection of South street and Arborway.

The approximate cost of such an installation would be $2,500.

There are no funds available at this time.

As to the advisability of installing such a signal, were funds available, it is the opinion of our engineers that because of the proximity of this intersection to the very heavy intersection of Arborway and Washington street, it is doubtful whether a signal at Arborway and South street, would function satisfactorily.

The State Planning Department has prepared tentative plans for the construction of an over-pass which would bridge both the intersection of Arborway and South street and that of Arborway and Washington street. An over-pass would, in my opinion, solve the traffic problems at both of these intersections.

Very truly yours,
WILLIAM P. HICKEY, Commissioner.

TRANSFER WITHIN SEWER DIVISION.

Coun. FINLEY moved to take from the table No. 4 on the calendar, viz.:
4. Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to make the following transfer in the appropriation for Public Works Department, Sewer Division:
From the appropriation for B, Service Other than Personal, $25,000, to the appropriation for 3, Equipment, $25,000.
The motion was declared carried.
Coun. ROBERTS—Mr. President, that order was placed on the table some weeks ago pending the receipt of information as to where the money was to be spent. We have not as yet received that information, and I do not think this is the time to pass this particular order, not knowing anything about where the money is to go.
Coun. GLEASON—Mr. President, some weeks ago in the Council I opposed the passage of the order at the time when it came up, but I will state to the councilor from West Roxbury that I withdraw my opposition and am willing to go through on the order. I now believe the order is O. K. Some weeks ago I thought there was something funny about it, but I am now willing to withdraw my opposition.
The order was passed, yeas 17, nays—Coun. Roberts—1.

Adjourned, at 3.06 p. m., on motion of Coun. GLEASON, to meet on Monday, October 1, 1934, at 2 p. m.

BOSTON'S POPULATION ON APRIL 1, 1930, BY WARDS.

Total population by U. S. Census, 781,188.

HISTORICAL DATA ABOUT WARDS.

The term "ward" first appears in a fire-protection order, approved by the Town on August 29, 1679, dividing the Town into 4 quarters with 2 wards each. The 8 wards had previously been military districts.

On August 11, 1713, the Selectmen "agreed upon a distribution of the Town into distinct Wards or Precincts."

On February 1, 1715, it was "voted to make a new division of the Town into eight distinct Wards."

On March 9, 1735, it was voted to divide the Town into 12 wards to facilitate the work of the Overseers of the Poor.

On March 13, 1822, the Selectmen divided the Town into 12 wards on the basis of the U. S. Census of 1820.

By an ordinance which took effect on the second Monday of December, 1838, there was a revision of the wards.

On April 29, 1850, the City Council accepted Chap. 167 of the Acts of 1850, which altered the wards on the basis of legal voters rather than on the number of inhabitants.

By ordinance taking effect on November 15, 1865 new ward lines were established.

In the annexation period, 1865-1875, the number of wards was increased from twelve to twenty-one.

By Chap. 243, Acts 1875, the City Council was ordered to cause a new division of the City into twenty-four wards in the year 1875 in such manner as to include an equal number of voters in each ward. This division was made, taking effect on December 13, 1875. On May 27, 1876, the City Council, in accordance with Chap. 242, Acts of 1876, divided one of the wards in two, making a total of 25 wards for the City.

By ordinance passed April 20, 1895, under authority of Chap. 437, Acts of 1888, and Section 96 of Chap. 417, Acts of 1893, ward lines were established on the basis of the number of voters registered at the City election of 1894, there still being 25 wards.

The annexation of Hyde Park, effective January 1, 1912, made an additional ward.

By enactment of December 28, 1914, under authority of Chap. 630, Acts of 1914, the City Council redivided the City into 26 wards.

The latest redivision, established December 30, 1924, under authority of Chap. 410, Acts of 1924, consists of 22 wards.

TAX LEVY, 1932.

Total, $67,574,773 ($5,414,540 more than in 1931) or $62,260,762 on realty, $4,834,415 on personalty, and $479,596 on male polls.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, OCTOBER 6, 1934. NO. 40

MAYOR MANSFIELD ABOLISHES VOLUNTARY PAYROLL CONTRIBUTIONS ON PART OF DEPARTMENT HEADS, AFFECTING 48 OFFICIALS — FOUND ONLY SMALL PROPORTION SUBSCRIBING TO HIS SUGGESTION AND THUS TAX RATE WAS NOT BENEFITTED AS HAD BEEN EXPECTED — MAKES MOVE AT SUGGESTION OF ACTING BUDGET COMMISSIONER — CONTRIBUTIONS WERE IN ADDITION TO 15 PER CENT SALARY REDUCTIONS.

Upon September 28 Mayor Mansfield issued the following statement:

Mayor Mansfield approved today a suggestion submitted by the Acting Budget Commissioner to the effect that the 10 per cent voluntary pay roll contributions now being made by forty-eight city department heads and officials be discontinued as of October 1. These contributions have been in effect since May 1 of the current year and are in addition to the 15 per cent salary reductions established under the provisions of chapter 121, of the Acts of 1933.

The suggestion of the Acting Budget Commissioner is based on the fact that only a relatively small percentage of department heads and officials responded last May to the Mayor's voluntary contribution suggestion, and that the total amount of the contribution is negligible in so far as its relation to the tax rate of the current year is concerned.

The suggestion of the Commissioner was contained in the following letter:

BOSTON, September 27, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—Last April while you were considering the Budget estimates of city departments and endeavoring to devise ways and means to keep the tax rate at the lowest possible level, you suggested that all department heads, members of boards and commissions, division chiefs, deputies and other officials and employees, whose basic rate of compensation at that time was in excess of $5,000 per annum, should make a voluntary contribution "equal to 10 per cent of their basic compensation," the same to be payable in weekly or monthly installments beginning as of May 1 and extending to the close of the current year. According to the records of this office 147 officials and employees of the city constituted the group affected by this suggestion. It may be of interest to you to know that only 48 of these officials and employees responded to the suggestion, or a number equivalent to one third of the total of the group. The following table indicates by the various Budget divisions the number affected by, as well as those responding to, the suggestion.

DIVISION.	Number Affected.	Number Responding.
City	52	48
Police Department	2	0
Finance Commission	1	0
County	20	0
Schools	70	0
School Buildings	2	0
	147	48

In the five months which have elapsed since the contributions commenced, approximately $20,000 has been contributed by forty-eight city department heads and officials. I estimate that if contributions are continued for the balance of the year, approximately $10,000 additional will be contributed by this group, or a total during the eight months of approximately $30,000.

STATE TO COOPERATE WITH CITY IN ROUTING MORE TRAFFIC THROUGH SUMNER TUNNEL — MAYOR MANSFIELD SECURES AID THROUGH CONFERENCES OF TRAFFIC COMMISSIONER WILLIAM P. HICKEY. WILL HAVE DIRECTIONAL SIGNS MADE.

Mayor Mansfield has secured the cooperation of the State Department of Public Works in the effort to direct more traffic through the Sumner Traffic Tunnel. This cooperation was secured from Commissioner Frank E. Lyman after correspondence with Traffic Commissioner William P. Hickey. The letter from Commissioner Lyman is presented in the following letter from Commissioner Hickey to Mayor Mansfield.

BOSTON, October 1, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

Re: Directional Signs to the Sumner Tunnel.

DEAR SIR,—In a letter dated September 18, 1934, Frank E. Lyman, Commissioner, Department of Public Works, Commonwealth of Massachusetts, stated that he would be glad to cooperate with our department in routing traffic to the new Sumner Tunnel.

Mr. Edgar F. Copell, Assistant Traffic Engineer, State Department of Public Works and myself have laid out five routes through the city leading into the Sumner Tunnel. These routes are to be known as city routes and take the same number as the state routes, except a letter "C" will precede the route number as C–9 or C–1.

Plans are now being prepared showing these routes and the location of the directional signs and route markers will be shown on these plans.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

VOLUNTARY PAYROLL CONTRIBUTION.

(*Continued from page 1049.*)

The situation, therefore, insofar as this voluntary contribution suggestion is concerned, may be summarized as follows:

1. Only one-third of the group to which the suggestion was directed have responded.

2. Those responding represent department heads and officials directly under your control, no response having been made by any division outside of your control.

3. The total amount of the contributions for a full eight-month period, namely $30,000, is equivalent to approximately two cents on the tax rate of the current year.

In view of the fact that a general response has not been made to the suggestion, and, further, since the total amount that may be realized is so small and insignificant, I sincerely believe that the contributions now in effect should be terminated as of October 1. I respectfully submit this opinion for your consideration.

Very sincerely yours,

CHARLES J. FOX,
Acting Budget Commissioner.

CITY MAKING PLANS FOR ELABORATE CELEBRATION OF COLUMBUS DAY. MAYOR MANSFIELD TO PRESIDE AND WELCOME DISTINGUISHED GUESTS.

With more than usual color and attractiveness, the official Columbus Day exercises to be on Boston Common are being arranged for Friday afternoon, October 12, 1934, by the committee of the Citizens' Public Celebrations Association acting as customary each year in cooperation with and by sanction of the Mayor and his office.

Chairman of the committee of arrangements is Judge Frank Leveroni, a former president of the association. Representing Mayor Mansfield is his assistant secretary, Arthur J. O'Keefe. Committee secretary is E. B. Mero.

This year for the first time Columbus Day will be observed in accordance with Act of Congress passed at the last session, and a proclamation by the President. But this will be the 20th annual observance of the holiday by the City of Boston.

Because this holiday is the only one that is observed for a common purpose by all the twenty-two countries of North, Central and South America, it was selected locally some years ago as fitted to a stressing of the Pan American idea, and this has become an established feature almost every year in Boston's Columbus Day programs, thus aiding to make the day of general significance and interest. This year, as before, the Pan American Union at Washington has aided in the Boston arrangements.

This year, owing to cooperation from Federal Government E. R. A. dramatic and musical projects, considerable attractiveness as well as particular purpose will be included in the program, almost partaking of the pageantry atmosphere. The Pan American features of the exercises at Parkman Bandstand Friday afternoon, October 12, will include seventy-two men and women in costumes and colors of those lands, and flag bearers in uniform. The costumed personnel will be professional actors who are attached to the E. R. A. Civic Theater of Boston, and under the direction of Community Service, with a city connection through the Park Department. The flag bearers will be specially selected High School cadets.

In a formal ceremony at the beginning of the program the flag of each country will be saluted, the national airs played by the band, and a picturesque group formed on the platform for the general audience to view. "Columbus," aided by two pages, will greet the representatives as they arrive; and also in the group will be "Pan America" symbolizing the spirit of all America, and "Columbia" symbolizing the United States, each with two pages. No attempt will be made at speaking lines; all will be in action and music. A similar ceremony will occur at the end of the exercises.

The musical portions of the program will come from the Greater Boston E. R. A. choral unit of 80 to 100 professional singers that has been attracting favorable attention on various occasions the past few weeks; and from the Alhambra Band which will play for other parts of the program, including the special opening numbers and the airs of the nations.

Mayor Frederick W. Mansfield expects to preside and welcome local diplomatic representatives of the South and Central American countries who have been invited, as well as similar representatives of Spain, Italy and this country. A special representation of the Knights of Columbus, Fourth Degree, is being arranged.

An interesting item in the spirit of the occasion will be the reading by a native of Argentine, South America, of Joaquin Miller's poem "Sail On!" This young man is Venzo Attoisi, and he is now a pupil at Boston English High School.

The exercises will go on the air by radio. Ushers and aids will be High School cadets. The celebration will be for the general public without formalities of tickets or invitations. Past years the Columbus Day ceremonies have assembled audiences of 5,000 or more and with the added picturesque features and the good music the committee expects at least as large a gathering October 12 this year.

SUMNER TRAFFIC TUNNEL.

(*Continued from page 1049.*)

The number of signs and route markers will be determined and an estimate made of the cost of the signs and markers.

These city routes will be known as routes C–1, C–9, C–16, C–28 and C–37.

Route C–1 will extend from Route 1 at the Newburyport Turnpike and Squire road to Route 1 at Brookline avenue and the Riverway via the following roads and streets; Squire road, the new road passing through Revere and East Boston to Bennington street, Bennington street, Chelsea street, Porter street, Sumner Tunnel, Cross street, Haymarket square, Merrimac street, Lowell street, Nashua street, Charles street, Embankment road, Beacon street to Kenmore square, Brookline avenue to the Riverway.

Route C–9 will connect with Route 9 (Worcester Turnpike) at the Riverway and connect with the Sumner Tunnel via the following streets: Huntington avenue, Boylston street to Park square, Charles street to the Traffic Circle at Cambridge street, Cambridge street, Scollay square, Hanover street to Cross street, Cross street to Sumner Tunnel.

Route C–16 will connect with Route 16 at Kenmore square and will proceed via Beacon street to Charles street, connecting with routes C–9 and C–28 at Beacon and Charles streets.

Route C–28 will connect with Route 28 at Blue Hill avenue and Morton street and follow Blue Hill avenue to Seaver street, Seaver street, Columbus avenue to Park square, Charles street to the Traffic Circle and Longfellow Bridge connecting with Route 28 again at Memorial Drive. Route C–28 will connect with Route C–9 at Park square and thence by way of Route C–9 to the Sumner Tunnel.

Route C–37 will connect with Route 37 at Adams street, Gallivan Boulevard and Granite avenue and will then go easterly on Gallivan Boulevard to Neponset avenue and Old Colony Boulevard, Old Colony Boulevard, Columbus Circle, Old Colony avenue, Dorchester avenue, Congress street, Dock square, North street, Cross street to the Sumner Tunnel.

All signs on these routes approaching the Sumner Tunnel will have Sumner Tunnel on them.

Very truly yours,

WILLIAM P. HICKEY,
Traffic Commissioner.

WITHOUT ADVERTISING.

Upon varying dates, as indicated, the Mayor approved contracts with several concerns and contractors for supplies and work. Communications from the heads of the several departments were as follows:

PUBLIC WORKS DEPARTMENT (Paving Service).

BOSTON, September 28, 1934.

To the Mayor of Boston.

Your approval is respectfully requested to the award of a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to C. Reppucci & Co., 10 Garden Court street, Boston, on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; and also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

JOSHUA ATWOOD,
Acting Commissioner of Public Works.

PUBLIC WORKS DEPARTMENT.

BOSTON, September 28, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR MR. MAYOR,—In a letter dated August 27, 1934, the Commissioner of Public Works set forth in detail the facts concerning the lighting of city streets and suggested that the city enter into a contract for six months from October 1, 1934, with the Boston Consolidated Gas Company for furnishing gas and the equipment for lighting and extinguishing gas lamps.

In order that there may be no interruption in the service of lighting the city streets and in order to afford this department an opportunity of considering the advisability of replacing part of the existing 9,563 gas lamps by electrically-lighted lamps and of preparing the terms and specifications for a new gas contract, I hereby respectfully request your authority to award the following contracts without inviting proposals therefor by advertisement:

1. Contract for furnishing illuminating gas for street lighting to the Boston Consolidated Gas Company for a term of one month from October 1, 1934, at the present rate of $8.42 per lamp per year for single burner, 60-candle power lamps.

2. Contract for equipment and the lighting and extinguishing of gas lamps for the City of Boston, excluding Hyde Park, to the Boston Consolidated Gas Company for a term of one month from October 1, 1934, at the present rate of $14.70 per lamp per year.

Respectfully,

JOSHUA ATWOOD,
Acting Commissioner of Public Works.

SUFFOLK COUNTY JAIL.

BOSTON, September 24, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—I respectfully request permission to award to the American Laundry Machinery Company, without advertising, a contract for one new American champion cascade washer.

The entire equipment of the jail laundry is of the type manufactured by this concern and the new washer is to replace an old and almost useless washer of the same type, thus making the laundry unit complete again. There would be no financial advantage to the city in advertising as this concern manufactures this machine exclusively and the price quoted, $2,289, includes an allowance on the old washer.

The amount of money necessary for the purchase of this machine has been provided for and is available in the appropriation for the jail for this present year.

Respectfully submitted,

JOHN A. KELLIHER, *Sheriff.*

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

A sanitary sewer of 12-inch pipe and a surface drain of 3-foot 6-inch circular concrete (P. W. A., Docket No. 4193–J) in Rutledge road, between Ralston road and 330 feet northwesterly, in the Hyde Park district, at an estimated cost of $11,600.

A sanitary sewer of 12-inch pipe and a surface drain of 4-foot circular concrete (P. W. A., Docket No. 4193–J) in Ralston road, between Raleigh road and Rutledge road, in the Hyde Park district, at an estimated cost of $13,600.

A sanitary sewer of 12-inch pipe and a surface drain of 4-foot circular concrete (P. W. A., Docket No. 4193–J) in Raleigh road, between Royal road and Ralston road, in the Hyde Park district, at an estimated cost of $1,800.

A surface drain of 4-foot circular concrete (P. W. A., Docket No. 4193–J) in Royal road, between Greenfield road and Raleigh road, in the Hyde Park district at an estimated cost of $8,000.

A surface drain of 12-inch pipe and two catch basins in Hooker street, between North Harvard street and 400 feet northeasterly, in the Brighton district at an estimated cost of $2,100.

A sanitary sewer of 18-inch pipe in Stanley street, between Neponset River Reservation and Forest street in the Hyde Park district, at an estimated cost of $1,920.

A sanitary sewer of 20-inch pipe in Forest street, between Stanley street and Hawthorne street, in the Hyde Park district, at an estimated cost of $6,400.

A sanitary sewer of 15-inch pipe in Hawthorne street, between Forest street and Hamilton street, in the Hyde Park district, at an estimated cost of $9,050.

A sanitary sewer of 18-inch pipe in Neponset River Reservation, between 60 feet west of Neponset river (30 feet south of East Milton street) and 1,719 feet west, northwest and southwest (to Stanley street) in the Hyde Park district, at an estimated cost of $17,200.

CONTRACTS AMENDED.

Walter Curley & Son have been allowed to amend the contract for masonry, etc., Dorchester High School for Boys, by striking out the word and figures "September 12, 1934," on page 2, Article 5, and substituting therefor the word and figures "November 1, 1934," so that said Article 5 on page 2 shall read: "The Contractor shall carry on the work with due diligence and dispatch and shall bring the work to entire completion as defined in the specifications on or before November 1, 1934, and shall be liable in damages for any failure to so do, all as defined in the specifications."

Joseph N. Fish has been ordered to amend the contract for removal and relocation of master's office, Christopher Columbus School, by striking out the word and figures "September 12," on page 2, paragraph 2, and substituting therefor the word and figure "October 8," so that said Article 2 on page 2 shall read: "The Contractor shall carry on the work with due diligence and dispatch and shall bring the work to entire completion as defined in the specifications on or before October 8, 1934, and shall be liable in damages for any failure to so do, all as defined in the specifications."

Baker, Matz & Co., have been allowed to amend the contract for paving Cross street, from Hanover street to Haymarket square, Traffic Tunnel, Series B, by striking out on page 7, first paragraph, the words "twenty-eight days" and substituting therefor the words "fifty days," so that the contract as amended shall read on page 7, first paragraph: "The Contractor agrees to complete the work in this contract within fifty days from notification by the department to begin," and that all provisions of said contract, excepting as modified herein, shall continue in full force and effect.

CLAIM ALLOWED.

Upon recommendation of the Corporation Counsel, the Mayor has approved the following claim:

Bridget A. McDermott, 14 Germania street, Jamaica Plain, in the sum of $25, as refund of fee paid for Employment Bureau license No. 41, Class 2, issued on April 18, 1934, which she did not use.

REVISION OF ASSESSMENT.

The Mayor has approved the following vote of the Board of Street Commissioners of the City of Boston.

In the matter of the application for revision of assessment levied on account of the construction of sewerage works, the Board of Street Commissioners acting under the provisions of chapter 359 of the Acts of the year 1896, and deeming it just and proper that such action should be taken on said application,

Ordered, That the amount hereinafter specified, being the annual apportionment of said assessment for the year 1932, be, and the same is hereby abated.

Peter Connolly, Centre street, West Roxbury, assessed October 8, 1925, Lot 22, on plan 1925–4, $6.13.

TAX ABATEMENT.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That in the matter of Alexander Whiteside *et al.*, Trustee under will of Patrick McAleer, petitioner for abatement of betterment assessment levied October 24, 1927, in the sum of $770, against the property No. 28 Hollis street (Lot 208) as a result of the widening and relocation of Tremont street under the order of March 26, 1925, after consultation with the Law Department and on its advice, the Board agrees to settle the case by abatement of balance of assessment due, in the sum of $385; and consents that the Corporation Counsel agree to judgment in said case on the terms herein stated.

LAND-TAKING IN EAST BOSTON.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying-out and construction of an extension of Orient avenue, East Boston district, as a highway, northwesterly for a distance of approximately three hundred feet, bounded and described as follows:

An extension of the highway named Orient avenue is hereby laid out, northwesterly for a distance of approximately three hundred feet, and ordered constructed; the cost thereof to be charged to Federal Funds allocated under the Civil Works Administration program for Massachusetts.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northerly by the line of Orient avenue as hereby established, three hundred and twenty feet; northwesterly by another part of Orient avenue, fifty feet; southerly by the line of Orient avenue as hereby established, three hundred and twenty feet; and southeasterly by Orient avenue as laid out under a previous order, fifty feet.

No betterments are to be assessed for the making of the aforesaid improvement.

AUTHORITY TO DO WORK.

The Mayor has approved the request of the Public Works Department for authority to resurface with asphalt macadam (penetration) Lyndhurst street, Dorchester, from Washington street to Allston street, with department forces, without advertising, the estimated cost for labor and material being $2,500.

ADDITIONS TO CONTRACTS.

WATER-SUPPLY DEVELOPMENT IN THE UNITED STATES.

In 1652 Boston introduced the first American public water supply. The first mechanical pumps were used in 1761 at Bethlehem, Pa., where Hans Christiansen, an American pioneer water-supply engineer, made his pumps work "after severe struggles." In 1850 there were only 100 water plants in the United States, and as late as 1875 only 243. In 1933 there were more than 11,000 public water supplies, some serving more than one community.

FIRE DEPARTMENT ORDERS.

General Order No. 67.

I. Frederick J. Russell.

It is with deep regret that the Fire Commissioner announces the death on Monday, October 1, 1934, of Frederick J. Russell of Ladder Company 1. Ladderman Russell was appointed to the Fire Department on July 14, 1918.

The funeral will be held from his late residence, 30 Nashua street, on Thursday, October 4, 1934, at 8.15 a. m., followed by a Requiem High Mass at St. Mary's Church, Endicott street, at 9 o'clock.

The Chief of Department will make the customary detail to act as a funeral escort. The detail will report at the quarters of Engine Company 4, Bowdoin square, at 8 a. m. District Chief John F. McDonough will be in charge of the detail. The members of Ladder Company 1 will be excused from duty in order to attend the funeral.

II. Retirement.

The following retirement, which will take effect at 8 a. m., Friday, October 5, 1934, is hereby announced:

Hoseman James F. Ryan, Maintenance Division.

Hoseman Ryan was appointed to the department on July 20, 1914. He leaves the department with the best wishes of his associates.

III. Fire Prevention Week.

Fire Prevention Week will be observed in Boston and the nation during the week of October 7, 1934. The Fire Department will participate in the observance of this week in the following manner:

Fire stations will be open to the public between the hours of 12 m. and 9 p. m. for inspection and information as to how the department functions and on fire prevention matters, in addition to instructions as to the proper method of sending in an alarm of fire. During this period that houses are open to inspection they should be in good order, no gatherings or loitering on the main floor, and the man on patrol should wear his full uniform, including blouse, cap and badge. If visitors come he should summon the commanding officer who will either show the visitors around or assign someone to do it. Children under twelve should not be allowed in the house unless accompanied by an adult.

All schools will be visited by a district chief and such officers as they may assign to assist them in so doing; fire drills are to be held, and permission requested to address the pupils on the subject of fire and fire prevention, the pupils to be assembled for that purpose.

In the presentation of facts concerning Fire Prevention Week members and officers of the department in quarters and in public should emphasize to hearers and guests that 60 per cent of all fires occur in homes and a home goes up in smoke somewhere every four minutes—a home that ought not to have burned. Home fires are probably responsible for the greater proportion of the 10,000 lives annually taken by fire, approximately 6,000 of which are women and children, the loved ones and the helpless ones who contribute so much to the real happiness of a good home. It is the mission of firemen to impress upon the public the cause for home fires and how the exercise of a little care will eliminate them. It is a well-known fact that the careless use of matches and smokers' articles is one of the responsible causes of our enormous national fire loss. Heating equipment is another frequent cause of home fires. Frequent inspections of heating equipment, chimneys and flues will show any weakness that may exist. For example, the customary defects are cracks in chimneys, sooty or clogged flues and chimneys, stoves, stovepipes and other hot pipes too near woodwork. The remedies for such defects are known to all. Defective and amateur electric installations present a serious hazard. It hardly seems possible that anyone in these days of the twentieth century would attempt to increase or quicken a slow fire by the use of gasolene or kerosene; nevertheless such unexplainable methods are followed occasionally with the customary tragic results. Home fires frequently start in kitchens which condition can be quickly corrected by the application of good housekeeping rules.

Next to fires in the homes fires in industry should be of great concern to

the homemaker and wage earner of the family. Fires in industry throw people out of employment, deprive the laborer of his wages and the owner of his profits. Fire destroys the foundation of wealth.

There are nine principal causes of fires listed by the Actuarial Bureau of the National Board of Fire Underwriters, namely:

Exposure from other buildings.
Matches, smoking, etc.
Defective chimneys and flues.
Stoves, furnaces and pipes.
Misuse of electricity.
Spontaneous ignition.
Sparks on roofs.
Petroleum and its products.
Unknown (suspicious).

There are many other causes but the foregoing are the principal reasons for our terrible loss.

The facts outlined herein should be borne in mind by all officers and members when discussing fire prevention with teachers, school children and citizens in the fire stations, so that the public may be properly impressed with the principal causes of fire and the remedies which should be applied. There is being distributed to the department an address to be used in whole or as part of a talk by the officers of the department who are selected to speak to the pupils of the schools.

IV. Acting District Chief.

Capt. Franklin B. Sanborn of Engine Company 53 has been designated as acting district chief of District 12, effective as of September 28, 1934.

V. Commendations.

Hoseman Leo M. Myott of Engine Company 5 is hereby commended for extinguishing a fire in some rubbbish which was close to a parked automobile, opposite 108 Washington street, on September 27, 1934, before the arrival of fire apparatus. This act was performed by Hoseman Myott while he was off duty.

Hoseman Coleman B. Norton of Engine Company 44 is hereby commended for responding to and working at fire, Box 1535, September 9, 1934, while off duty.

The Fire Commissioner is pleased to publish the following letter which he has received from the Reverend H. Perennes, S. M., pastor of the Church of Notre Dame des Victoires, in which he expresses his appreciation of the services rendered by members of this department on Sunday, September 30, 1934:

October 1, 1934.

Mr. Edward F. McLaughlin,
Fire Commissioner.

Dear Mr. McLaughlin,—Please allow me to congratulate you on your excellent and efficient Fire Department. In a special way I wish to thank the members of the Warren Avenue Station. Their promptness in getting to our church early Sunday morning, their good work so quickly and effectively accomplished, certainly saved us from a serious fire, and from very great inconvenience. Chief Downey and his men deserve great praise and admiration, and through you I wish to thank them. With every good wish to you and to the Boston Fire Department, I remain

Yours truly,

H. Perennes, S. M.

By order of Fire Commissioner Edward F. McLaughlin.

Henry A. Fox,
Chief of Department.

POLICE DEPARTMENT ORDERS.

General Order No. 555.

Patrolman Cornelius A. Donahue of Division 10 is commended in General Orders for effective police duty performed on September 15, 1934, in frustrating an attempt to hold up the manager of a chain store in Roxbury, in disarming and arresting one of three persons whom he observed acting in a suspicious manner, and who had previously held up and robbed another chain store on the division. The person arrested was armed with a loaded revolver, the other two making their escape during the struggle.

The Acting Commissioner is pleased to recognize and commend the alertness and effective police duty performed by Patrolman Donahue in accomplishing the arrest of this criminal.

The Acting Superintendent of Police will promulgate this order.

Martin H. King,
Acting Police Commissioner.

General Order No. 556.

A trial board consisting of Captains Campbell, Casey and Daley, having heard by reference a complaint made by John F. Lyons, lieutenant, Division 15, against Albert F. Clifford, patrolman, Division 15, for alleged violation of the rules, to wit:

Charge: Conduct unbecoming an officer.

Specification 1: In that on the 1st day of September, 1934, the said Patrolman Albert L. Clifford, while in uniform and on duty, and assigned to routes 7 and 10 did leave said routes, not on police duty, and enter the building at 45 Baldwin street without asking permission from the officer in charge of the station.

Specification 2: In that on the 1st day of September, 1934, the said Patrolman Albert F. Clifford did fail to properly patrol his route in that he did enter, on or about 3 o'clock a. m., the building at 45 Baldwin street, the said 45 Baldwin street not being on his route, and by his actions and conduct did tend to bring into disrepute and criticism his associates in the Police Department and the Police Department as a whole,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented finds the said Patrolman Albert F. Clifford guilty of the charge and specifications thereunder, and respectively recommends that the said Patrolman Albert F. Clifford be dismissed from the Police Department."

The commissioner accepted the finding and the recommendation of the Trial Board and ordered that the said Patrolman Albert F. Clifford be dismissed from the Police Department. Due written notice of such dismissal with the reasons therefor was duly and specifically given in hand on September 14, 1934, to the said Albert F. Clifford.

On September 15, 1934, the said Albert F. Clifford requested, in writing, a public hearing as provided by law, and the Police Commissioner set down Thursday, September 20, 1934, at 9.30 o'clock a. m., at the office of the Police Commissioner, as the time and place of the hearing (from which date the said hearing was continued to Wednesday, September 26, 1934, at the request of the said Albert F. Clifford), and duly notified the said Albert F. Clifford.

The said Albert F. Clifford was present at said time and place and was heard with his witnesses. Whereupon, after hearing the case, the Acting Police Commissioner finds the said Albert F. Clifford guilty as charged, and further finds that the said Albert F. Clifford shall stand dismissed from the Police Department.

The Acting Superintendent of Police will promulgate this order.

Martin H. King,
Acting Police Commissioner.

General Order No. 557.

In order to assist the Law Department of the City of Boston in the method of procuring police reports in highway accident cases, the following procedure shall be followed in making reports of highway accidents:

The blank form attached to this General Order shall be filled out by the officers concerned. After the blank has been filled out it shall be forwarded to Headquarters in envelope provided for same. In filling out these blanks officers shall be guided by the essential points outlined in the attached memoranda. This procedure will eliminate the necessity of officers going to the Law Department except when cases are actually in court or in cases of extreme emergency or difficulty.

This order effective October 1, 1934.

Should division commanders be in need of a further supply of forms request will be made to the superintendent.

The following is a list of special cases that arise, and in them it may be necessary to secure certain information which relates to that particular type of case:

Depressions.

In the case of an alleged defect being a depression in the way, it should be learned whether or not the depression is saucer shaped or scoop shaped, that is, whether or not it rises or falls gradually. Get the measurement of the length and width and depth of the depression as near as is possible.

It will be found in a great many instances where there is a depression there is a slight displacement of the bricks. It is the practice of the attorneys trying their cases to work in the words "ragged," "jagged," or "rough" or "sharp" edges. This fact should be kept in mind in preparing a report on depressions.

Note.—Eliminate the word "defect" from reports. The word "depression" should be used, or other descriptive word. Whether or not a particular condition is a defect is a point in issue. Hence the word "defect" should be kept out of reports.

Projections.

Where a projection is in the highway as where one slab of granolithic protrudes above another, it frequently occurs that it presents a projection only in the event that a person is traveling in a certain direction, whereas if one were proceeding in the opposite direction, it would not constitute a projection. Therefore, in reporting on such condition the above facts should be borne in mind.

Sudden Cave-Ins.

Where the story of a plaintiff indicates that there was a sudden cave-in of the highway or the sidewalk over which he was traveling, great care should be taken to secure evidence that the place looked all right before the accident and that there was no indication that there may have been trouble beneath the location.

Excavations, Trenches, Etc.

It is important in these cases to note if the way was a public way that is actually accepted by the city, and the relation with reference to the sidewalk as to where the excavation was made. Was the night dark, stormy or moonlight, and were street lights nearby?

Was a permit given to dig the trench? By whom? When? For how long? For what purpose?

Was the work being done for the city or someone else?

How long, wide and deep was the trench?

Did it run across or with the street?

What were the means taken to guard the trench as watchman, notices, signs, planks, lanterns, barriers, wooden horses, fences, piles of dirt or stone, etc.?

How many and what color were the lantern lights?

Was the dirt piled on both sides of the trench high?

Were any of the barriers moved by strangers?

What were the arrangements made by the contractor's men when leaving the work at night with reference to protecting the traveling public?

Was it not easily apparent at the place where the plaintiff fell that the street was under construction or repair work being done?

Was the place of the accident obscured by shadows or darkness?

Names of foremen and number of employees.

Vaults, Etc.

In the case of vaults, hatches, hyatt lights and coal holes in the sidewalk, secure the name of the record owner of the building abutting the highway.

Ascertain whether or not the building is leased and for what purpose and by whom the portion of the premises beneath the above-mentioned objects is used. Who has control of the coal hole, hatch, etc.

Coal Holes.

In cases of alleged accidents from defective coal holes where one steps upon the coal hole cover and it tips, it should be borne in mind that, if the coal hole cover apparently sets firmly in the frame and there is nothing about its appearance to indicate that it is not fastened beneath or otherwise defective, the city is not responsible for any accident due to the fact that the cover tips. Have officers state their observations to the fact that it was level with the sidewalk and set evenly and firmly in its frame. Examine all covers and report on construction of them, whether provided with legs, weights or fastening means.

Defects Between the Car Rails of the Boston Elevated Railway Company.

In cases where accidents happen on or near the car tracks of the Boston Elevated Railway Company it should be determined whether or not the depression was outside the rails of either of the car tracks, bearing in mind that each track consists of two rails and that it is only when the defect is between the rails that the Boston Elevated is responsible. If the depression is between the pair of tracks (what is called the "dummy" by the Elevated) the Elevated is not responsible, but the City of Boston alone is responsible. Make a diagram of two tracks and mark location of alleged defect.

Highway Under Construction.

The first thing to be ascertained is whether the accident happened in the daytime or night. Usual precautions should be taken to find out whether there were any barriers or lighted lanterns in the place if the accident happened in the night. If in the daytime find out all about piles of earth, stone and sand, auto trucks, men on the job, or any other indication of extensive work going on because in such a situation one enters upon such a highway at his own risk. Note if the road was officially closed by signs or otherwise.

Driveway.

If a driveway crosses the sidewalk and is finished off evenly so as to constitute nothing more than the ordinary elevation which one would encounter upon stepping on the edgestone of an ordinary sidewalk, there is no liability on the city.

Snow and Ice.

In the matter of snow and ice cases, officers should ascertain whether there are any defective conductors, gutters or eaves discharging the water upon the sidewalk. Also even though there may be a defect in the sidewalk find out whether or not it was entirely covered with snow and ice, because even if there was a defect on part of the sidewalk where the plaintiff fell, there is no liability unless the defect contributed to the injury. Most important of all in snow and ice case, is that the location must be seen as soon as the snow and ice have been cleared away, and that the officers on the route must be cautioned to observe the condition, as soon as the snow and ice has been cleared away, for there is no liability if there are no defects on the sidewalk when free and clear of snow and ice.

Subway Approaches and Entrances.

If scene of accident is near a subway entrance, make particular note of the fact, as the Elevated may be required to keep the place in repair under its lease of the subway.

Bridges.

If known, note whether city forces or railroad men repair the portion of the bridge complained of.

Private Ways Entering Public Ways.

Ascertain if a "Private Way Sign" is displayed at entrance to way. Find out if the abutting owners or the city have ever roped off or barricaded the way to indicate that it is a Private Way. This information should be secured from residents in the neighborhood.

The Superintendent of Police will promulgate this order.

General Order No. 558.

A trial board consisting of Captains McGrath, Casey and Daley, having heard by reference a complaint made by Perley S. Skillings, captain, Division 16, against William R. Kilty, patrolman, Division 16, for alleged violations of the Rules and Regulations of the Police Department, to wit:

Charge: Conduct unbecoming an officer.

Specification: In that on the eighteenth day of September, 1934, the said Patrolman William R. Kilty, while in uniform and on duty, was under the influence of intoxicating liquor to such an extent that he was unable to properly perform police duty if called upon so to do; thereby tending to bring into disrepute and criticism his associates in the Boston Police Department and the Boston Police Department as a whole,

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence presented, accepts the plea of guilty made by the said Patrolman William R. Kilty. Patrolman Kilty having been before a trial board previously on a similar charge which would warrant the extreme penalty of dismissal, the Board, however, has taken into consideration the recommendation of his commanding officer that he (Kilty) be allowed to remain in the department. Patrolman Kilty has promised faithfully that he will refrain from the use of intoxicating liquors and he has taken a pledge with his spiritual adviser to that effect. Therefore, the Board respectfully recommends that the said Patrolman William R. Kilty be suspended from duty for a period of sixty days, effective as of September 19, 1934, at 7.45 o'clock a. m., and that at the expiration of the said period of suspension the said Patrolman William R. Kilty be ordered to perform 210 hours' punishment duty."

The commissioner accepts the finding and the recommendation of the trial board and hereby orders that the said Patrolman William R. Kilty be suspended from duty for a period of sixty days, effective as of September 19, 1934, at 7.45 o'clock a. m., and that at the expiration of the said period of suspension the said Patrolman William R. Kilty perform 210 hours' punishment duty.

Civil Service Rule 23, section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

Section 3. With the consent of the commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the commissioner shall not allow reinstatement of a person discharged for cause.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 559.

Chapter 368 of the Acts of the year 1934 becomes effective on October 1, 1934. This act provides for the non-criminal disposition of charges for violation of parking rules and regulations.

The various district courts in this jurisdiction have established fines under the provisions of this act as follows: First offence, $3; second offence, $5; third offence, $10.

The courts have adopted certain forms to be used under the provisions of this act. They are called "Notice of Violation of Parking Rules." In the Municipal Court of the City of Boston, the notices are in a pad form consisting of twenty-four notices, and each notice has serial number. The notices are in triplicate, original, duplicate and triplicate, one to be delivered to the clerk of court, one to the defendant, and one for the police files. The responsibility of printing these forms and placing them in the hands of the police is that of the clerks of court. Each pad is supplied with carbon sheets easy to handle, and the pad is of

such size as to be convenient to fit a coat pocket. Indelible pencil is to be used in filling out all forms.

Commanding officers of each division are instructed to go to the office of the clerk of the court in their jurisdiction and request a sufficient number of these pads for use in their division. The commanding officer will be required by the clerk of the court to receipt for these pads, and will be held personally accountable for each pad obtained from the clerk of the court.

A brief analysis of this act as it may affect the department is as follows:

It is the duty of a police officer who takes cognizance of a violation of a parking rule or regulation forthwith (1) to give to the offender a notice to appear before the clerk of the district court having jurisdiction. The officer taking cognizance of such a violation shall make out this notice in triplicate. It must contain the name and address of the offender; the number of the vehicle, and the time and place for appearance in the clerk's office. The date for such appearance shall not be later than five days after the time of the violation. In the majority of cases it is probable that the police officer will not find the offender in the car which is parked in violation of a traffic rule or regulation. Therefore, it will not be possible to obtain the number of the license. If the number of the driver's license cannot be obtained it is not essential to obtain same as this in itself will not vitiate the notice.

(2.) When it is not possible, as will be the case generally, to deliver a copy of the notice to the offender at the time and place of the violation, a copy must be sent by the officer within twenty-four hours of the offence by registered mail, directed to the address of the registrant of the motor vehicle involved as appearing in the records of the Registry of Motor Vehicles. The provision requiring that the notice be sent within twenty-four hours of the offence is mandatory. In connection with sending notice of the violation to the registered owner of the motor vehicle involved, the attention of the department is called to the case of Commonwealth *v.* Ober, which held that the owner of a registered vehicle whether the particular violation or violations were by the owner or were by a person allowed, permitted or suffered by the owner of any vehicle registered in his name in any street, way, highway, road or parkway under the control of the City of Boston, such evidence established a *prima facie* case; that the owner of the car could be found guilty of violating the traffic rules and regulations without proof that he parked the car himself in violation of such rules and regulations.

(3) At the completion of the tour of duty of the officer who is assigned to parking violations, such officer shall deliver to his commanding officer the pad used for that day, and shall account for each notice in said pad. The commanding officer of each division shall see that the proper registered notice is sent out to the offender. The part of the notice for police files shall be kept in a proper cabinet in each division so that ready reference may be made to it. The notice for police files shall be filed by registration number of car. The clerk in charge shall place in left-hand corner of notice the registration number of car in red ink.

(4) Officers assigned to this work shall be instructed that only the notice and pad prepared by the district court in whose district the violation occurs shall be used by the officer when he takes cognizance of such violation. The clerk of each district court is required by this law to maintain a separate docket of all notices to appear, and in case any offender fails to appear, to notify the Registrar of Motor Vehicles, and to again notify the registrar when the resulting criminal case has been disposed of in accordance with law; to receive upon the request of any offender who may appear personally or through a person duly authorized in writing to take the charge for confessed; to determine the previous record of the offender in his own court within the period of one year, and therefore ascertain whether the offender has been before said court within said period for the same offence; if the offender has not appeared in excess of three times within the year, to notify him of and to receive from him the established fines; if the violation is a fourth or subsequent offence within the particular court and the period of one year, to notify the offender that the provisions of chapter 368 are not open to him. and in case a person notified to appear fails so to do and to pay the fine or forfeiture as required, or having appeared desires not to avail himself of the benefits of the procedure established by this act, or has been before the court three times within one year for the same offence, to notify the officer concerned and to issue a complaint upon the request of said officer, which complaint shall be followed by the procedure established for criminal cases.

(5) In cases where the offender does not avail himself of this act, or where he cannot avail himself of this act, upon notification by the clerk of the court, the commanding officer of the various divisions shall follow out the procedure now used for obtaining summonses for violation of traffic rules and regulations.

The present system for tagging of automobiles violating the traffic rules and regulations is hereby abolished. Tags placed on automobiles prior to October 1, 1934, shall be filed without prosecution. On and after October 1, 1934, the procedure outlined in this General Order shall be followed in violations of traffic rules and regulations.

The following procedure shall be followed by commanding officers in enforcing the traffic rules and regulations.

A sufficient number of men shall be assigned for such duty, and shall serve on such duty for a period of not longer than two weeks. The commanding officer shall at no time assign any officer in his division for such duty for a period longer than two weeks, nor on his own route. Officers assigned to this work shall be instructed to place a tag provided for this purpose on the handle of the door next to curb of all cars noted for violation of the traffic rules and regulations.

"*A.*"

To obtain new style red parking tags division commanders will send a requisition by police officer to the property clerk's stockrooms, 229 Milk street, on Monday, October 1, 1934, at 8 a. m.

Divisions 1, 2, 4 and 16 will make requisition for 1,000 tags each, other divisions will make requisition for 500 each. Additional tags will be furnished from time to time in quantities as needed as shown by experience.

If, at any time, commanding officers find that they cannot make any further assigments in the enforcement of the traffic rules and regulations due to the fact that all men in a particular division have served their period of two weeks, the commanding officer of such division shall report that fact to the superintendent.

All rules and regulations and orders inconsistent herewith are hereby repealed.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 561.

Patrolman Frederick G. Kahler of Division 2 is commended for meritorious police duty performed on August 26, 1934, in swimming to the rescue of a man who had become exhausted in an attempt to have a woman who had leaped into the Charles river.

The commissioner is pleased to recognize the courageous action of Patrolman Kahler on this occasion which probably prevented the loss of life.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 562.

Patrolman Robert C. White of Division 1 is commended for meritorious police duty performed on August 11, 1934, in rescuing two small boys in the water at the Public Landing, City Point. One of the boys had fallen into the water and the other boy jumped in to rescue him but was unable to do so. Patrolman White who was standing on the deck of the police boat about forty feet from the scene, jumped into the water and rescued both boys.

The commissioner is pleased to recognize the courageous action of Patrolman White on this occasion which may have prevented the loss of life.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 560.

Patrolmen Robert E. Bowes and Hazen A. Chalmers, both of Division 1, are commended for efficient police duty performed in connection with the arrests on August 30, 1934, of a band of holdup men who have participated recently in several armed holdup robberies in this city and the metropolitan area.

The commissioner is pleased to recognize the effective police duty performed in accomplishing the arrest of these dangerous characters.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

DAMAGES AWARDED.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement consisting of the laying out and construction of an extension of Orient avenue, East Boston district, as a highway, for a distance of approximately three hundred feet, under the order of the Board of September 27, 1934, and awards no damages therefor.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

NATIONAL INDUSTRIAL RECOVERY PROJECT,
P. W. A. DOCKET NO. 4205-H.

PROPOSALS FOR SHEET ASPHALT OR BITULITHIC PAVEMENT IN WALK HILL STREET, WARDS 14, 18, 19, FROM HYDE PARK AVENUE TO HARVARD STREET.

The Commissioner of Public Works of the City of Boston, hereinafter designated as the Commissioner, Room 508, fifth floor, City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt or bitulithic pavement in Walk Hill street, Wards 14, 18, 19, from Hyde Park avenue to Harvard street. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt or Bitulithic Pavement in Walk Hill Street," and left in Room 508, fifth floor, City Hall Annex, before 12 m., standard time, on Wednesday, October 17, 1934, accompanied by a properly certified check on, or a certificate of deposit issued by, a responsible bank or trust company in the sum of three thousand, eight hundred dollars ($3,800), payable to the City of Boston. Checks will be returned after execution of the contract on demand. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. Bids must be made upon the prescribed proposal form. Special attention of the bidder is called to all provisions of the Federal Emergency Administration of Public Works which form a part of the contract, including the prescribed minimum rate of $1.20 per hour for skilled labor, and $0.50 per hour for unskilled labor and to the special provision as to semi-skilled labor. Pursuant to executive order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate (worded in accordance with P. W. A. 61, revised March 19, 1934) duly executed by the bidder. Plans, specifications and contract forms may be obtained at Room 508, City Hall Annex, upon deposit of the sum of five dollars ($5). A surety bond by an approved surety company will be required from the successful bidder in an amount not less than the full amount of the contract. Application should be made in person at Room 25, 15 Beacon Street, Boston.

—

On question from Dr. Lyons as to the amount of money that will be available for Boston and the number of persons who may be employed under the plan, the Superintendent made the following statement:

From the money assigned to Massachusetts, Boston's allotment will be about $13,000 per month, which amount may be increased as other communities may fail to take advantage of the opportunity. The compensation for teachers will be fifteen dollars a week, which will probably make possible the employment of from 150 to 200 teachers, provided the applicants for admission to the classes warrant.

Dr. Lyons: I would suggest that if the opportunities for employment under this Federal grant be given due publicity through the press, it will be of advantage to the people of this city and will make possible the building up of the classes.

Chairman: I would point out that the rules that govern the regular E. R. A. employment also will regulate the employment of teachers.

Under these regulations there will be three classifications: The first composed of persons who have two or more entirely dependent upon them for support and have no other sources of income. The second classification will include those who have at least one dependent. The third classification will include single individuals without income, and unemployed.

In view of the great number of unemployed teachers in the city, the first classification probably will exhaust the Boston school allotment.

INSPECTION OF SCHOOL LUNCHROOMS

Dr. Mackey offered the following:

ORDERED, That the Board of Health of the City of Boston is hereby requested to make semi-monthly investigations of the foods served in the school lunchrooms, and, secondly, that the School Committee and those private agencies furnishing food supplies for the city, are hereby requested to buy only from concerns that observe the rules and regulations of the N. R. A.

The motion passed unanimously.

The Committee adjourned.

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, OCTOBER 13, 1934. NO. 41

MAYOR MANSFIELD PAYS GREAT TRIBUTE TO JEWISH RACE AND ITS PROGRESS IN AMERICA — TAKES LEADING PART IN THE DEDICATION EXERCISES OF THE LADIES' HELPING HAND HOME IN BRIGHTON — CALLS ATTENTION, IN ADDRESS, TO GREAT NAMES ADORNING HISTORY OF AMERICA AND THE PARTS PLAYED IN DISCOVERING, FOUNDING AND BUILDING UP THE NATION — POINTS TO OUTSTANDING WORK OF RACE IN PHILANTHROPIC FIELD.

The following are the remarks of Mayor Mansfield at the dedication exercises of the Ladies' Helping Hand Home, 35 Chestnut Hill avenue, Brighton, on Sunday, October 7, 1934, at 2.30:

It is always a sincere pleasure for me to address a gathering of Jewish people engaged in a great philanthropic work. The Jewish people are no newcomers to this community, or indeed to this country. As we approach the celebration of Columbus Day, it is perhaps appropriate to remark that the Jewish people had a part in the discovery of this land. History bears out the fact that a prominent Spanish Jew, one Louis Santangel, prevailed upon the Queen of Spain to refrain from dismissing Columbus, and arranged in large part for the finances that made Columbus' famous journey possible. History also bears out the fact that the physician and interpreter and several sailors who accompanied Columbus were Jews.

Castelar in his "History of Columbus" says: It chanced that one of the last vessels transporting into exile the Jews expelled from Spain by religious intolerance passed by the little fleet bound in search of another world whose new-borne creation should afford a haven to the quickening principle of human liberty and be a temple reared to the God of enfranchised and redeemed conscience."

After the discovery of America the Jewish people came to this land as a haven of refuge from the persecution to which they were subject in other lands, — like the passengers on the "Mayflower" that sought liberty and freedom from bigotry and intolerance. They sought equality of opportunity, and life, liberty and the pursuit of happiness.

American Traditions Adopted.

As the years rolled on, they became more and more a part of American institutions and American traditions. They contributed in large measure to the progress and culture of our nation. Today they hold important positions in the fields of science, music, art, medicine, law, and, indeed, in practically every field of endeavor. This is not surprising, for the long history of the Jewish people has so inculcated them with a deep desire for freedom, tolerance and the fundamental principles of democracy, that these things have been paramount in their minds during their progress.

It is in the field of philanthropy, in particular, that the Jewish people as a race have become outstanding.

Never have they failed to look after their own. In every Jewish center in this country — in fact in every Jewish center of the world in which they have been given an opportunity to do so — they have established philanthropic agencies to look after those among them who by force of circumstances have been unable to look after themselves.

Here in the great City of Boston the noble and effective philanthropic endeavors of the Jewish people are well known and well appreciated by the entire citizenry, particularly in these days of depression when governmental agencies are striving against almost insurmountable odds to save the destitute and the unfortunate from despair and death. It is an inspiration to know that the Jewish people are marching onward undaunted by the trying times. Theirs is a will to succeed, and they shall succeed.

It is because of these facts that I am so happy to be with you this afternoon. The Ladies' Helping Hand Home for Jewish Children is not unknown to me. Many of its members are my neighbors in Roxbury. With their work I am quite familiar. For thirty-seven years they have worked to further the welfare of unfortunate destitute children. Theirs has been a noble service. They have guided large numbers of children, deprived of the guardianship of their parents for one reason or another, through the tender years of their lives and enabled them to get started on the right course. They have given these children the advantages of vocational, spiritual and cultural training. What a great satisfaction it must be to these women to see many of these children now grown to manhood and womanhood standing shoulder to shoulder with their more fortunate brothers and sisters and thanking God for the opportunity made possible by the unselfish devotion of the women of this organization.

The new program to be followed in this great edifice which we dedicate today, I understand, is the emphasis of the care of children during the period of convalescence. There is no need of testimony from me that such care of children whose family circumstances make it otherwise impossible is of vital importance. Proper care during the period of convalescence is as important and necessary as medical attention during the period of critical illness, or cultural or religious attention during the period of good health. In embarking upon this program the women of your organization are entering upon a great service — a service which adds an important element to the long list of philanthropies in which your people are now engaged. The City, the State, and the Nation owe you a debt of gratitude. The citizenry as much as the children whom you have befriended and whom you shall hereafter befriend appreciate your efforts.

As Mayor of the City of Boston I want to thank you for furthering this great philanthropy, and I join with the citizens of Boston in wishing you the greatest measure of success.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the shipteeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKELL DOLE.

MAYOR MANSFIELD VETOES ORDER FOR CATCH-BASIN CLEANING EQUIPMENT.

Boston, October 9, 1934.

The Mayor has issued the following letter:

To the City Council.

Gentlemen,—I return herewith without my signature and with my disapproval the order adopted by your honorable body on September 24, 1934, appropriating for the Public Works Department, Sewer Division, $25,000 by transfer from B-Service Other Than Personal, to C-Equipment. This order was originally submitted by me to the City Council on July 30, 1934, where it was referred to the Executive Committee, and although the Executive Committee reported that the order ought to pass on that same day, the matter was held in the City Council and was not passed until September 24 as above stated.

The purpose of this order was to purchase catch-basin cleaning equipment so that the cleaning of catch-basins might be done by City of Boston employees instead of by contract, and it was thought that the money might better be expended for the purchase of equipment which would then be permanently the property of the city, than to expend substantial sums for cleaning catch-basins which would have to be repeated year after year while the city was without necessary machinery.

I have not changed the opinion which I expressed in my communication to the City Council on July 30 and I still think it would be advisable for the city to expend $25,000 for the purchase of catch-basin machinery, but unfortunately the matter has been delayed so long and the season has advanced so far that it would probably be impossible to readvertise for bids on the machinery and to consummate the purchase of it in time to be of use to the Public Works Department before the weather becomes so cold that the machinery could not be used.

Bids were called for by the Superintendent of Supplies upon July 30, 1934, and he recommended the letting of a contract to the lowest bidder, but since the order making the appropriation had not been adopted by your honorable body, it was impossible to let the contract; and now under the law all of these bids originally obtained are obsolete and it would be necessary to re-advertise for bids for this machinery.

All of these considerations lead me to conclude that it would be advisable to do whatever remaining catch-basin cleaning is necessary, by contract, and provide for the purchase of the machinery in the new budget for 1935.

Respectfully,

Frederick W. Mansfield. Mayor.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Department to raze the following structures as fire menaces or nuisances:

Upon October 4 the Mayor approved a contract with the D'Amore Construction Company in the sum of $128,740 without lockers, for the addition and alterations to the East Boston High School:

D'Amore Construction Company, $128,500 (add $1,800, if wood floor as added is demanded); alternate No. 1,* deducted $1,660; Rugo Construction Company, $136,840, alternate No. 1,* deducted $1,200; Carilli Construction Company, $137,000, alternate No. 1,* deducted $1,500; John Bowen Company, $137,550, alternate No. 1,* deducted $1,300; J. A. Singarella, Incorporated, $138,740, alternate No. 1,* deducted $1,300; F. J. Van Etten, $167,850, alternate No. 1,* deducted, $1,320; A. Piotti Company, $147,305, alternate No. 1,* deducted, $1,300; M. S. Kelliher Company, $140,694, alternate No. 1,* deducted $1,200.

* Alternate No. 1 for the omission of pupils' lockers.

—

The addition of $1,800 to the D'Amore proposal was included by all the other contractors in their proposal without specifying the amount. This was an addition asked for by the School Committee authorities and apparently the D'Amore Company felt that it should be an addenda in money as well as in fact, but the proposal for everything called for in the specifications by the D'Amore Construction Company, the low bidders under alternate No. 1 is $128,740.

Penal Institutions Department.

Upon October 9 the Mayor approved a contract with the Bethlehem Shipbuilding Corporation, Limited an (emergency contract) in the sum of $1,240 for the following work:

1. Dry dock vessel. Clean hull and supply and apply two coats of anti-corrosive paint from keel to load line. Supply one coat of anti-fouling paint from keel to load line. Cut in water line. Paint hull above waterline one coat up to the guard. 2. Scale entire waterline about 181 feet and about 12 inches wide. 3. Scale all white at stern up to guard as directed. 4. Apply one extra coat of A. C. 5. Scale plates on first strake below water line full length of vessel. 6. Install 12 foot doubler over stem. 7. Weld rivets port and starboard side of hull as directed. 8. Weld seams port and starboard side of hull as directed. 9. Make changes on forward end of rudder as directed. 10. Renew rope guard port and starboard sides, front and back. 11. Unship rudder and rebush pintles. 12. Overhaul scuppers, or renew as directed. 13. Seacocks and strainers to be cleaned and overhauled; renew strainer on forward hand pump section. 14. Renew wood both strut bushings. 15. Retainer rings on strut bearings to be renewed. 16. Inasmuch as this vessel has had wire cable in wheels and also considering the ice she encountered last winter, it is recommended that tail shafts be drawn for examination. 17. Overhaul skin valve on blowoff line. 18. Renew rope guards where missing on both struts.

The boat was put in dry dock on October 4, and, upon examination, in addition to the painting of the hull the other work was required for its operation by the United States Steamboat Inspection Service.

At the conclusion of this work there will still be other necessary repairs to be made both in the deck department and in the engineering department, but at that time other bidders will give figures in addition to the Bethlehem Shipbuilding Corporation, Limited.

Supply Department.

Upon October 5 the Mayor approved a contract with bidders, as indicated, for furnishing groceries and canned goods to the various city departments for the period from October 1 to March 31, 1935.

Samples were requested from the bidders on the various items and these samples were submitted to the United States Department of Agriculture for testing and sampling. Tests were first made of the samples submitted by the lowest bidders and if they met the specifications, awards were made to them. In the event that the lowest bidders' samples were not satisfactory, samples submitted by the next lowest bidders were examined and awards made to these bidders, if the samples passed the specifications. This method was pursued until satisfactory samples were obtained. Following the procedure outlined above, the approximate awards to the various bidders are as follows:

Webster-Thomas Company, $16,165.09; H. A. Johnson Company, $15,704.10; Suffolk Grocery Company, $6,065.48; George D. Emerson Company, $5,781.34; Libby, McNeill & Libby, $3,524.17; John J. —

Upon October 9 the Mayor approved a contract with low bidders, as indicated, for approximately 1,250,000 gallons of range oil for the Welfare Department, to be supplied from November 1, 1934, to December 31, 1934, with the privilege of purchasing, on the same terms and conditions, until April 30, 1935.

All bids were, in accordance with the petroleum code, based on a posted price on the day and at the time bids were opened, and at a maximum or top price, which is one cent ($0.01) per gallon higher than the posted price. Some bidders have quoted quantity discounts.

An analysis of the bids received, summary of which is attached, shows low bidders (based on posted prices on the day bids were opened and quantity discounts, where quoted) in the various districts to be as follows:

(1.) E. F. Loonie, Jr., 249 Ruggles street, Boston: Dorchester, 172,500 gallons; Roxbury, 259,800 gallons; South Boston, 143,600 gallons; South End, 75,000 gallons; Jamaica Plain, 77,500 gallons; total, 728,400 gallons at 6.75 cents, $49,167.

(2.) East Boston Coal Company, East Boston: Charlestown, 57,500 gallons; East Boston, 243,600 gallons; total, 301,100 gallons at 5.9 cents, $17,764.90.

(3.) Pennsylvania Oil Company, 247 Cambridge street, Boston: North End, 66,500 gallons; West End, 42,500 gallons; total, 109,000 gallons at 7 cents, $7,630.

(4.) Lynch Superservice Station, 501 Old Colony avenue, South Boston: Hyde Park, 50,000 gallons at 7 cents, $3,500.

(5.) Alfred E. Ventola, 9 Factory street, Hyde Park: West Roxbury-Roslindale, 24,000 gallons at 7.5 cents, $1,800.

(6.) In the remaining district, Brighton and Allston, which will require approximately 37,500 gallons, five bids were equal at 7.75 cents per gallon, making an approximate value, $2,906.25.

In this district the award was made to the Hanley Oil Company, Incorporated, Fish Pier, South Boston.

The total expenditure involved in these several contracts, figured at the bid posted price, including all discounts, where quoted, amounts to approximately $82,768.

Bids, opened September 14, were as follows:

Laid over a week under the law.

TRAFFIC SURVEY, TREMONT AND WASHINGTON STREETS.

The following was received:

City of Boston,
Office of the Mayor, September 24, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Police Commissioner, relative to an order adopted by your honorable body, concerning a traffic survey on Tremont and Washington streets.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

BOSTON, September 17, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mayor Mansfield,—In reply to communication from your assistant secretary, John F. Gilmore, dated June 13, requesting a report in connection with the order of the City Council dated May 28, 1934, which reads as follows:

"Ordered, That the Traffic Commission and the Police Commissioner, through his Honor the Mayor, be, and hereby are, respectfully requested to make a check-up and survey for possible improvement of traffic conditions on Washington street and on Tremont street, especially during the hours, from 9 a. m. to 11 a. m., and from 4 p. m. to 6 p. m.,"

I am sending you herewith copies of reports submitted to me by Superintendent of Police Martin H. King which are self-explanatory.

Very truly yours,
E. C. HULTMAN,
Police Commissioner.

City of Boston,
Police Department, Bureau of Traffic,
August 16, 1934.

To the Superintendent.

Sir,—With reference to the attached communication from John F. Gilmore, Jr., assistant secretary, Office of the Mayor, City Hall, Boston, in relation to order of the City Council, May 28, 1934, which order requests consideration and report, addressed to the Police Commissioner and which reads as follows:

"Ordered, That the Traffic Commission and the Police Commissioner, through his Honor the Mayor, be, and hereby are, respectfully requested to make a check-up and survey for possible improvement of traffic conditions on Washington street and on Tremont street, especially during the hours from 9 a. m. to 11 a. m. and from 4 p. m. to 6 p. m.,"

I respectfully report that I directed Sergt. Charles J. Wallace of this Bureau to make an inspection and study of the traffic conditions in Washington street and Tremont street, during the hours of 9 a. m. to 11 a. m. and 4 p. m. to 6 p. m., for the purpose of learning as to whether or not he could find any traffic conditions that needed correction, which would result in an improvement in the movement of traffic in Washington and Tremont streets, especially during the hours, as mentioned above, and to report to me the result of his check-up and survey, as made by him and the other officers from this Bureau, in conjunction with investigators of the Boston Traffic Commission, and in such report to give reasons, if any, that would better traffic conditions in both of these streets.

Attached you will please find report of Sergt. Charles J. Wallace of this Bureau with reasons offered as to what, in his opinion, would be the means of expediting traffic in both Washington and Tremont streets, all of which I approve and recommend be carried out.

One condition that I have observed recently is that when persons proceeding along Tremont street outbound and who wish to make a left turn into Boylston street easterly are hindered from entering Boylston street when it is cluttered up with motor vehicles from Washington street to Tremont street, thus impeding traffic inbound when the signal lights are set to go ahead. This has happened once or twice since traffic has begun to pick up, of late. It is brought about by the left turn from Tremont street into Boylston street, and if this condition continues during the period of heavy traffic that comes about in the fall, I will make a recommendation that this left turn, from Tremont street into Boylston street, easterly, be abolished, but, as it is now in its trial period, and which is in effect until October 31, 1934, I will not offer any opposition to this rule at this time.

I respectfully request that this report be brought to the attention of the Mayor's office, as directed.

Respectfully submitted,
JOHN T. O'DEA,
Lieutenant Commanding,
Bureau of Traffic.

City of Boston,
Police Department,
Bureau of Traffic, July 10, 1934.

Lieut. John T. O'Dea,
Commanding Bureau of Traffic.

Sir,—In compliance with your orders, I respectfully report that I made a survey and check-up on the movement of traffic in Washington and Tremont streets, during the hours of 9 a. m. to 11 a. m. and from 4 p. m. to 6 p. m. on the following dates: June 25, 27, 29; July 3 and 5, 1934. This was the result of an order passed by the Boston City Council on May 28, 1934.

In cooperation with members of the Boston Traffic Commission, the following is a check-up of the movement of traffic in Washington and Tremont streets, during the hours and dates specified above.

June 25, 1934—891 taxicabs going south in Tremont street, 308 taxicabs going north in Tremont street, a total of 1,199 cabs; 883 taxicabs going north in Washington street.

June 27, 1934—783 taxicabs going south and 310 taxicabs going north in Tremont street, a total of 1,093 cabs; 977 taxicabs going north in Washington street.

June 29, 1934—776 taxicabs going south and 287 taxicabs going north in Tremont street, a total of 1,063 cabs; 942 taxicabs going north in Washington street.

July 3, 1934—741 taxicabs going south and 289 taxicabs going north in Tremont street, a total of 1,030 cabs; 1,027 taxicabs going north in Washington street.

July 5, 1934—670 taxicabs going south and 381 taxicabs going north in Tremont street, a total of 1,051 cabs; 967 taxicabs going north in Washington street.

The above check on taxicabs was made at the following intersections: Temple place and Tremont street; Summer and Washington streets.

Of the above number of taxicabs, according to our checking, approximately 17 per cent of these cabs operating in Tremont street were cruising, and on Washington street, approximately 15 per cent cruising cabs.

On the above named dates, I also had test runs made with department automobile, M-14, a Plymouth sedan, over the following streets: Starting at Washington and Stuart streets, thence Washington Street North to Brattle street, thence Scollay square to Tremont street, thence south on Tremont street to Stuart street, east on Stuart street to the point of beginning. These test runs were made between the hours of 9 a. m. and 11 a. m. and 4 and 6 p. m., which is considered to be the busiest hours of the day for the movement of traffic. The average elapsed time on the five days was fourteen minutes and the distance covered was 7,650 feet or 1.45 mile.

On the same dates and hours, as the check-up on taxicabs, the investigators of the Boston Traffic Commission, working under the supervision of Traffic Engineer Desmond, took a total count of all vehicles, other than taxicabs, as follows:

June 25, 1934—1,964 vehicles north, 3,360 vehicles south in Tremont street, a total of 5,324 vehicles.

June 27, 1934—1,889 vehicles north, 3,086 south in Tremont street, a total of 4,975 vehicles.

June 29, 1934—2,119 vehicles north, 2,868 south in Tremont street, a total of 4,987 vehicles.

July 3, 1934—1,861 vehicles north, 3,203 south on Tremont street, a total of 5,064 vehicles.

July 5, 1934—2,219 vehicles north, 3,267 south in Tremont street, a total of 5,486 vehicles.

This makes a total of 10,052 vehicles going north in Tremont street for the five days, or an average of 2,010 for each day; also a total of 15,784 vehicles going south in Tremont street for the five days, or an average of 3,157 for each day.

June 25, 1934—4,270 vehicles going north on Washington street.

June 27, 1934—3,993 vehicles going north on Washington street.

June 29, 1934—3,884 vehicles going north on Washington street.
July 3, 1934—3,801 vehicles going north on Washington street.
July 5, 1934—3,852 vehicles going north on Washington street.
This makes a total for the five days of 19,900 vehicles going north on Washington street, or an average of 3,980 vehicles each day.
I would recommend, for the facilitating of traffic movement on Washington and Tremont streets.
That all traffic regulation in Temple place be abolished and a rule put into effect which would prohibit parking in Temple place on the north side for a distance of 100 feet back from Washington street.
That the taxicab stands, which are now located in School street, in front of the Parker House, and now extend from Tremont street to the side entrance of the Parker House on School street, be moved down School street so that they would extend from the School street entrance of the Parker House to Chapman place.
That there be a strict enforcement of the parking rules in Avery street and Haywood place.

Respectfully submitted,
CHARLES J. WALLACE,
Sergeant, Bureau of Traffic.

BOGANDALE ROAD, WARD 20.

The following was received:

City of Boston,
Office of the Mayor, October 1, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Board of Street Commissioners, relative to your order of September 7, 1934, concerning the acceptance and laying out of Bogandale road, Ward 20, as a public highway.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I am returning herewith copy of City Council order requesting the acceptance and laying-out of Bogandale road, Ward 20, as a public highway.

No plan of this street has been prepared by our Engineering Division and, notwithstanding the fact that there is some merit to the request, it is a project which cannot be undertaken at the present time owing to the fact that there is very little money available for street construction, and the further fact that there are many other streets awaiting construction which should take precedence.

Respectfully yours,
OWEN A. GALLAGHER,
Chairman.

WOMEN EMPLOYED ON FEDERAL PROJECTS.

The following was received:

City of Boston,
Office of the Mayor, October 1, 1934.

To the City Council:

Gentlemen,—Upon the adoption of the order by your honorable body on September 24 that:

"The Mayor of Boston be requested to consider the advisability of investigating into the matter of there being but 990 women employed on P.W. A., E. R. A., and C. W. A. projects in Boston at the present time out of a total employment of 11,681," a request for a report was sent to the Emergency Relief Administration of Massachusetts, 49 Federal street, of which Joseph P. Carney, Esq., is administrator, and to the local office at 80 Joy street, of which Thomas F. Sullivan, Esq., is now administrator. I am inclosing copies of their reports, and also a copy of a letter, dated June 1, 1934, from Mr. Carney's office suggesting that a minimum of 10 per cent of the money allotment be allocated for women's projects after July 1. C. W. A. projects are finished and there are no women employed on P. W. A. The inclosed reports, therefore, refer to E. R. A. only.

In the report from Mr. Carney's office, it will be noted that for the week ending September 13, 1934, out of a total of 11,192 persons employed in Boston, 9,808 were men and 1,384 were women—about 12.3 per cent of the whole number, and 14.11 per cent of the number of men employed. That report also shows that the amount of money paid to the men for that week was $150,846.65 and to the women $19,415.37, or about 11½ per cent of the whole amount of $170,262.02.

The report from the local administrator's office, however, brings the report up to and including September 20. It shows a total of 1,528 women employed during that week, instead of 990 mentioned in the above-quoted order from your honorable body. It will also be noted that there were assignments for 125 additional women which I am informed were contemplated prior to September 20 but had not been completed so that they could not be included in that week. These additional assignments would bring the total to 1,653 women employed in E. R. A. with a corresponding increase in the percentage of women employed. You will also find in the report from Mr. Carney's office the comparative figures for the week ending September 13 for twenty-two other cities in Massachusetts. According to the information which I have received it is the intention of the Federal and local E. R. A. authorities to employ a larger percentage of women than have been employed heretofore.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Emergency Relief Administration of
Massachusetts.
Boston, September 26, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mayor Mansfield,—In compliance with your request relative to the number of women that are employed on E. R. A. work projects in the principal cities and towns of the Commonwealth, we inclose herewith a summary transcribed from the pay roll records for the week ending September 13, 1934.

You will also find inclosed copy of our Bulletin E.R.A.M. No. 41, dated June, 1 calling local administrator's attention to the fact that needy women are to have work opportunities provided for them, in order that they may participate in this program

In establishing a minimum of 10 per cent that would be set aside from the monthly allotment for towns and cities for women's work we did so to insure women receiving consideration, and beyond the 10 per cent it must be determined on the total number of men and women applying for work and their basis of need.

We trust that this information will be of assistance to you.

Yours very truly,
EMERGENCY RELIEF ADMINISTRATION OF MASSACHUSETTS.
B. F. McELLIGOTT,
Executive Director.

Emergency Relief Administration
of Massachusetts,
49 Federal Street, Boston, June 1, 1934.

To all E. R. A. Administrators.

In making the allotments to cities and towns this month, we have made them on the basis that women shall have consideration in all cities and towns.

We do not at this time wish to lay down a hard and fast rule in regard to this because we do not wish to upset the present status of affairs in any city or town, but we do believe that a minimum of 10 per cent of the money allotment should go to women's projects. We will not insist on this amount for this month, but we wish you to take this into consideration and by the first of July we shall expect that a minimum of 10 per cent of your allotment will be allocated for women's projects, and that you therefore should be looking forward to this and have them ready by that time.

Joseph P. Carney, Administrator.

Federal Emergency Relief Administration,
Local Administrator's Office,
80 Joy Street, Boston, September 27, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

My dear Mr. Mayor,—I have your letter of September 25 requesting the total number of women employed on the E. R. A. in the City of Boston, with their respective classifications and hourly rates.

On the work projects the women work twenty-four hours a week, and on the S-G-2 pay roll, or the Administrative Group, they work thirty-nine hours a week.

I am inclosing a classification list of women on our pay roll up to and including September 20, which shows a total of 1,528 employed, 1,497 of which are on a relief basis and 31 on a nonrelief basis.

In addition to the above, the following assignments are being made, which will account for 125 more women on our pay roll.

22 Typists.
8 Cleaners.
56 Sewers.
3 Supervisors.
2 Stenographers.
25 Clerks.
5 Choral Conductors.
1 Power Operator.
1 Costume Designer.
1 Proofreader.
1 Mattress Worker.

This will make a sum total of 1,653 women employed on the E. R. A.

Very truly yours,
William L. Hayes,
Assistant Administrator,
Local Emergency Relief Administration.

RESIGNATION OF CONSTABLE.

Notice was received from Gilbert I. Favor tendering resignation as constable of City of Boston.

Placed on file.

DWINNELL STREET, WARD 20.

The following was received:

City of Boston,
Office of the Mayor, October 1, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Board of Street Commissioners, relative to your order of September 7, 1934, concerning the acceptance and laying-out of Dwinnell street, Ward 20, as a public highway.

Respectfully,
Frederick W. Mansfield, Mayor.

—

City of Boston,
Board of Street Commissioners,
September 24, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I am returning herewith copy of City Council order requesting the acceptance and laying-out of Dwinnell street, Ward 20, as a public highway.

No plan of this street has been prepared by our Engineering Division and, notwithstanding the fact that there is some merit to the request, it is a project which cannot be undertaken at the present time owing to the fact that there is very little money available for street construction, and the further fact that there are many other streets awaiting construction which should take precedence.

Respectfully yours,
Owen A. Gallagher,
Chairman.

Placed on file.

TRANSFER OF FUNDS, LAND COURT.

The following was received:

City of Boston,
Office of the Mayor, October 1, 1934.

To the City Council.

Gentlemen,—I submit herewith an order providing for a transfer of funds within the budget appropriations of the Land Court. This transfer is necessary to cover a deficit in the office equipment account of the court occasioned by the purchase of a new adding machine to replace one that has been in use for about fifteen years.

I respectfully recommend adoption of the accompanying order by your honorable body.

Respectfully,
Frederick W. Mansfield, Mayor.

—

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to make the following transfer in the appropriations for Land Court:

From the appropriation for D, Supplies, $25.90, to the appropriation for C, Equipment, $25.90.

Referred to Executive Committee.

TRANSFER OF FUNDS, CEMETERY DIVISION.

The following was received:

City of Boston,
Office of the Mayor, October 1, 1934.

To the City Council.

Gentlemen,—I submit herewith an order providing for a transfer of funds within the budget appropriations of the Cemetery Division of the Park Department. This transfer is necessary in order to take care of bills contracted against the stable equipment item which was eliminated from the budget request; to provide markers for new graves which have to be marked for identification; and also to cover a deficit in the workmen's compensation item of the budget due to the fact that there have been more than the usual number of accidents this year

I respectfully recommend adoption of the accompanying order by your honorable body.

Respectfully,
Frederick W. Mansfield, Mayor.

—

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to make the following transfer in the appropriations for Cemetery Division, Park Department:

From the appropriation for B, Service other than Personal, $391.65, to the appropriation for C, Equipment, $241.65; F-11, Workmen's Compensation, $150.

Referred to Executive Committee.

REMOVAL FROM OFFICE OF LOUIS C. TIGAR.

The following was received:

City of Boston
Office of the Mayor, September 26, 1934.

To the City Clerk.

You are hereby notified that I have this day removed from the office of weigher of coal, Louis C.

Tigar, 130 Nicholas street, Everett, on account of his conviction in the Brighton Court of attempted fraud in the delivery of coal

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Placed on file.

WITHDRAWAL AND APPOINTMENT OF CONSTABLES.

The following was received:

City of Boston,
Office of the Mayor, October 1, 1934.

Boston City Council, Council Chamber, City Hall
Boston.

Gentlemen,—The following names are withdrawn from the list of constables submitted by me to your honorable body on April 16, 1934: Lawrence F. McEachern, Henry Markow, William Schneider.

Subject to confirmation by your honorable body, I hereby appoint the following named persons as constables of the City of Boston, authorized to serve civil process upon filing bonds: Patrick J. Quinn, Alfred Blaustein, Eugene Blinderman, David Bashitsky.

Respectfully yours,
FREDERICK W. MANSFIELD, Mayor.

Severally laid over a week under the law.

Summer street, Ward 20	1,484 95
Washington street, Ward 11	696 92

Orders severally passed under suspension of the rule.

REPEAL OF NEW PARKING LAW.

Coun. BRACKMAN offered the following:

Ordered, That the Legislative Committee of the City Council be requested to file a bill with the incoming Legislature providing for the repeal of the new parking law which becomes effective today.

Coun. BRACKMAN—Mr. President, I think that this new parking law is one of the worst pieces of legislation that has been enacted during the last year. It bids fair to cause no end of trouble. One of its outstanding features is that it places the police of Boston in the position of being judge and jury on particular violations. I believe it is going to work an undue hardship on the people of Boston coming into the city to do their business and their shopping, and it is also going to react against the merchants of the City of Boston in the transaction of their business. I have spoken to some of the clerks of court and captains of police in regard to this legislation, and they practically unanimously agree that it is a bad law and that it should be repealed. Therefore, I am asking that the Legislative Committee of the Council be requested to file a bill with the incoming Legislature providing for the repeal of the law.

Coun. SHATTUCK—Mr. President, it would seem to me, sir, in a matter of this kind, dealing with a law that has just been passed and has not yet gone into operation, that we would be a little quick on the trigger in passing at this time under suspension of the rules an order requesting its repeal. Undoubtedly the present situation is very unsatisfactory, and possibly under the law it may be more unsatisfactory. We do not know. But certainly the present situation is very unsatisfactory, the streets of the City of Boston being largely used for the free parking of automobiles, with consequent interference to people doing business in Boston through the blocking of the streets and the difficulty that people have in obtaining proper access to and egress from the stores where they want to do business. People are now parking all day in the streets cars that should be placed in a garage or in an open parking space. It seems to me a bad situation that we are suffering from at the present time, a situation that this law was intended to alleviate or prevent. I trust, therefore, that we will not act under suspension of the rule on the present proposition.

The rule was declared suspended. Coun. SHATTUCK doubted the vote and asked for a show of hands. The Council, by show of hands, refused to suspend the rule, and the President declared the order referred to the Executive Committee.

CHANGE OF PARKING LIMIT HOURS.

Coun. GOLDMAN offered the following:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to change the present parking limit of one hour to three hours.

Coun. GOLDMAN—Mr. President, adding to what Councilor Brackman has said, I wish to say that I quite agree with him. I think it is time that we grasped the seriousness of the situation and took steps to stop quickly, even if it may be considered that we are quick on the trigger, what is now confronting the people of this city under the new parking law. I think this order I have offered is one that will change the whole situation and remove the present difficulty. To change the one-hour parking rule to three hours will clarify the whole situation. I understand that the law is not intended to be paramount to parking regulations of the cities or towns, that it does not contemplate changing the parking rules prevailing in the different communities. We have here, for example, a rule that allows in certain places one hour parking. To allow three hours of parking will not interfere with the law, and at the same time will not work an injustice to those who are coming in to Boston to do business. So, Mr. President, I move a suspension of the rule and the passage of the order at this time.

President DOWD—The Chair feels, inasmuch as the previous order dealing with parking has been referred to the Executive Committee, that this also should be so referred.

The order was referred to the Executive Committee.

AUTOMOBILE WARNING SIGNS, WARD 7.

Coun. KERRIGAN offered the following:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to place automobile warning signs reading "Look Out for Children" in front of all schools in Ward 7.

Passed under suspension of the rule.

SIDEWALKS ON SOUTHAMPTON STREET.

Coun. KERRIGAN offered the following:

To be done under P. W. A. Docket No. 4205, National Industrial Recovery Project.

Ordered, That the Commissioner of Public Works make a sidewalk along Southampton street (both sides), Andrew square to Massachusetts avenue, Wards 7 and 8, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

PLACING OF E. R. A. MEN.

Coun. SELVITELLA offered the following:

Ordered, That the E. R. A. administrator for the City of Boston, Col. Thomas F. Sullivan, be requested, through his Honor the Mayor, to consider the advisability of assigning men to E. R. A. projects nearest to their homes, wherever possible.

Coun. SELVITELLA—Mr. President, I have in mind the great number of projects now under way in this city and the fact that in many cases men assigned to them are being sent to jobs at a considerable distance from their residences, where they could be assigned to something nearby. In East Boston, for example, we have men from West Roxbury and Hyde Park, and men from East Boston are going to West Roxbury and Hyde Park. I can cite a number of cases where men are thus assigned and, in spite of the small pay they are getting, $12 a week, suffer the burden of additional carfare. Therefore, wherever possible, I think it would be a good, practical idea to have men in East Boston assigned to projects in East Boston and men in other sections assigned to projects near where they live. I believe such a system could be equitably worked out. But where men from different parts of the city are sent to other sections of the city, it seems a little unfair and unjust.

The order was passed under suspension of the rule.

TRAFFIC SIGNAL, CHARLES AND CHESTNUT STREETS.

Coun. SHATTUCK offered the following:

Ordered, That the Traffic Commissioner of the City of Boston be requested, through his Honor the Mayor, to install an automatic traffic signal at the intersection of Charles and Chestnut streets.

Passed under suspension of the rule.

SETTLEMENT OF CLAIMS.

Coun. GOLDMAN offered the following:

Ordered, That the assistants to the Corporation Counsel and investigators of the Law Department be empowered to settle any and all claims against the City of Boston up to and including the sum of fifty (50) dollars, such settlement being subject to the approval of the Corporation Counsel.

Referred to the Committee on Ordinances.

SWIMMING POOL, FRANKLIN PARK.

Coun. GOLDMAN offered the following:

Ordered, That his Honor the Mayor request the Emergency Relief Administration to establish as an E. R. A. project the construction of a swimming pool for children under sixteen years of age, using as a location the subterranean reservoir recently discovered in Franklin Park.

Coun. GOLDMAN—Mr. President, a subterranean cavern was recently discovered in Franklin Park. Subsequent investigation proved that it was formerly used as a reservoir for the storage of water. It is, of course, city property, but has not been used for a number of years. As a reservoir it is now unnecessary and obsolete. The cavern is substantially constructed, and is, or could easily be made, watertight. But no one has yet suggested a practical use for it. Consultation with an engineer discloses the fact that it would be a comparatively simple operation to convert this unused cavern into a modern swimming pool. A committee has been formed, headed by the Blue Hills *News* and various organizations in Dorchester who are continually endeavoring to do something for the district, with a view to having this idea put through. There is now no swimming pool in that place, and it is felt that the children in the vicinity and those visiting the place have as much right to the wholesome, invigorating benefits of a swimming pool as have the children of the North and West Ends, who make such use of the facilities afforded them at the Frog Pond on Boston Common. We therefore make the suggestion that this be dealt with as an E. R. A. project, as it would provide in Boston just such a thing as the E. R. A. administrator is looking for.

The order was passed under suspension of the rule.

REPAVING OF BEECH GLEN STREET, WARD 11.

Coun. ENGLERT offered the following:

Ordered, That the Public Works Department, through his Honor the Mayor, be instructed to repave Beech Glen street, Ward 11.

Passed under suspension of the rule.

ADDITIONAL LIGHTING, FALLON FIELD.

Coun. FINLEY offered the following:

Ordered, That the Park Commission be requested, through his Honor the Mayor, to provide additional lighting facilities on Fallon Field, Roslindale.

Passed under suspension of the rule.

STOP SIGNS, WARD 21.

Coun. AGNEW offered the following:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to place stop signs on/at Chestnut Hill and Wallingford road, Ward 21.

Passed under suspension of the rule.

TRAFFIC SIGNALS, WARD 17.

Coun. WILSON offered the following:

Ordered, That the Police Commissioner be, and hereby is, requested, through his Honor the Mayor, to consider early recommendations either for suitable traffic signals or traffic officer protection in the Pierce square section of Dorchester, at the intersection of Dorchester avenue and River street, Ward 17.

Passed under suspension of the rule.

ADDITIONAL POLICE AT VOTING PRECINCTS.

Coun. WILSON offered the following:

Ordered, That his Honor the Mayor, be, and he hereby is, requested to provide one additional police officer at each of the 367 voting precincts in the City of Boston on November 6, such officers to be sworn in as special officers for election day, to be appointed from the present civil service list of men eligible for appointment to the Boston Police Department.

Coun. WILSON—Mr. President, I am moved to introduce this order for the placing of an additional police officer at each one of the 367 voting precincts of the city first, because of what I believe was fraudulent voting in many wards of the city at the recent primary, which perhaps will be explained at some length before the 6th of November; but chiefly perhaps because of the complaints throughout the city that it was almost an impossible job for the average woman, let alone the average man, to get into the polling booths before the close of the voting hour. I realize that this is not a new situation, that under the present practice, with the limited number of police officers available for election duty, little can be done in preventing voters from being unimpeded, so far as the police are concerned. Additional police will be needed for the purpose, for special duty at this particular time, and the department would probably not be in a position as things stand to furnish them. But we certainly do not want to have the voters of this city impeded on election day, and I therefore suggest that 367 extra officers be sworn in on that day. There would be naturally, in appointing these officers, no suggestion of partisanship. It is obvious that they would have to be appointed from the civil service list of men eligible for appointment to the department.

The order was passed under suspension of the rule.

REMOVAL OF SHADE TREES.

Coun. WILSON offered the following:

Ordered, That the Public Works Department, through his Honor the Mayor, be instructed, having in mind statutory provisions relative to the removal or destruction of shade trees, not to remove shade trees on Adams street, Dorchester, incident to any construction and sidewalk work on said street.

Passed under suspension of rule.

RESCISSION OF SIDEWALK ORDERS.

Coun. WILSON offered the following:

Ordered, That the action of the City Council in passage of lien order for sidewalk along the southerly side of Adams street, Dorchester, of September 24, 1934, with approval by the Mayor of said order, be, and the same hereby is, rescinded and revoked, and that order for sidewalk on the northerly side of Adams street passed by the City Council July 31, 1933, and approved by the Mayor, also be rescinded and revoked, and further that order for sidewalks on both sides of Adams street, passed December 19, 1932 and approved by the Mayor, be rescinded and revoked.

Coun. WILSON—Mr. President, with reference to these orders providing for rescission and revocation of sidewalk orders on Adams street, unfortunately they have picked a street in my ward where it will be necessary, incidental to the construction of sidewalks, to cut down shade trees that have been growing probably for fifty to seventy-five years. If they must resurface the street, well and good, but the people of the street have filed an almost unanimous petition against the removal of these trees. To carry through the contemplated work would mean largely the removal of valuable trees, to no good purpose. Some of the sidewalk, for instance, is near the Cedar Grove Cemetery, and it is hardly to be supposed that times are so bad even now that the dead will turn over in their graves and come out and use the sidewalk in the Cedar Grove section of the city.

The order was passed under suspension of the rule.

RESTORATION OF BUILDING DEPARTMENT EMPLOYEES.

Coun. WILSON offered the following:

Ordered, That his Honor the Mayor, be and he hereby is, respectfully requested to instruct the Building Commissioner to restore to their positions, civil service employees of that department, whose restoration by October 1 was promised prior to City Council passage of order permitting requested step-rate increases for the year 1934.

Coun. WILSON—Mr. President, if my memory serves me correctly, before the great majority of the Council passed the order requested by the Mayor for the step-rate increases—which, as explained at the time, primarily concerned men receiving less than $1,600 a year, we were absolutely assured by representatives of the Mayor's and Budget Commissioner's offices that furloughs were to be called off, and that men in the employ of the Building Department, supposedly protected by civil service for many years, would be restored to their positions. I, for one, and I think other members of the Council, felt that we were assured that men who had held those jobs in the Building Department and who had been thrown absolutely out of work, would be restored to their positions by October 1, that the furloughs would be called off and the men would be placed back at work by that time. They will tell us perhaps that the Building Department is not doing any business, but I am assured by builders in this city that, because of the fact that the department is shorthanded, it is necessary to keep plumbers and others in the department around until five or six o'clock in the afternoon, in order to reach the various buildings. I feel now, in view of what was promised to us in Executive Committee, that the men who were on furlough in that department would be placed back in their positions by the first of October, that that time has now arrived and that the promise should be kept. Therefore, I have introduced this order.

The order was passed under suspension of the rule.

VALIDITY OF REVOCATION OF LICENSES.

Coun. WILSON offered the following:

Ordered, That the Corporation Counsel, through his Honor the Mayor, be, and he hereby is, respectfully requested to advise the City Council forthwith whether all acts and findings of the Licensing Board for the City of Boston during the past month, particularly with reference to revocation of licenses, and having in mind the reported physical incapacity of one member of the Board during said period, are valid under chapter 140 of the General Laws, chaper 284 of the Acts of 1933, and any amendments thereto.

Coun. WILSON—Mr. President, my purpose in introducing this order is because I have learned, I regret to state, that of the three members of the Licensing Board who have been acting upon these licensing matters during the past month, one has been absent because of the condition of his health He has been incapacitated for at least a month, and I believe, in view particularly of some of the drastic steps that have been taken in the last month or two in the matter of revocation of licenses, the Corporation Counsel should advise the City Council whether the acts of the Board, in view of the said physical incapacity of one of its members during that time are valid. While I suppose the member received notices of the meetings, the fact is that at that time he was incapacitated and in the hospital.

The order was passed under suspension of the rule.

VOTING REGISTRATION AND LISTING.

Coun. WILSON offered the following:

Ordered, That the Board of Election Commissioners be, and hereby is,requested, through his Honor the Mayor, to furnish the City Council with the following information forthwith, viz., as of April 1 for each year from 1924 to 1934, inclusive in each of the twenty-two wards of the City of Boston, (1) the number of registered Democrats, (2) the number of registered Republicans, (3) the number of registered voters having no party designation, and (4) the total number of registered voters, and further

Ordered, That at the early convenience of the Board the above information be furnished the City Council by wards with reference to each of the 367 voting precincts in the city.

Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to advise the City Council forthwith with reference to the following:

1. Under the provisions of chapter 254 of the Acts of 1933, must the annual police listing in the various wards and precincts of Boston be made on January 1 rather than April 1, 1935?

2. Must the annual police listing for 1935 be made on January 1 irrespective of whether the City Council makes a new division of the city into wards during 1934?

3. Must the City Council, prior to December 31, 1934, make a new division of the city into wards?

4. If the City Council makes a new division of the wards in Boston, must such new division be for 1935, or may 1936 be made the effective date?

5. Must the registrars, under section 15 of chapter 254 of the Acts of 1933, prepare voting lists by wards and precincts in Boston as of January 1, 1935, if a new divsion of wards is made by the City Council prior to December 31, 1934?

6. With reference to the real estate tax bills recently sent out to property owners in Boston, is the amount of each tax bill at the rate of $37.10 per thousand for the entire calendar year of 1934, or for the final nine months of the current year, with a new tax bill to be rendered for the entire calendar year of 1935.
